The Funeral Service on Tuesday—Schools of the Reserve Closed.

Tyendinaga Reserve, March 25 — The reserve and surrounding settlements mourn the loss of Mrs. Creeggan, wife of Rev. H. A. Creeggan, who passed away on Sunday afternoon. Mr. and Mrs. Creeggan were driving to an appointment. Mrs. Creeggan swooned without warning and was carried into the home of Mrs. J. Jaynes. Doctors were summoned but she died almost instantly. The funeral took place at Christ Church at 9.30 on Tuesday morning. The officiating ministers were Rev. C. E. S. Radcliffe, Deseronto, Rev. H. K. Coleman, Napanee, Rev. J. W. Jones and Rev. W. E. Kidd of St. George's-Cathedral, Kingston. Mr. Radcliffe spoke on the subject of home, the text being, "I go to prepare a place for you." The hymns were very beautifully played by Professor W. Eppes. They were: "On the Resurrection Morn'g," "Peace, Perfect Peace," and "Now the Laborer's Task is O'er." The body was taken to Lyndhurst for interment.

TO MEET THE PREMIER.

Municipalities Want Share of Provincial Revenues.

Hon. G. Howard Ferguson will meet representatives of city municipalities on Friday to hear their views on the matter of taxation revenues. About two years ago, the Premier and representatives of various municipalities had a conference on the same subject, when they agreed that the Government refund to the municipalities some portion of the revenue derived from the amusement and race track taxes, from automobile license fees and other sources. The Premier admitted the Government had trespassed upon municipal preserves in matters of taxation and promised to see if anything could be done by way of relief.

As no information has been vouchsafed as to when such relief may be given, the municipal representatives will urge the Premier to set aside a portion of these revenues and that derived from the gasoline tax and apportion same to the various municipalities, to be used for relief of ordinary taxation.

McKim's Directory of Canadian Publications.

A. McKim Limited, Canada's largest Advertising Agency, has just issued the 1926 edition of McKim's Directory of Canadian Publications. This is the nineteenth edition, the first issue having appeared in 1897, and each succeeding number has shown an improvement over the previous one. This publication is generally accepted as a reliable source of information on Canadian publications and as well is regularly consulted for geographical and statistical particulars. Each year sees changes in the Canadian publishing field and as far as possible these changes are accurately indicated in each issue.

C. Grant Jones is assessor of Smith Falls for 1926 at a salary of \$300, an increase of \$200 over last year. Lots of men fall over themselves in trying to get ahead of others.

EVANGELIST'S MESSAGE.

Declares That Nations of Earth Will Never Be Converted.

"The nations of this earth will never be converted so that millions living to-day shall never die," declared Evangelist Chapman last night, in his lecture at the New Church on Alfred street. He said in part:

"The daydream of those who are predicting that the nations of this world are soon to be converted to Christ, and that mankind is about to be ushered into the 'millennium of peace,' will never be realized. Instead the nations are all to be broken to pieces, become as the chaff of a threshing floor, blown away, before Christ sets up His kingdom."

"The millennium is the closing period of God's great week of time—it follows the close of the gospel age, and precedes the setting up of the everlasting kingdom of God on the earth. Its beginning is marked by the pouring out of the seven last plagues, the second coming of Christ, the resurrection of the righteous dead, the binding of Satan, and the translation of the saints to heaven; and its close, by the descent of the new Jerusalem, with Christ and the saints, from heaven, the resurrection of the wicked dead, the loosing of Satan, and the final destruction of the wicked."

PURCHASED POWER PLANT.

Company to Rebuild Dam and Transmit Power to Plant.

The Frost & Wood Co. have purchased from the Smith's Falls Hydro Power Commission, the water power buildings and equipment at Sly's Rapids. As soon as the river conditions will permit it is the company's intention to rebuild the dam and transmit the electric power to their own plant. At present, their plant is operated by electric energy generated from steam coal and it is expected, says the Record-News, that the arrangement just completed will enable the company to obtain power at a lower cost and at the same time put back into use a water power, right in the town, which has been idle for some years past. Frost & Wood have more men employed at present than at any time since 1919, largely on export trade.
