

Corns

ache like teeth

but the remedy is much simpler

But the Remedy is Much Simpler There is no need to endure the pain of an obstinate corn for even one day more. Even a corn or callous of 20 years' obstinacy has to yield to Radox Bath Salts. When you put your foot into a foot bath containing Radox Bath Salts, the dead skin combines with the Radox Salts to form a protein salt of the actual corn itself. This dissolves in water, and so loosens the corn that it may be lifted off bodily. Radox Bath Salts does not affect the living skin. It is only the corn which it dissolves. An enthusiastic user of Radox says:—

"Wish herewith to thank you for benefits received from the use of Radox Bath Salts. It has completely removed a callous I have had for the past 20 years, after three foot baths." Your druggist stocks Radox Bath Salts. Half pound pink package 50c.

Well Known Writer and Newspaper Man Regains His Vigor

Believes He Has Found Real Fountain of Youth.

In connection with recent press articles devoted to quotations on the subject of the defeat of old age, comes this additional report from a prominent newspaper man. "It has simply been wonderful! My eyesight is clearer, and my muscles feel supple. I am enjoying what seems to be a genuine restoration of strength, vitality and nerve activity and feel nearly as ambitious and confident as in my younger days—believe I have found the real fountain of youth."

The writer says this feeling of new health and youthful restoration came as a result of less than 30 days' use of the recently discovered Double Strength Erbac in tablet form. Many others—young and old—make similar reports of their experiences with this remarkable compound in cases of Nervous Weakness, Chronic Fatigue, Sleeplessness, Despondency, loss of vigor and the lack of former ambition and confidence.

For the convenience and benefit of men and women in this locality, who have never before had a chance to try this medicine, James B. McLeod has been furnished with a limited shipment of the regular 16 day treatments to supply to all who wish to try it on a no risk basis. Results, in all instances, must be completely satisfactory or the moderate cost of Erbac will be promptly refunded by James B. McLeod.

NOTE: Do not confuse this treatment with ordinary body builders or nerve tonics. Double Strength Erbac is a special formula—not intended for children—but particularly designed for the use of those near or past middle life.

Among a tractor's weaknesses is its inability to stroll and pick up its own motive power. The thing that makes the market break is a large flock of lambs climbing in at the top. An automobile is something like progress. The crank is out in front.

NEWS OF THE FARM

The Western Farmer Happier This Spring—Use Central More Alfalfa Meal—Holstein Record of Performance—Ex-

A few warm, dry and breezy days would soon put land in shape for seeding in southwestern Ontario, but so far they have not arrived. At this time last year seeding was well begun upon the lighter lands, although it was held up by cold and rain a little later.

The past ten days have been hard upon wheat in almost all parts of the province. Over most of the southwest, where wheat is more important than elsewhere, the snow covering has been off for the greater part of that time, and there has been a great deal of thawing and freezing and cold winds. There has not been much damage from ice, however, except in a few low lying fields.

Not much damage to fruit trees is reported as yet, either from winter injury or girdling, although C. W. Buchanan of St. Thomas states that there has been considerable girdling in Elgin orchards.

Urges Caution in U.S.

The farming industry in the United States is in the best general condition since 1920, says an official publication of the U.S. Department of Agriculture; but, it adds warningly, any general expansion in production would jeopardize the position. Costs are likely to remain at about the same level, and there is little likelihood of increased demand for farm products.

With this warning, the report proceeds to summarize prospects. The remarks most interesting to Canadians are perhaps the following: The immediate and long time outlook for beef cattle is favorable. Hogs should remain in strong demand for most of the year. There may be some slackening in the lamb market during late 1926, but prospects are for a fair year. The dairy industry is in a fairly strong position. There is danger of overplanting of late potatoes in the north.

West Comes Back.

The Western Canadian farmer is in happier mood this spring, and with reason. The season is opening early, and he is able to make up for some of the lost time of the fall, he has more ready money on hand than for several years back, and market conditions appear promising. Other industries are feeling the effect of this revival. Already several firms in Regina report more sales of agricultural implements than during the whole year of 1924.

Westerners have been making old implements do where new ones were really required for some years. Implement firms state that in 1924 repairs orders exceeded new business. Now that there is cash available the new machinery is being bought.

Use Central Warehouse.

The packing, storing and shipping problem in apple marketing has been met by Nova Scotia co-operatives by using central warehouses for storage in bulk until the order is received for shipment. The apples are then packed in barrels and reach their destination in fresh condition, with little danger of early rotting. A greater uniformity of pack, less danger of frost or other damage, and ease of inspection are among the advantages claimed.

