All prices from \$2.75 to \$7.50 CAPS In large variety—Men's and Boys' SOCKS A wonderful selection to choose from. CAMPBELL BROS.

FOR THE CONSERVING OF RIDEAU WATERS

The Smith's Falls Board of Trade Wants Dams Built at Various Points.

Smith's Falls appointed a strong committee to work to have the Department of Railways and Canals build conservation dams on the Rideau. As soon as the spring floods are over this work should be started, writes W. T. Rickey, and all the dams constructed this summer, so that this great flow of water can be held in reserve another year. Conservation dams are required on Bass Lake, Otter Lake, Baker Lake, Adam's Lake, Crow Lake, Long Lake, and the dam already constructed at Bob's Lake improved. With modern methods of constructing dams of concrete, the initial expense would not be great—only a comparatively few thousand dollars. Then each dam could be placed in charge of one of the farmers living in close proximity who would be responsible for its condition and regulation in accordance with orders from the Department, and as the water becomes lower in the Rideau Lake and river the reserves can be used to make it up, thereby doing away with those terrific spring floods which cause so much annual loss and bring about a constant, regular, steady flow of water from the Rideau Lakes to Ottawa and the level of the lake maintained at all seasons, thereby improving the navigation and the water powers and also improving the crops inasmuch as the quantity of moisture would be greatly increased by reason of the augmentation of water supplied during the dry period.

The result to Smith's Falls would be of immediate benefit, allowing steamers to bring in large cargoes of coal from the dumps along the American ports along Lake Ontario, thereby assuring the town and its people of a sure supply of fuel, which can be sold at a much cheaper price. Pig iron and steel can be brought from Montreal by boat and laid at the wharves of the town thereby assisting our industries and relieving them from excessive freight charges.

HERE IS A SAMPLE OF A GOOD SETTLER

James McFie, Formerly of Rothesay, Scotland, Now of Joyceville.

James McFie is now a loyal resident of Joyceville, although he has been there only a few months. But this is not surprising, for he was a good citizen of Rothesay, Scotland. An indication that Mr. McFie is the right kind of settler is given in the following extracts from his letter to the Canadian Emigration agent at Glasgow:

"Just a few lines to say we have now been located in our new home in Canada several months. We have been well treated by our neighbor farmers, who help and give advice as to how things are done here. After describing his house and farm buildings, Mr. McFie writes: 'I have one cow, have raised two calves, four pigs, 100 head of poultry; also one horse, I have a wagon, a buggy, a sleigh, binder, mower, rake, disc, plow, harrow, scuffer, etc. I have bought these myself. You get good chances at sales, so I am well satisfied. The field crops were hay and oats; which were extra good. The size of the orchard is one acre, consists of 14 apple trees, and we had a big crop this year, each tree on an average producing four barrels. We had 25 bags of potatoes, cabbage, carrots, parsnips, onions, parsley, beets, sweet corn, beans, peas, pumpkins, cucumbers. The tomatoes were my great surprise. We planted 40 plants in a piece of good soil and we took off an abundant crop. So I must say that a married man wanting to make a home for himself, wife and children, experienced in farming, does not need to be afraid for he will soon be his own master. He can get out and in as he likes, and for single men there is a great demand if they have farm experience. They are well treated, master and man all the same; there are not three classes. There is one thing about the farming in Canada, the work is more easily done and easier on men than on the farms in Scotland.'

News From Croydon. Croydon, April 2.—The recent rains and thaw have left the roads in a very bad condition. An electric storm passed over here on Wednesday evening indicating a cold and backward spring. Mr. and Mrs. John R. Kring and son, Herbert, were Sunday guests at Peter Tonkey's. Mrs. W. J. Haggarty and son, Clifford, spent Sunday at Mr. Stewart Close's. A few from here attended the play at Centerville on Friday evening of last week. John Wilson, Leas, called at Albert Hughes' on Friday evening. Miss Agnes Nolan returned home on Sunday after visiting friends at Stratacona, Napanee and Selby. Mr. and Mrs. W. B. Close and daughter, Annie, spent the week-end with her brother, Archibald Black, Cansaan. Alexander Lynch had dinner with Mrs. M. A. Williams recently. Wilford Haggarty spent Wednesday with Raymond Campbell.

While visiting in Ingoquois John Quinzel, prominent farmer of Star City, Saskatchewan, died suddenly, aged seventy-two.

PICTON

Picton, April 3.—Alfred Strickland of the Ontario College of Pharmacy is home for over the Easter recess.

Charles Smith is returning to Picton to make his home. He has bought Mr. Arthur Dawe's terrace on Bridge street and will take possession soon. Mr. Smith has been living in Belleville for the past few years.

Mr. and Mrs. L. B. Cahan are spending a few days in Toronto. Mrs. B. Davidson returned home this week after two weeks visit with her daughter, Mrs. Allan Christie, Hamilton.

S. A. Seeds came down from Toronto to spend over the week-end with his father, Mr. S. N. Seeds, who is in failing health.

M. E. Knox was in Cobourg last week looking after his business there.

E. A. Van de Water has returned from a business trip to Toronto.

Mr. and Mrs. Albert Powers have arrived home from their New York trip. While away they visited their daughter, Mrs. L. C. Woodward, and family at White Plains.

Harold Collier of the Bank of Montreal, Kingston, is spending the Easter week-end at his home here.

Mrs. Thomas Kemsley is back from a visit with friends in Oshawa and Toronto.

