#### MUCH SUFFERING FOLLOWS INFLUENZA

Health Can Only be Restored Through the Use of a Blood-Making Tonic.

An epidemic of influenza, such as

is now prevalent in many parts of Canada, always leaves widespread suffering in its wake. The disease itself is dangerous, but the danger is seldom over when the characteristic symptoms of the trouble have passed. There is left behind depression of spirits, weakened vital powers, thin blood, impaired digestion and oversensitive nerves. Men and women who were robust before stricken with influenza find their bodies racked with pain previously unknown to them. This is due to an abnormal thinning of the blood and leaves the system an easy prey to other serious troubles. This is the time when the convalescent from influenza should build up the blood with a reliable blood-making tonic such as Dr. Williams' Pink Pills. When the blood regains its rich red quality the nerves. recover their strength and the organs of the body function naturally and the dangerous, depressing aftereffects of influenza disappear. Proof of the undoubted value of Dr. Williams' Pink Pills as a blood-builder and nerve tonic is shown by the case of Mrs. R. O. Stromberg, Cobalt, Ont., who says: -- "I had a very severe attack of grippe, or influenza, six which confined me to my bed for a cylinder truck, for the hook and lad- week.