Fall Freshening Best?

Fall freshening pays, according to some dairy specialists. "It is a common practice to have cows freshen in the spring so as to have a large flow at small cost on pasture," writes one. "Later the heat and drying up of pasture cause a marked reduction. On the other hand, cows freshening in the fall or early winter will be as benefited by the fresh spring pasture, while the heat

and dryness of late summer have little effect, as they are then nearing the end of their lactation period."

According to an Ohio investigator, C. F. Monroe, the difference in milk production in favor of fall freshening is about ten per cent, and in fat somewhat higher.

To Encourage Hardiness.

As nurseryman find it difficult to secure apple stocks of real hardiness, fruit from the hardest crabs and Russian varieties of apples grown upon the Dominion Experimental Farms will in future be put through the cider mill and the seed extracted, announces M. B. Davis, head of the horticultural division. At present nurseries are largely dependent upon French crab stocks which are scarcely hardy enough for Canadian winters. With stock from this new source there should be no trouble from winter root injury.

Coals to Newcastle.

To ship seed grain from Northern Ontario to the great grain growing province of Alberta seems like the proverbial carrying coals to Newcastle. Just recently, however, farmer in Timiskaming district shipped a carload of registered seed barley to Calgary. The seed was purchased by the Canada Malting Co. of Montreal, and is to be distributed among seed growers in the west.

"Timiskaming seems well adapted to the production of high class seed barley," comments W. G. Nixon of New Liskeard. "The car contained about 1,700 bushels, grading registered or Extra No. 1. Any one familiar with the Canadian Seed Act will realize that this section of Northern Ontario produced something worth while in seed grain last year."

Pruning Roses.

Early spring, just before the new growth appears, is the best time to prune many varieties of roses, especially the hybrid perpetuals. As roses are borne upon the new wood of the season, as a rule, the amount

and direction of this year's growth will be controlled by the amount and method of pruning. Strong shoots and not too many give the best results. Small, weak stems mean poor flowers.

"Cut each cane of the hybrid perpetuals back to six or eight buds, cutting just above a bud pointing outward, and thus leaving an open head to admit light," directs one expert. "With the weaker growing hybrid teas, cut more severely. Here it is necessary to decide before beginning what kind of crop is wanted. If you seek size of flowers, cut to five shoots, and trim back to three or four buds. For mass effect, allow more canes to develop."

Incubators and Chicks.

"Extreme heat is fatal to good hatches," points out a well-known poultryman. "It is a prime cause of dead germs."

"It is always poor policy to restrict ventilation to prevent evaporation. The better plan is to give plenty of ventilation, and prevent excessive evaporation by the use of moisture. Whenever in doubt, remember that it is better to err on the side of too much."

When the chick is nearly ready to emerge from the shell, it takes into its body the yolk of the egg. This is sufficient for about three days after it hatches, and giving the chick food before it has nearly absorbed the yolk is inviting trouble. The baby chick is not completely developed when it leaves the egg. It still has to finish its internal arrangements, and needs the three extra days to complete the work.

Kingston Markets

Friday, April 2, Dairy Produce.

- Butter, creamery, lb. 48-50

- Carrots, lb. 4
- Onions, lb. 5

Across Canada and Back.

Marvelous beyond conception insightfully describes the glories of Canada's Rockies. To be fully appreciated they must be seen. To start out on a trip by one's self into this unfamiliar but far-famed paradise-on-earth, to many appears quite a task. Realizing this, Dean Sinclair Laird, of Macdonald College, an experienced Rocky Mountains traveller, for the third year in succession, has undertaken to conduct a party through this glorious wonderland. A special train of dining, standard sleeping, and observation compartment cars has been chartered, to leave Toronto on July 19th via the Canadian Pacific Railway. Stops will be made at Fort Arthur and Fort William, which together form Canada's greatest grain port; Winnipeg Beach, the popular summer resort for Winnipeggers; Winnipeg, Canada's third largest city; Indian Head, the chief tree distributing centre of the Federal Forestry Branch; Regina, the capital of Saskatchewan; Calgary, Alberta's largest city; Banff, the world-famous mountain resort; by automobile for 104 miles over the Banff-Wildermere Highway, the most spectacular drive in Canada; through Kootenay Lake to Nelson, the commercial centre of Southern British Columbia; then through the Doukhobor country to Penticton; along lovely Okanagan Lake, and to Vancouver, thence by steamer to Victoria.

