## INTER-CITY DINGHY RACES TO BE HELD IN KINGSTON THIS SEASON

### Sailors From Montreal, Toronto and Kingston to Take Part—Big Season Anticipated in Local Yacht Club—Annual Meeting to Be Held on April 8.

The Kingston Yacht Club opened on Thursday for what promises to be one of the busiest and most successful seasons experienced by the local club. The annual meeting, which was to be held on Monday next, has been postponed till Monday, April 8th, on account of the former date interfering with holiday trips. The elections of officers and many other important matters will be dealt with at the meeting.

Last season was a very successful one for the Kingston Yacht Club. Extensive repairs were made to the club house and the renovation has made arrangements much more convenient and satisfactory. The series of dinghy races were all completed and the local club was successful in winning from the Chamont sailors in the inter-club dinghy races, both here and in the American waters. The same local series of dinghy races will be held this coming season with cups being awarded to the winners of each series.

The inter-city dinghy races will be held in Kingston this summer on July 17th, at which the sailors from Toronto, Montreal, Kingston and likely other clubs will compete. The races were held at Montreal last summer and the local representa-

tives won the honors. This summer in their own waters and sailing their own boats, Kingston Club has great expectations of repeating. The visitors will use the Kingston dinghies and the boats will be all changed at the end of each race in case the should be any difference in the rigging. It is planned to make this regatta one of the best of the local season and a dance and other attractions will be arranged in connection with it.

The majority of the Inter-club regattas for the sail boats are being held at other ports this coming season but a number of private regattas will be held by the Kingston Club, which are always attended by representatives from outside clubs.

There is very little activity around the club house as yet but as soon as the ground dries up somewhat the members will start looking after their boats and preparing them for the summer. The launching ways received a complete overhauling before the closing of the club last Fall and everything is in shape for the season. Open water will entice the sailors to activity and it will not be long after the ice is gone that the white sails will dot the water in the harbor.

The third game is being played to night. The teams:

VICTORIA	Goal.	MONTREAL
Holmes		Benedict
Loughlin	Defense	Noble
Halderson		Stewart
Frederickson	Centre	Phillips
Walker	Wings	Broadbent
Hart		Seibert
Fryston	Subs.	Dinsmore
Fraser		Carson
Oatman		Rothschild
Meeking		Murray
Referees—Cooper Smeaton and Billy Bell, Montreal.		

### BELT MELTED DOWN.

#### John L. Sullivan's Famous Girdle Has Been at Last Discovered.

New York, April 3.—The passing of the famous John L. Sullivan championship belt ends the stories of its mysterious wanderings about this country. It was here, it was there, it was everywhere, but nobody seemed able to put his hand on it. From time to time there came yarns about it being displayed in this or that pawnbroker's show window.

Hundreds of saloon-keepers were supposed to have it tucked away in a cobwebby corner of the safe as a binder for some of poor old John's unpaid debts.

To have melted it down for its sheer gold value has destroyed one of the treasures of fustiana. It was worth fifty times its weight in gold. Tex Rickard would have given \$10,000, its original cost when it had all its diamonds in it, for it as a lobby attraction for new Madison Square Garden. It was the first real belt of the ring. It made the Lord Lansdale belts look like a piece of bale rope. So they've gone and melted it down. How mercenary. They've shocked hero-worshipping Boston to the core.

### HITS AND JABS

By Joe Williams.

Eddie Collins says he is counting on two iron men to put the White Sox up there this year. . . . But you can't get very far on two iron men these days.

Dempsey has signed so many alleged contracts to fight Willis that when he does step into the ring he will be beaten on account of writer's cramps, if for no other reason.

We understand Bobby Jones is demanding a public apology from the golf experts who have been writing he is 10 strokes better than any other player in the world.

Harry Grebb says he does not run around as much as the newspapers claim, and he is right. . . . Harry runs around more.

Mildred: I Babe Ruthed it last night.  
Edna: How's 'at?  
Mildred: I walked.

It was just about a year ago, wasn't it, that some one predicted the world was coming to an end?

Off-side meditations: Why is it necessary to pay designers fancy dough for creating new styles when women will wear anything?

It may be true that nothing succeeds like success. . . . But try to get this week's laundry on last year's batting average.

It's better to have loved and lost than to have promised too much.

Silver must be the kind of money that talks, as silence is said to be golden.

For every man who is unable to stand prosperity there are millions who would like to try.

