The Menace of Forest Fires wealth, employment and prosperity. By preventing forest fires you add to

the national revenue, and receive indirect benefits through improved business conditions. The Dominion and Provincial Governments and business organizations

which suffer by this wastage are cooperating in a preventive and educational campaign to save Canada's woodland heritage. To make this program effective they ask your support in reducing the fire hazard. You can help by extinguishing all camp fires-by throwing away no lighted match or cigarette—and by exercising unremitting care when burning slash or debris in or near the forest.