Returning, the trip will be by the main line of the Canadian Pacific, through the great canyons of the Fraser and Thompson Rivers, and through the Selkirk, and Rockies, affording scenery such as can be found nowhere else on earth; Lake Louise, the Pearl of the Rockies, the most perfect gem of scenery on the world; another day at Banff, Edmonton, the Capital of Alberta; Saskatchewan, the city of optimism; Devils Gap Camp, on the Lake of the Woods, near Kenora, thence to Fort William, where one of the fine Canadian Pacific steamers will be used across Lakes Superior and Huron to Fort McNicoll, then rail to Toronto, where the trip will terminate. Everything is included in the price of \$330, from Toronto: transportation, sleeping car, accommodation in hotels, and bugalow camps, meals in diners, hotels and on steamers, and sight-seeing tours at points visited. The trip is open to all, and applications for accommodation are being received. Fares from other points than Toronto will be named, and descriptive illustrated booklet sent on application to Dean Sinclair Laird, Macdonald College Post Office, Que.

AT WOLFE ISLAND.

Postmaster Thomas Friend to Retire and Move to Kingston. Wolfe Island, April 1.—Mr. Elmer Bolton and son, Dewar Lake, Sask., have returned home after a brief visit with relatives here. Mr. Thomas Friend, postmaster,

SPECIAL!

Just unloaded a carload 1x10 No. 1 Hemlock; 10' to 16', heavy to 12' long. Extra nice stock. Get your requirements now.

MILL WORK

PLANING AND DRESSING

Band Sawing, Resawing and Ripping, Plain Mouldings, Machine Work, Sawmill Work, Logs cut to order.

Prompt service, reasonable rates.

DAVIS DRY DOCK CO. KINGSTON, ONT.

has purchased a house and lot in Kingston, and will shortly move into it and retire from business. Mr. and Mrs. George Russell have gone to Buffalo, where they will reside in the future. Mrs. Craig Russell, and her daughter, have returned from Cape Vincent, after visiting relatives. Dr. Henry Dawson, Cape Vincent, attended the funeral of his brother, James.

George Greenwood who was dangerously ill at his home, is now out of danger and is improving nicely. Messrs. Duncan and Vincent McDonald, Watertown, N.Y., attended the funeral of their mother. Richard Dawson, Bay City, Mich., was here to attend the funeral of his brother.

Born, to Mr. and Mrs. Daniel Lacey, a girl, Thomas Casey lost a valuable horse recently. Miss Nellie McDonald, who has been confined to her home for some time with illness, is slowly improving.

MRS. DAVID HOLLEWOOD.

Passed Away at Sharbot Lake on Tuesday. Sharbot Lake, March 30.—Mrs. David Hollewood passed peacefully away this morning. Her friends sympathize with her family. Interment at Oconto cemetery. Household cleaning is the order of the day here now. Mrs. W. Y. Cannon, Kingston, visited Dr. and Mrs. Suddaby a few days. The creamery staff is making pre-

parations for starting the creamery soon. Mrs. C. Tripp visited friends in Smith's Falls last week. Mrs. H. Taylor, Montreal, at Jerome Thompson's. Miss Jessie Johnson, Long Lake, visited at J. Scott's a few days recently. Sleighting is good here yet; the snow is gradually melting away. A dance was given in Community hall last Saturday night. Miss Wager, Long Lake, at H. Smith's. M. Drew is making preparations for building a new kitchen. The Anglican service will be at 10.30 o'clock on Sunday morning.

AN OUTLET LADY DIES.