## SPORTING NOTES AND COMMENT

Dr. L. J. Austin, who was elected president of the Cataract Golf and Country Club for this year, is a widely known golfer and one of the prominent members of the local club. He first began to wield the clubs in the Bristol Clifton Golf Club in 1898, and he was afterwards a member of the Northwood Club, near London, in 1905. Since coming to Kingston, Dr. Austin has taken an active part in the affairs of the local club and has contributed much towards its success.

The annual meeting of the Ontario Baseball Amateur Association was scheduled for Toronto to-day. It was expected that there would be some lively doings from some quarters. There were many recommendations tabled for changes in the constitution.

Next Thursday night the Mercantile League, which controls the junior baseball as well as the Mercantile, meets to make plans for the season. Those in charge handled things quite satisfactorily last season and it is to be hoped they meet with as much success this year. Promotion of junior baseball is important and it would perhaps be wise if the League secured another strong team to line up with the Victorias and Circle-Six, if these two clubs play again this season. Three strong junior teams must surely be available in Kingston.

A meeting of those interested in softball for the coming season was called for ten o'clock on Friday morning in the Y.M.C.A. to discuss plans for the season, but, perhaps due to the fact that weather conditions at the present time do not give the necessary enthusiasm for the game, there were very few people present. An informal talk among those who did gather did take place, but nothing was done. Another meeting will be called later on when the weather becomes more suitable to talking over a summer game.

## PHILLIES WILL BE A STRONGER CLUB

### Manager Fletcher's Baseball Team Looks at Least Twenty Points Better.

Bradenton, Fla., April 3.—Pentagon conjecture doesn't even get a slight rise out of Manager Art Fletcher of the Philadelphia Nationals.

At present his chief thought in life is developing a ball club that will make interesting competition for the rest of the National League. Manager Fletcher makes no pretense at pennant aspirations but, take it from me, any club presided over by the former Giant star is certain to play interesting baseball. That's his style.

many victories as does Jimmy Ring for New York.

