FAIR GROUNDS BY-LAW VOTE ON 3RD MAY

(Continued from Page 1.)
had been a "sink hole" for years, and he would not like to see any more money spent on the grounds.
"As far as I am concerned, you can do what you like about it," remarked Ald. J. E. Johnston, who also added that he was not "fathering the proposition."

Back to Committee.
Ald. Laturney suggested that the matter be referred back to the property committee.
"If you are going to send it back to the committee I am with you," said Ald. Reid. "The committee has spent a great deal of time considering the question. There is no use sending it back to the committee." Ald. Reid stated further that the committee felt that a fee of five cents on each ticket sold for any attraction at the fair grounds, would be sufficient to reimburse the city for any expenditure, and the city in this way, would be sure of the money. The city had expended \$2,500 on the grounds last year, with no returns. If the grounds were not given attention, there would be no use in taking up the matter.

Ald. Martin remarked that the property committee was deserving of credit for what had been accomplished, but he favored allowing the matter to go over till the next election.
Ald. Laturney and Martin then moved along these lines.
"And what will we do in the meantime?" asked Ald. Price. "We will have to do one thing or the other. We will have to spend money on the grounds or close them up. It is all nonsense to be throwing away money every year. If we keep putting it off we will be no further ahead. We should put the question to the people now and let them decide."

Ald. Carson wanted to know how it was proposed to spend the money, pointing out that the baseball matches were the great revenue getters.
Ald. J. E. Johnston then presented the plans of the city engineer. These plans provide for a proper drainage of the grounds, proper lavatory accommodation, an improved entrance, an additional 200 feet to the cattle sheds, additional grand stand accommodation for 700 people, an additional portable grand stand for the baseball games, the painting of cattle sheds, along with other necessary work.

Mayor Angrove's Stand.
Mayor Angrove stated that in justice to the fair directors, the grounds should be properly drained and tiled. He felt that the question was one that should go to the people to decide. The city, he said, had something to show for the money expended last year, in a new roof on the palace, and a new walk leading from the main entrance. The present lavatory accommodation was a disgrace.

"I do not think that it would be right to pass this matter over," continued the mayor. "Take our city parks, we never look upon them as revenue makers. And it is the same with the fair grounds. Is it worth while to spend the money on these grounds? I think the council should think over the matter very carefully before they decide to let the matter drop. We will have a guarantee of \$1,000 a year from the baseball people. If the proposed work is carried on, the fair association will give a bond for \$1,000 a year for the next two years. Why should we put off the wish of the people for a year?"

Should Go to People.
"I think we should give the people a reasonable chance to say whether or not they want the work done according to the plans of the engineer," said the mayor, in conclusion.
Ald. Laturney remarked that if the city could secure a guarantee from the fair association of \$1,000 for five years, it would be a revenue producer.
"We can get the fair directors to sign a bond for \$1,000 for the next two years," said Mayor Angrove. "How much do we intend to pay out?"

on the grounds this year? We have spent about \$15,000 on the grounds in the last eight years, and what did the city get out of it? Why not make a substantial expenditure or do nothing. This will provide a great amusement park for the city. I am sure we all enjoy the sports put on at the fair grounds. The baseball people must have an enclosed ground. Let us have something worth while. If we get enough to pay half the expenditure, it will be a good investment."

On the vote being taken on the motion of Ald. Laturney and Martin, to send the matter back to the committee, to be brought forward at the next election, it was defeated, only five aldermen voting for it, and the by-law to take the vote of the people was then presented and given its final reading, the date for the vote being fixed for Monday, May 3rd.

Council also arranged for the polling places and the deputy returning officers.
On motion of Ald. J. E. Johnston and Allen, the property committee was authorized to have the floor in the city registry office raised, and also have the walls decorated.
This work has been made necessary, owing to the recent legislation put through combining the city and the county registry offices.
Mayor Angrove presided at the meeting, and the other members present were Alds. Allen, Boyd, Carson, Driscoll, Dunphy, Holder, J. F. Johnston, J. E. Johnston, Kent, Laturney, Martin, Milne, McCartney, Price, Reid and Sargent.

Reports of Committees.
The following report of the Board of Works was adopted:
"That the application of the Bell Telephone company, for permission to erect poles, anchors, cables, etc., within the corporation limits be granted, the work to be done under the supervision of the city engineer."
"That the tender of the Imperial Oil company, for road oil at 12 1/2c per gallon be accepted."
"That a sewer be constructed in Pine street, from Lansdowne avenue to Alfred street."

The following recommendations of the finance committee were adopted:
"That the application for a license for a Chinese laundry at 303 1-2 Earl street be not granted."
"That the salary of John Ballantyne, city messenger, be increased by \$200 per year, to take effect from Jan. 1st, 1926."
"That the sum of \$500 be granted for the purpose of procuring souvenirs for the Kingston Junior Hockey team."

The following recommendation of the fire and light committee was adopted:
"That this council authorize the committee to secure prices on a two-ton truck, for the hook and ladder apparatus."
Ald. Milne, in presenting the recommendation of the fire and light committee, stated that a great deal of trouble had been experienced with the hook and ladder truck in the snow. It was found that the present chassis was not strong enough, and he was of the opinion that serious results would follow if action was not taken to relieve the situation.
It was pointed out that the present truck had been in service for eight years.

Ald. Boyd explained that this truck had been purchased to draw hose. He gave it as his opinion that the trouble had been caused over the clutch, and that he had advised that a change be made, but no action had been taken.
Ald. Price presented a by-law to provide for an annual fee of \$20 for gasoline pumps, but after some discussion, the by-law was allowed to stand over.

Other Business.
Council received a communication from the Kingston Poultry Association, in which reference was made to the proposal to construct a gallery in the island market house. The Association recommended that this proposal be carried out for the benefit of the farmers.
The recommendation was sent to the property committee.