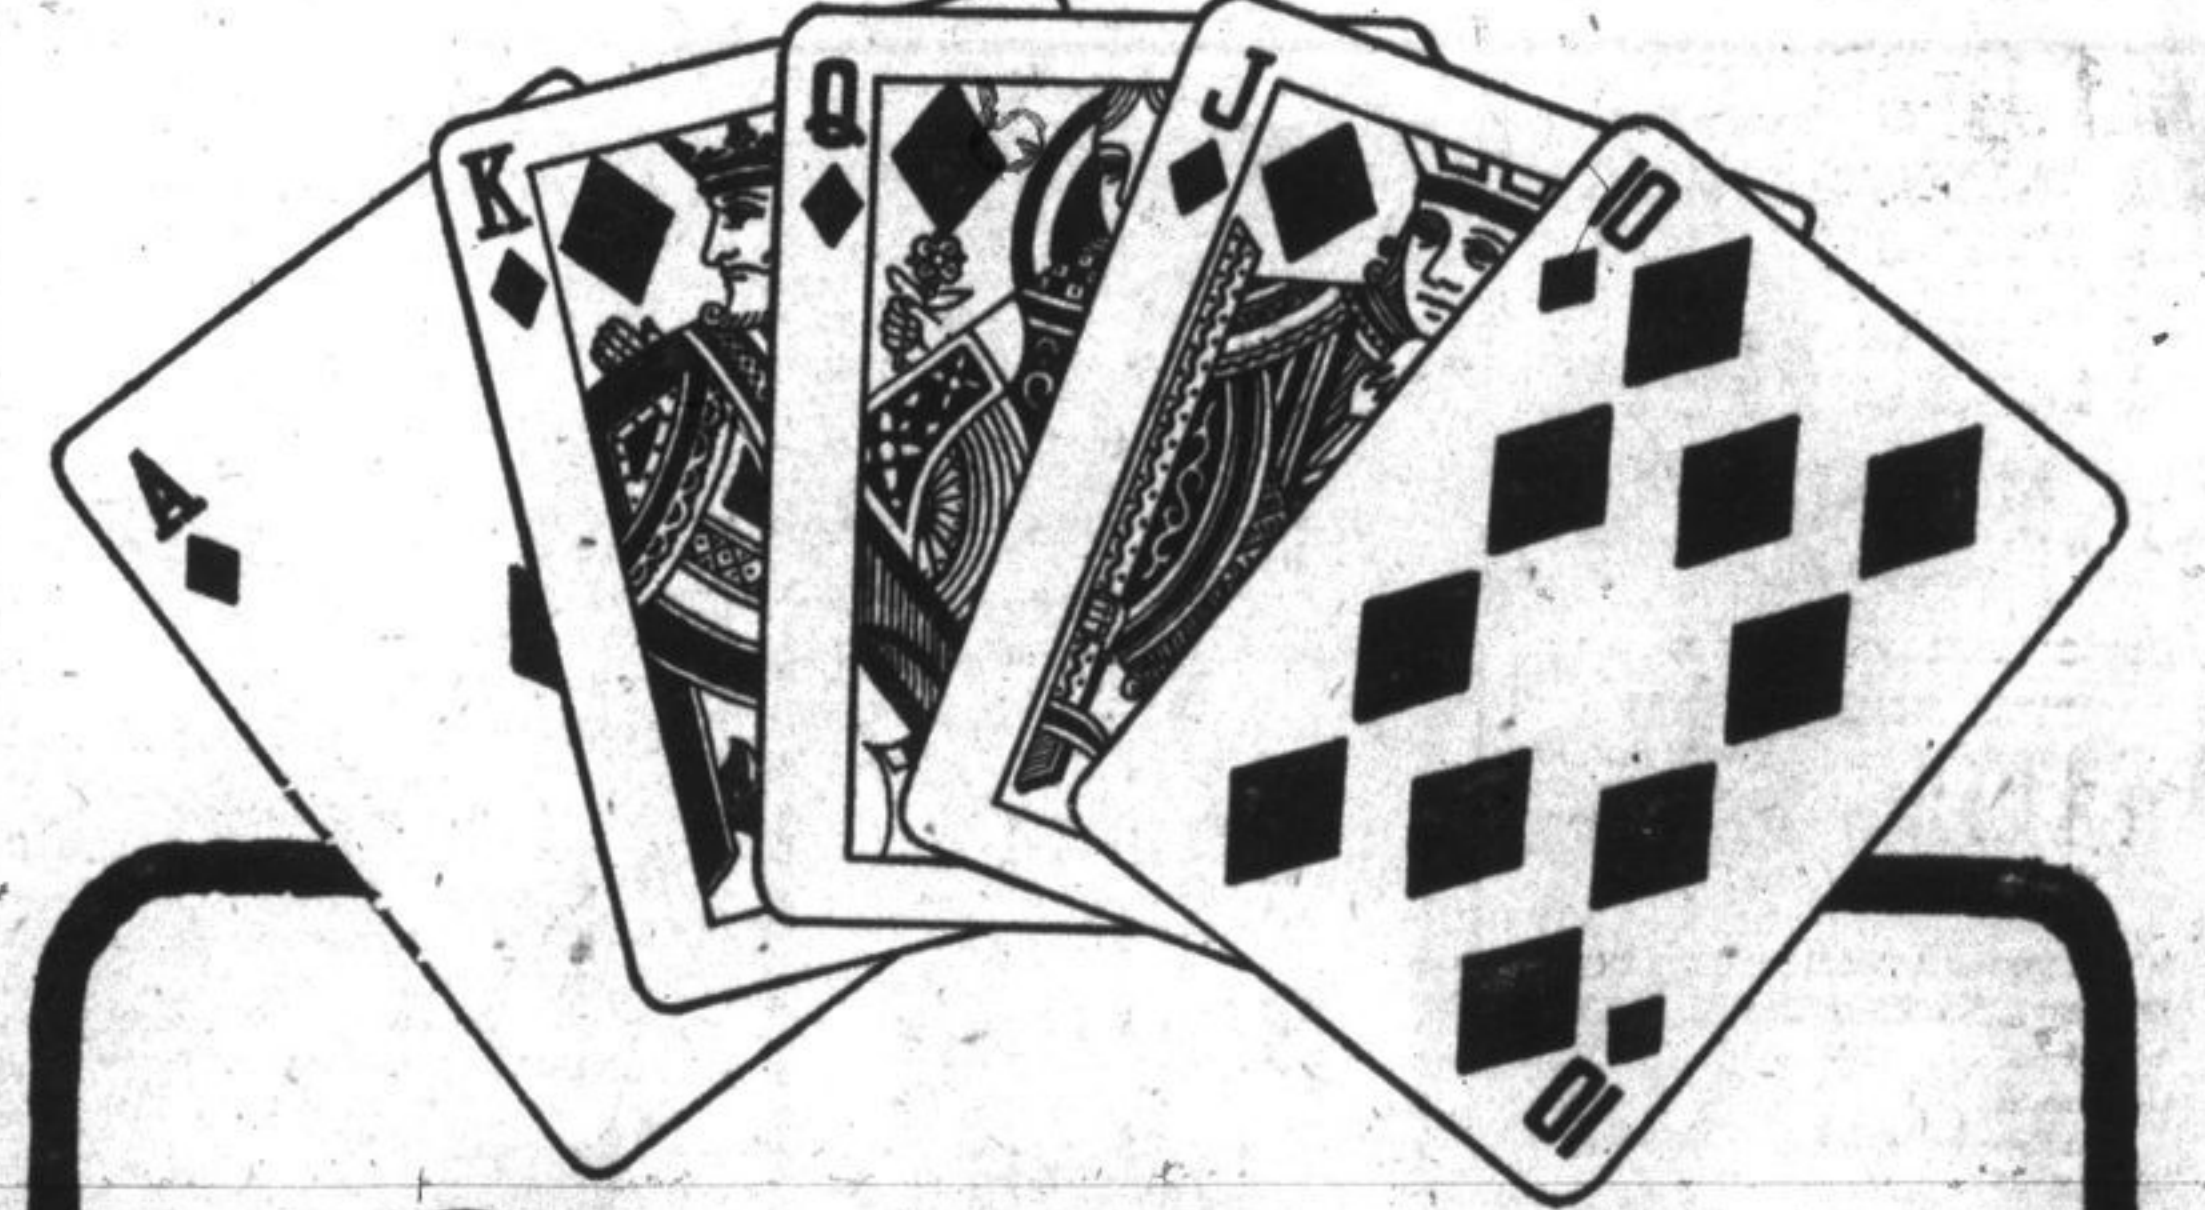

Mrs. William Parsons Passed Away in Brockville. Outlet, March 31.—Farmers have nearly all tapped their bushes but very little syrup has been made as yet. A number of the men attended the sale at D. Sliter's, Tilley, on Tuesday. Mrs. Benedict Poley and children have returned from a

week's visit at Brewer's Mills.

W. J. Shea was a visitor in Sheatown over the week-end. V. Cross spent Monday on Brockville. A shower was tendered Mr. and Mrs. Gordon Morehead, by their friends on Tuesday evening, at their home near here.

On Saturday morning there passed away, in Brockville, a life-long resident of this place, in the person of Mrs. William Parsons; formerly Miss Susan Bradley. The remains were brought to the home of her sister, Mrs. W. J. Running, on Sunday, and the funeral services were conducted on Tuesday afternoon in the United Church, Dulcemaine, after which the cortege proceeded to the Union vault. Her husband predeceased her some seven years ago, but she is survived by several brothers and sisters.

If only women drove trucks! Then when you took to the ditch you could soothe your pride by calling it chivalry.

Notice

"Poker hands" now packed in each package and tin of OGDEN'S CUT PLUG Smoking Tobacco. Save these "poker hands" and for the return of any 52 (bearing any numbers) we will mail a pack of high grade playing cards.

—Or for a complete set, numbers 1 to 52 inclusive, we will send 2 packs. There is no advertisement printed on the playing cards.

Mail your "Poker Hands" to—Imperial Tobacco Company of Canada, Limited, P.O. Box 1380, Montreal, Canada.