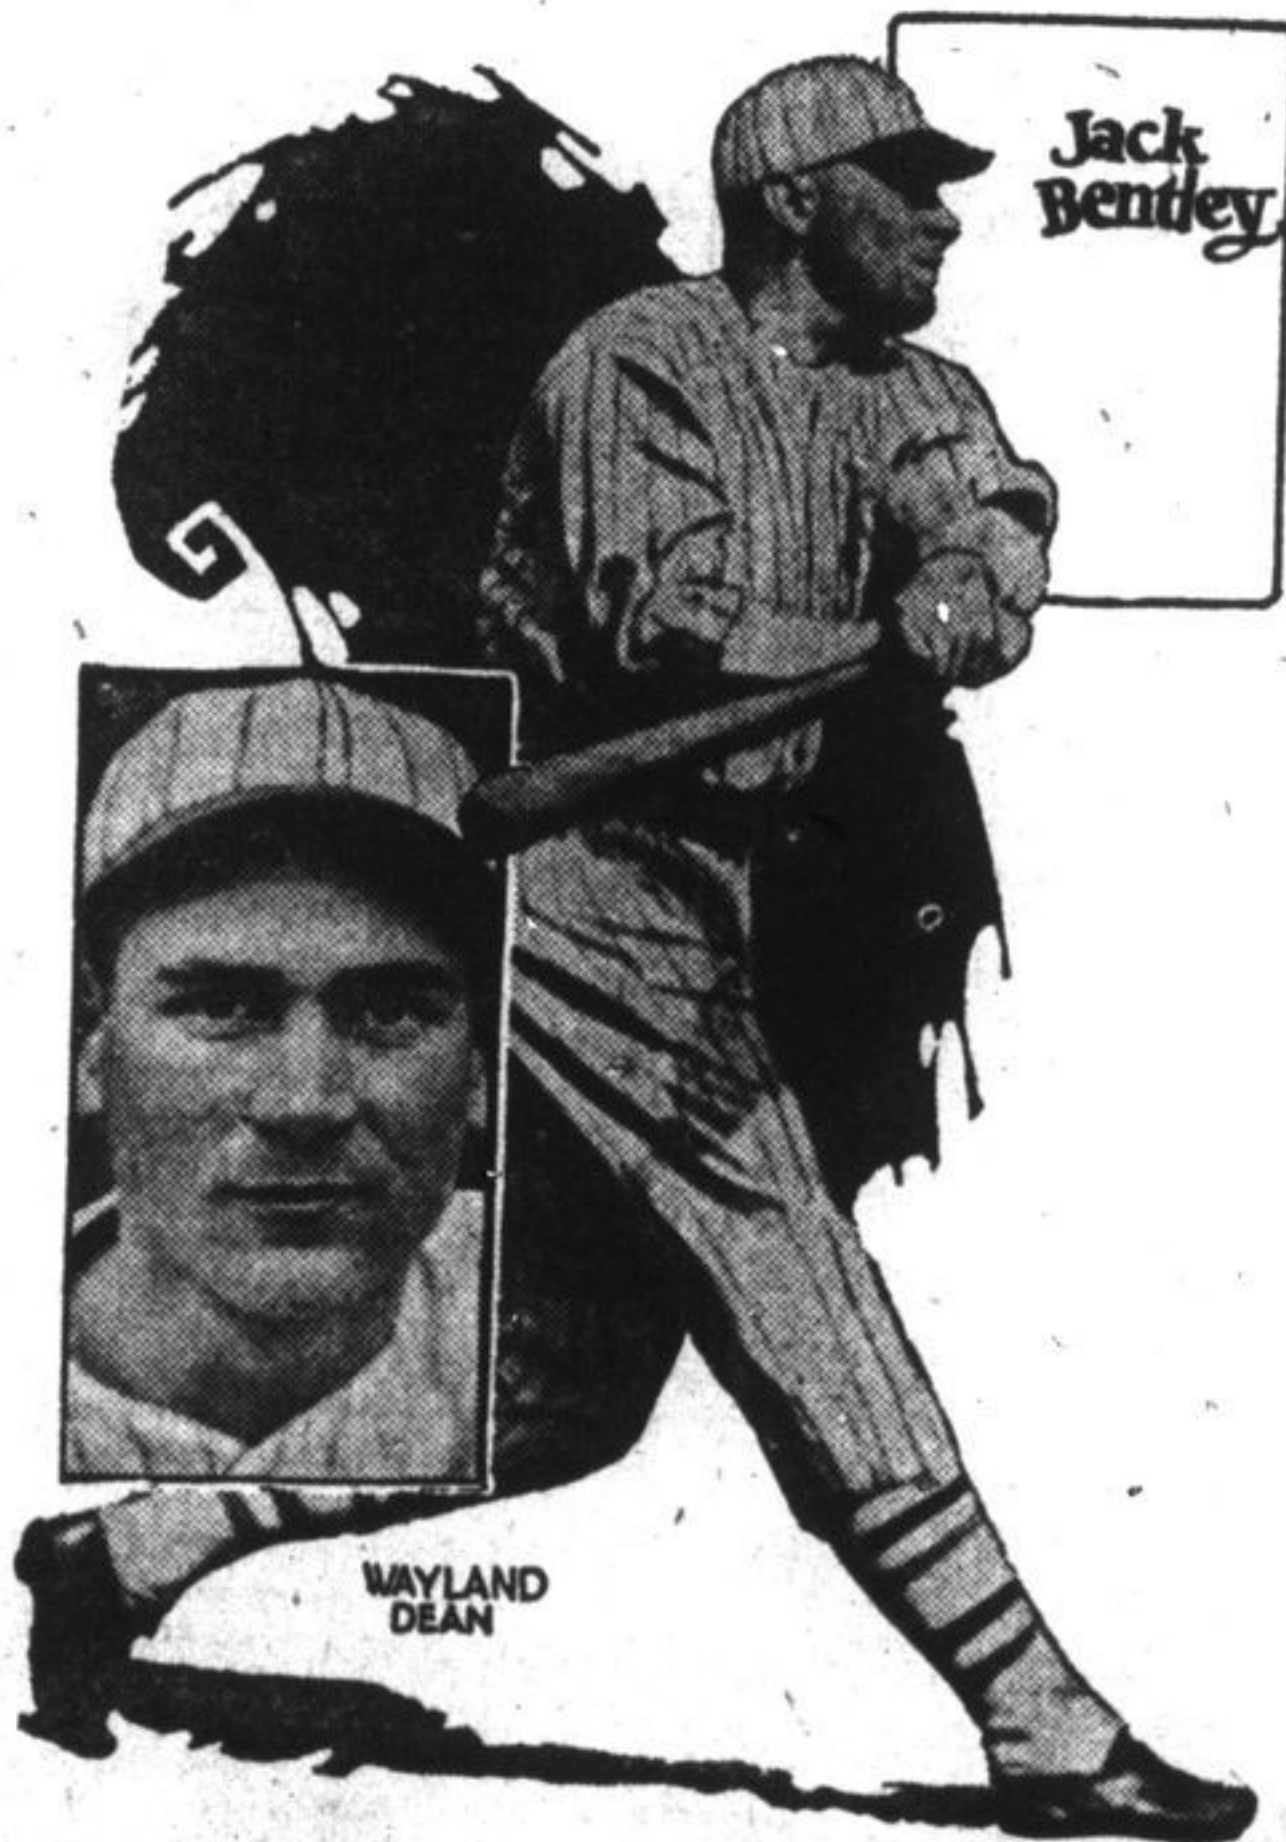

#### Youngster Makes Regular Grade.

"There is no doubt about Deag's ability," said Fletcher, "and I believe that I understand his temperament perfectly. Deag doesn't thrive on criticism; few players do. I have told him all he has to do for me is win ball games; that the pitching of the game will be entirely up to him. He won't get any suggestions from me."

Fletcher is also strong for a youngster by the name of Willoughby, who has shown great form in the spring games. He is to start as a regular.

Maun, a former member of the Giants, sent to Indianapolis last season, is back with the Phillies via the draft route. Fletcher believes he is about ready.

Perhaps the personnel of the

## WASHINGTON CLUB IS BOLSTERED UP

### Joe Bush Acquired for Senators' Pitching Staff.

BY BILLY EVANS.

Tampa, Fla., April 1.—Can Washington win its third successive American League pennant? Manager Stanley Harris believes it can and will. And I might mention that Mr. Harris is not inclined to boasting.

There are many who believe the Senators have passed the peak of their game and are due to crumple, as did the New York Yankees of 1924 after winning three straight.

"I see where some of the boys insist you will need plenty of glue to keep your team from falling apart this summer," was my greeting to Manager Harris.

"You would think most of my players used crutches, the way some of the experts are picking them to pieces," laughingly replied the boy boss.

#### Better Than Last Year.

"I read the other day where Walter Johnson had only one good leg; how Peckinpugh's arm was bad; doubt as to whether my hand had recovered from last year's injury, and so on down the list of casualties.

"True, a few of my pitchers are a bit aged but none the less valuable because of the experience thus gained.

"You can say for me that the club that beats Washington is going to come pretty close to winning the American League pennant. That isn't in the nature of a boast but a frank expression of opinion as to our prospects.

"I feel that I have a better ball club than last season. Southpaw Tom Zachary could only win 12 ball games for us. In his place I have Joe Bush, who should win at least a half dozen more.

"I had to lose a promising youngster in Boston but had to so gamble in order to get Bush. Billo is a good prospect, while Bush is a good pitcher. Realizing I must have better pitching to keep on top this year, I so gambled.

"My club was good enough to win last season. It is practically the same club this year, except that it is better fortified in important spots.

#### Club Has Many Replacements.

"An injury to Catcher Ruel will not seriously handicap the team because Tate, who has been with us for several years, is now ready to deliver and in addition I have the veteran Hank Severid.

"As a substitute for Peckinpugh at short I have 'Buddy' Myer. He is one of the best youngsters to

break into the majors in years.

"I have Johnny Tobin for right field, a great lead-off man and a smart base-runner. I have reserves for practically every position.

"I feel that my club is stronger by at least 15 per cent. than last year, despite the general belief that most of my pitching staff reported on crutches.

