## KINGSTON PRINTERS OBSERVE BIRTHDAY

Typographical Union Established Here in 1886—Some Old-Timers Present.

The fortieth anniversary of the Kingston Typographical Union No. 204 was celebrated at the Queen's Cafe Saturday night, there being a very large number of members present, among them being Mr. G. H. Comer, one of the oldest printers in Kingston. The principal speaker of the evening was Mr. A. Croseley who gave a highly instructive and interesting talk on education in the penitentiary.

Mr. J. Chatterton, chairman of the birthday committee, welcomed the members and expressed his pleasure at seeing so large a gathering present to celebrate the fortieth anniversary of the local union. President James Laturney also spoke a few words extending a welcome to those present. After the banquet, toasts were proposed to "The King," by Mr. J. Laturney and to "The Typographical Union," by Mr. J. Chatterton and responded to by Secretary J. C. Bennett.

Mr. J. Croseley, speaking of education in the penitentiary, reviewed the work done by the teachers and showed some examples of the work done in art by inmates. Many of the convicts have practically no education whatever. School is held daily from twelve to one o'clock, during which time the convicts are given their lessons and assisted with their studies. The correspondence system is used, the inmates receiving their lessons and handing them in the next day to the teacher for correction. Mr. Croseley stated that the convicts were allowed by the Department of Education to try their examination in the local institution and the papers are sent to Ottawa for examination. During the past three years, between twenty-five and thirty inmates passed their entrance examinations and about ten their matriculation tests, which, Mr. Croseley pointed out, was a very creditable feat considering the very short time allowed for instruction.

Mr. Croseley explained the system used in the library to keep records of where the numerous books are and of how they are distributed. There are 14,000 volumes in the library and during February 14,365 books of various descriptions were issued to the convicts. The speaker mentioned that there are many of the convicts who can not read and in their cases picture books are issued, from which they were able to derive some entertainment. The best of literature is read by the inmates and books of religion are issued by the chaplains. Education in penitentiaries is being developed on a higher scale and in this way the inmates are prepared to lead a better life when they leave the institution. "When a convict leaves the penitentiary, we don't want to see him back again," said Mr. Croseley in closing his remarks, "and by educating him, we prepare them for a better life. Men who take an interest in their studies while confined to penitentiaries very seldom come back and in the majority of cases, make a success of life." A hearty vote of thanks and appreciation for the address was moved to Mr. Croseley.

Mr. Alan Stroud, Mr. E. E. Horsey, Mr. P. Scanlan, Mr. A. W. Cathcart and Mr. G. H. Comer, former members of the local union, were requested to say a few words, and spoke of the forming of the union in Kingston in 1886 and of the early days of printing, when the type was set by hand. All mentioned the splendid opportunities in printing, and advised the younger members to take advantage of all the opportunities offered. Mr. Comer showed the members original copies of the New Year greetings of the British Whig of the years 1843 and 1872.

A message from W. E. Ricard, a charter member living in New York,

was read, in which he expressed his regret at not being able to attend the celebration.

During the evening songs were rendered by Mr. J. Lyons, Mr. M. Turner and Mr. Croseley, Mr. Salisbury being the accompanist, and a cornet solo by Mr. Kitch which was much enjoyed.

Mr. J. Chatterton addressed the members before the closing and expressed his anticipation at seeing a still larger gathering for the next anniversary of the Kingston Typographical Union No. 204.

## JAMES REID

THE LEADING FUNERAL SERVICE.

### ONE OF CANADA'S BEST CHEESEMAKERS DEAD

James Sprott of Eastern Dairy School Passed Away on Saturday.

On Saturday afternoon James Sprott, chief cheesemaker at the Eastern Ontario Dairy School, passed away at the Kingston General Hospital.

The late Mr. Sprott, who was born in Scotland, came to Canada and bought the Catarraqui cheese factory thirteen years ago. For some years he continued to manufacture cheese at Catarraqui, until he was appointed chief maker at the dairy school after the school was rebuilt. As a cheesemaker, he was known all over the Dominion as one of the best. Two years ago he entered cheese in the Royal Agricultural Show, London, England, and was successful in carrying off the third prize in a competition which was open to the British Empire. The council for the County of Frontenac appreciated the honor which he had brought to the county, and made a presentation to him. The next year he again entered the same competition and won the gold medal.

During the years he had been on the staff of the dairy school, he had been a very efficient servant. L. A. Zufelt, superintendent, when speaking of the loss which the school had sustained by his death, said that he was a very capable man and his place will be very difficult to fill.

About a year ago, the deceased was taken ill, but he was able to carry on his duties until December 15th last, when it was found that he was suffering from goitre. During the past three months he had been resting so as to get in fit condition for an operation, which took place on Friday morning.

The late Mr. Sprott, who was thirty-eight years of age, is survived by his wife and seven children, Isa, Duncan, Maisie, Sadie, Phyllis, Campbell and Douglas. The parents of the deceased and his brothers and sisters still live in Scotland.

A funeral took place on Monday afternoon from his late residence, Catarraqui, to Catarraqui cemetery. Rev. Dr. Cooper, of the United Church, of which the deceased was a member, conducted the service.

Small example of what nations call a crisis: "Curse him! If he won't dim his lights, I won't dim mine."

## Completely Relieved After Short Treatment

Ontario Man Suffered With Kidney and Bladder Trouble.

Mr. H. Waldrip, Highly Recommends Dodd's Kidney Pills. Englehart, Ont., Mar. 8. (Special)—"I have used Dodd's Kidney Pills for kidney and bladder trouble. After using a few boxes I felt completely relieved. Was also bothered with a sore back and can honestly say I have not been bothered with any of these symptoms since. Can highly recommend Dodd's Kidney Pills."

Mr. H. Waldrip, a well known resident of this place, send us this statement.

Dodd's Kidney Pills simply heal sick kidneys. They relieve Mr. Waldrip because his ailments were symptoms of kidney disease. When the kidneys get out of order they fall to strain the impurities out of the blood and general lassitude and weakness ensues. This condition is not only disagreeable but dangerous as well. The impurities in the blood are the seeds of disease. If they are not removed Rheumatism, Lumbago, Gravel, Dropsy, Diabetes or Bright's Disease may result.

## DRINK WATER TO HELP WASH OUT KIDNEY POISON

If Your Back Hurts or Bladder Bothers You, Begin Taking Salts.

When your kidneys hurt and your back feels sore don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salt which helps to remove the body's urinous water and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of good water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys may then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help clean and stimulate clogged kidneys; to also neutralize the acids in the system so they are no longer a source of weakness. Often relieving bladder irritation, thus making it possible to urinate. Jad Salts is inexpensive; can not injure; makes a delightful effervescent lithia-water drink, which everyone should take now and then to help keep their kidneys clean and active. Try this; so long as you keep the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.