Mr. and Mrs. S. B. Gearing of the Standard Bank are spending over Easter in Toronto.

Miss Helen Clark of Belleville was a recent visitor with her aunt, Mrs. Charles Hadden.

Mrs. M. K. Adams was hostess of an eight table bridge at her home, Ferguson street last Tuesday afternoon. The pretty parlors were attractive with their bowls of roses and sweet-peas. Mrs. F. T. Knight and Mrs. Ahern of Plymouth, England, carried off the prizes. The hostess was assisted in the serving of dainty refreshments by Mrs. W. Tait, Mrs. E. A. Adams and Mrs. Lloyd Geroy.

Miss Edna Morrow of the public school staff is spending her Easter holidays at Sandhurst and Miss Martha Carl at Athens.

Miss Belle Shannon of Toronto is holidaying with her sisters, Misses Ella and Margaret Shannon, Paul street.

DESERONTO

Deseronto, April 3.—On April 1st Deseronto lost one of its oldest citizens, when Elisha Howard passed away in his eighty-fourth year at his home on Pearl street. The funeral service was held at the house on Saturday afternoon, after which the remains were taken to the Deseronto cemetery.

Hats \$3.98 Parisian Shop 322 BROCK STREET LATE WILLIAM H. HARRISON.

Passing of a Prominent Resident of Newboro.

Newboro, April 2.—An aged and highly respected citizen passed peacefully away on Sunday, March 28th in the person of William H. Harrison. Deceased had suffered for a number of years from heart disease. He was the son of the late Henry Harrison, and was born in the United States seventy-seven years ago, coming to Canada when a young man. He married Ellen Trotter of Portland about fifty years ago. She predeceased him thirteen years ago. Later he married Mrs. Emma Wicks, who now survives. He leaves five children: Mrs. Hill-Hard Green and Thomas Harrington of Newboro; Mrs. John Kidd and Elmer Harrison of Gananogue, and Wilfred at home. He has four step-children. One daughter, Ethel, died fourteen years ago. Mr. Harrison was whole-hearted and had many warm friends by whom he will be missed. In religion he was a Methodist and in politics a Conservative. The funeral was held at Crosby

Methodist church on Tuesday, conducted by Rev. H. W. Brownwick. It was very largely attended, showing the esteem the deceased was held. The pall bearers were: Frank Stanton, Oliver Roswell, Edward Wright, and William Steadman. The remains were placed in Elgin vault to await interment in the spring. Those who attended from a distance were: Mrs. R. F. Anderson, Niagara Falls, Mr. and Mrs. Samuel Kelsey and Mr. and Mrs. E. Latimer and son John, Charleston.

ATTEMPT TO ROB FAILS.

Police Car Gives Chase But Bandits Make Escape. Oshawa, April 5.—Foiled in the attempt to rob the Newtonville post office and general store, early Saturday morning, a number of bandits in a car were fired on three times by Police Constable George Parsons as the car sped through this city. A chase in the post office was far as Whitty failed when all trace of the bandits was lost. The lock on the door of the post office was pried off and the windows were broken in two places. Nothing was taken. The alarm was given by G. W. Jones, manager of the Port Hope Telephone Company at Newtonville.

A successful union is one where two people marry for better or worse and both win.

What the World Is Doing

Smoke Sounds Fire Alarm by Shadow on Tube Photo-electric cells, the extremely sensitive units that play an important part in the transmission of pictures by wire, less or telegraph, have been further

Single Drop of Water Holds Hundred Forms of Life Although a drop of water no larger than a buckshot may appear crystal-clear to the unaided eye, it will resemble a small aquarium if it is greatly magnified. Study of a drop from one of the ponds of the New York zoological gardens showed that it was teeming with as many as 100 forms of life. It was spread upon a glass-slide and examined with a high-power microscope. One of the organisms observed was a curious animal with an oddly formed triangular body with two spinning "pinwheels" as means of locomotion. It appeared to have the sense of sight for it avoided colliding with other objects and would reach out with its body to grasp convenient surfaces to help its progress.

Auger for Boring Stumps Helps Clear Land Cut-over land is often cleared by dynamiting the stumps, and to simplify this work, a long hand auger to bore holes for placing the charges has been devised.

Testing Audio-Frequency Transformers A simple way to test a transformer, that are suspected of being grounded to the shell or frame, is of interest to all who have encountered such trouble. Connect one tip of a pair of headphones to the 16½-volt terminal of a 22½-volt B-battery unit, and the 22½-volt terminal to a short length of insulated wire. Without touching the bare wire with the hand, hold it against the case or shell of the transformer, being sure to make contact with the bare metal. Touch the free terminal of the headphones to each transformer terminal on the side of the transformer to which the wire is connected. Repeat this test on the other side of the transformer. A distinct click indicates that the terminal to which the connection is made is grounded to the frame. A similar test with the battery and phones can be used to locate an open circuit in the transformer; if there is no click in the phones when the connection is made across the coil, the circuit is open.

Latest Monster Motor Ship Built in Twenty Weeks Completed in 140 working days, a record in shipbuilding, according to reports, the motor vessel "Saturnia" has a carrying capacity of 2,280 passengers, exclusive of the crew, besides 25,500 tons of cargo. This ship is 600 feet long, has an eighty-foot beam and displaces 35,000 tons. It can attain a speed of twenty-one knots.

Rose trammers should never be used for any other metal than free-working steel, and then only under the best working conditions.

In one year, a sea urchin lays as many eggs as there are inhabitants in New York city, it is estimated.