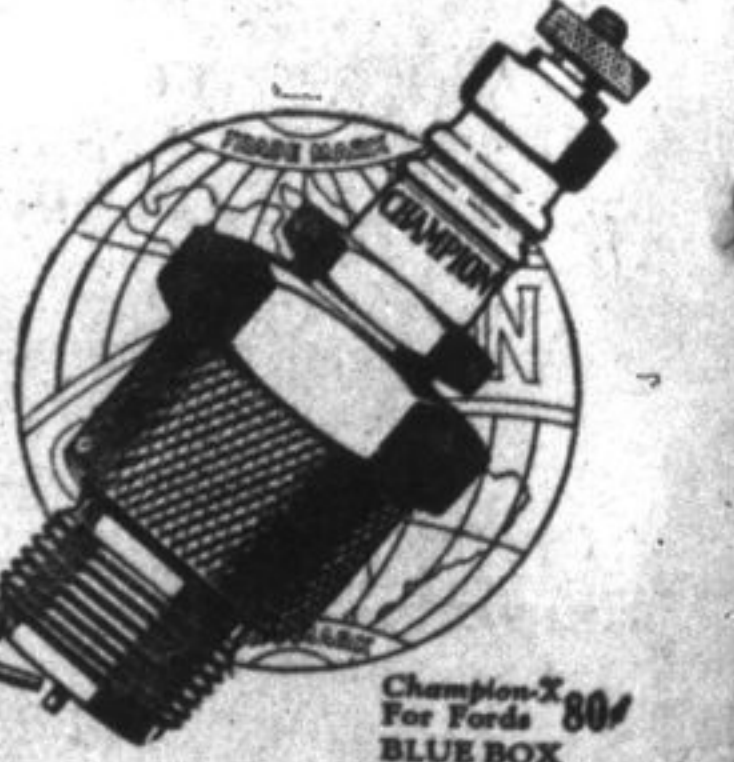

"It looks like three in a row to me!"

#### To Defend Title.

New York, April 3.—Paul Berlenbach will defend his world's light heavyweight title against Jack Delaney, French-Canadian pugilist at the Yankee Stadium on June 10th, Tex Rickard has announced.

#### Draining the Gas Tank.

Gas tanks should be drained off periodically, particularly during cold weather when any water that settles at the bottom may freeze and cause trouble. In most instances, however, the drain plugs have frozen through rusting and cannot be unscrewed without risking further damage. The careful owner, therefore, drains the tank by inserting a rubber tube in the filler pipe, and syphoning out the contents.

## POWER

If your motor lacks power in rough going, install a complete set of dependable Champion Spark Plugs and note the improvement. Your car will have new power, speed and acceleration.

## MAROONS TOOK SECOND GAME

### Even Under Western Rules the Montreal Team Won By 3-0.

Even under their own Western rules, the Victoria Cougars failed to stop the onslaught of the Montreal Maroons in the second game of the final series for the Stanley Cup and the championship of the world were defeated by 3-0 on Thursday night before a packed Arena at Montreal. The Montrealers stuck to Eastern rules and played their own game, taking it as the safer way and they scored a goal in each of the three periods.

The Westerners started things with a great rush in the first period and showed more confidence in their play under their own rules and they made things lively for the Maroons in the opening few minutes. Stewart was the hero of the first period and on a lone rush, tore through the Cougars' defence. He lost his balance but recovered the puck long

enough to send it singing past Holmes for the opening tally. Maroons had two men penalized and Victoria forced the attack and Benedict was forced to play brilliantly to keep the Cougars from scoring. There was plenty of tripping and penalties flew thick and fast. Roughness began to creep into the play as it wore on.

Rough body work and slashing marked the second period and the referees were busy chasing penalized players. Nels Stewart unhooked another rush and sailed a hot one at Holmes. Phillips swooped around for the rebound and put Montreal two up. The Maroon defence stood up well under the attacks of the Victorias. For a moment the Maroons peppered Holmes but after clearing their net by long shots, Victorias bombarded the Maroons and did everything but score.

In the last period the same furious pace was maintained and both teams missed brilliant chances. The magnificent work of Benedict saved the Maroons many times while Holmes came in for a share of great work. The Montrealers landed their third goal and played it safe for the remainder of the game. The Victorias' tried desperately but there was no scoring from their sticks.

## No Resin For Grover Alexander

GROVER ALEXANDER

"None of that resin stuff for me," says Pitcher Grover Alexander of the Chicago Cubs.

"When I am unable to get by using my natural stuff I am going to quit."

"Resin may help some of the pitchers who like to experiment, but I am satisfied to stick to the curve, fast ball and a change of pace."

The opinion of Alexander is rather interesting, since the National League is responsible for the return of resin as a pitching asset.

Walter Johnson of the American League is just as opposed to the use

of resin. Johnson is of the opinion that in warm weather resin will handicap rather than help the pitcher, since it has a tendency to make the ball sticky. He believes it will make for wildness rather than control.

Walter Johnson and Grover Alexander are the two outstanding right-handed pitchers in the major leagues.

Alexander alone vies with Johnson for supremacy. He has been a star since 1911, when he joined the Philadelphia Nationals and is still one.

## This SHAVING STICK IS World Famous

It gave men the first really satisfactory soap holder—a soap that gives a thick, fragrant, lather that soothes the skin like a cold cream; that takes all the blade-pull out of shaving. Millions of men the world over are grateful for this famous soap—costs only 35c. Re-loads 25c.
