Nervous Strain of Modern Life

Life was never lived at such high tension. There is a mania for speed, hurry and excitement. Nerve force is consumed at a tremendous rate and there is little time for recuperation. But there is a limit to human strength. Sooner or later there comes the nervous breakdown. There is usually plenty of warning of the approach of nervous exhaustion or collapse. You find you do not rest or sleep well. You are nervous and irritable. Little things annoy and worry you. You may have indigestion and headaches. To get away from this condition you must have rest. You must help the nerves to get back health and vigor. The most effective restorative of the nerves is Dr. Chase's Nerve Food. Many have been restored after months or years of the most serious forms of nervous trouble. But prevention is the wiser course. It is so easy to head off trouble by using this great restorative when the warning symptoms come. You will feel younger and look younger and your friends will notice this and compliment you on it. A SPRING TONIC AN AID TO HEALTH

You Can Lay the Foundation of Good Health Now by Building Up Your Blood and Strengthening Your Nerves Through the Use of Dr. Williams' Pink Pills.

The good, old fashion of taking a tonic in the Springtime, like most of the customs of our grandparents, is based upon sound common sense and good medical practice. Winter is always a trying time for those who are not in rugged health. Many men, women and children go through the winter on reserve strength they have stored up during the sunny weather months, and grow increasingly pale and languid as the spring days approach. A tonic for the blood and nerves at this time will do much for such people, by putting color in the cheeks and banishing that tired feeling that worries thousands of people at this season of the year.

It is impossible to be energetic if your blood is thin and weak, or if your nerves are frayed or shattered. You cannot compete with others if you do not get refreshing sleep at night, or if your appetite is poor or you are losing weight. You need a tonic at this time to add to your efficiency now, as well as to save you from suffering later on. And in no other realm of medicine, there is no safer or better tonic than Dr. Williams' Pink Pills. These pills tone and enrich the blood which circulates through every portion of the body, strengthening faded nerves and run-down organs, and bringing a feeling of new strength and energy to weak, easily tired, despondent men, women and children.

Miss K. Strois, Kamouraska, Que., says: "I would feel that I was neglecting an opportunity to help some other poor sufferer if I failed to tell you how much benefit I had through the use of Dr. Williams' Pink Pills. Before taking the pills I was in a badly run-down condition. I was very weak, pale and breathless at the least exertion. I often had headaches and my appetite was poor. I began taking the pills and they restored me to better health than I had enjoyed for a long time; in fact, my health is now the best, and I am sure that what this medicine has done for me it will do for all weak, ailing people."

You can get these pills from any medicine dealer, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.
