The horses were cut loose from the scraper and one of them brought out to safety, with only a bad cut on its leg. **MOTHERS WHO HAVE USED BABY'S OWN TABLETS**

**Always Strongly Recommend Them to Other Mothers.**

Once a mother has used Baby's Own Tablets for her little ones she will use nothing else—actual experience teaches her that there is no other medicine to equal them for any of the minor ailments from which her baby or little ones suffer. Having found the value of the Tablets in her own home, she is always anxious that other mothers should share her knowledge. That is why Mrs. Creighton White, North Noel Road, N.S., writes the following:—"I have a baby seventeen months old and have given him nothing but Baby's Own Tablets ever since he was a week old. I know of no other medicine to equal them, and it is certainly a pleasure to recommend them to other mothers."

Baby's Own Tablets are a mild but thorough laxative that regulate the stomach and bowels; banish constipation and indigestion; break up colds and simple fevers and make the sickly baby well and happy again. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

**Monopolies and Trusts.**

**New York Times:** How can we condemn a foreign government for raising prices by legislation, when our own Government sets out to do the very same thing, and often actually does it, by means of protective duties? Republicans are beginning to speak with hands lifted in horror of foreign controls and "cartels" which work out to the disadvantage of the American consumer. But it is impossible for those who talk like this to prevent Democrats from asking if trusts and combinations and monopolies at home do not bear with equal hardship upon our consuming public. When once you begin asking questions about monopoly, you have got to keep on to the end of the list.
