"MANNEQUIN" THE SEASON'S MOST OUTSTANDING PHOTOPLAY

A wholesome story of tremendous heart-appeal, a cast of popular players, direction that leaves nothing to be desired, drama, mystery and thrills, staged against a background of fascinating New York—you'll find them all in James Cruze's latest Paramount masterpiece, "Mannequin," which opens a three-day engagement at the Capitol Theatre Monday.

This is the picture version of Fannie Hurst's \$50,000 prize-winning Liberty Magazine tale; and it is the type of homey, human plot that lends itself admirably to visualization on the screen and strikes a sincere, realistic note because it deals with incidents and situations familiar to all.

To relate the story in detail would be to rob the picture of the element of surprise, which, after all, its greatest asset. Suffice to say that it centers about a family, whom we first meet back in 1907. The father is a struggling young lawyer, trying to keep his head financially above water in spite of his charming wife's innocent extravagances in a number of small ways. The third member is a little girl, who is kidnapped by a good-for-nothing nurse, brought up in the slums of the lower East Side, and after a lapse of eighteen years finds her parents under the most dramatic circumstances.

Cruze develops the various situations with a subtlety and skill that keep the interest at fever heat all through the unreeing of the film. But if any single scene is to be especially lauded, it is the murder trial. Here is the climactic high spot, and from the standpoint of terrific emotionalism and gripping heart appeal, has seldom been equalled on the screen. The acting is uniformly good, which was to be expected from such a group of capable players as Alice Joyce, Warner Baxter, Zasu Pitts and Dolores Costello.

SPORT
R.M.C. DEFEATED M'MASTER BY 2-0

Brilliant Work of "Chippy" Rogers in Red and White Nets Featured the Game.

Toronto, March 13.—R. M. C. took a two-goal lead back to Kingston for the return game with McMaster University in the intercollegiate finals, by defeating the local college 2-0 at the Arena yesterday afternoon in a fast, hard checking game. The McMaster squad had as much of the play as the visitors but they could not beat Rogers who played a sterling game between posts for the visitors. Cadets were heralded as one of the best clubs that has ever represented the military college in the intercollegiate race but they failed to live up to expectations and unless they play a much better game in Kingston locals have good chance of coming through with victory.

All the scoring was done in the first period. Smith and Tremain beating Goal-keeper Barrick with long shots, one of which was deflected into the net by a defence man. The Cadets got the puck in net three times after that but all goals were called back because of offside passes. For minutes at a time, the Baptists kept the visitors bottled up, defending their net, but Rogers was invincible and the locals received no reward for their hard work.

Rogers played for Kingston O.H.A. intermediates last winter and is rated as one of the best players in his position in the O.H.A. His brilliant performance yesterday was the outstanding feature of the game.

R.M.C. used better combination than their opponents and their unselfish play made a hit with the fans but it was plain to see that they are not as strong as many sextets turned out in the past in the Military College.

MacDougall, playing centre, was their best stickhandler while Tremain showed flashes of good form and worked hard throughout. The defence men checked well and gave Rogers good protection although it did not appear that he needed any assistance. Rough play was conspicuous by its absence and there were only two penalties. Dankoet and Tremain deciding to take a rest in the final periods. Their fouls however were minor ones. The teams:

MacMaster—Goal, Barrick; defence, Smith, Dankoet; centre, Mather; left wing, Orr; right wing, Pike; subs, Kropp, Doughty.

Royal Military College—Goal, Rogers; defence, Davis, Walker; centre, MacDougall; left wing, Tremain; right wing, Clarke; subs, Smith, Mather.

Referee, M. J. Rodden, Toronto.

NO IMMEDIATE CHANGE

In Matriculation Requirements, Dr. McNeill Reports.

That there will be no immediate change in the matriculation requirements so that students can take the first year of their college course at a high school or collegiate institute, other than those which now exist, has been ascertained by Dr. W. E. McNeill, of Queen's University.

At the present time, some high schools and collegiates are doing what is known as upper school work, and in these schools it is possible to write off the subjects required for the first year at the university. Premier Ferguson would like to see more of the secondary schools do upper school work, but at the present time there will be no change. In any event, the universities will have to continue to teach first year work because there will always be some students who will prefer to take the first year at the university and there will be a number of secondary schools which will not be equipped to do upper school work.
