### KEEPING GRADUATES IN CLOSER TOUCH

pal Taylar Outlines a New Method.

Principal R. Bruce Taylor in his

"The great strength of the gradupaign. It is to be hoped that the send you all a brief farewell. effort will achieve its aim, great as graduate. To keep the touch quick way. is a task not easy, but in this regard the University has hitherto been remiss. Means should be adopted to send once a year one or two of the members of the staff to visit the Alumni Associations. If the personnel of the visitors were changed from year to year, various faculties being represented in the deputation, much would be done not only to maintain the loyalty of the graduates and the cohesion of the Alumni Associations but the task would give to the Uninew sense of the value of the instiantly justify the small expense instudent who leaves his University, full of affection for the place and for those who work within its walls,

A keener interest on the part of students in current events in the realm of politics, literature, sociblogy, and art is advocated by Principal Taylor. "In the revived interest in intercollegiate and imperial debating last year," he says, "there debating last year," he says, "there is much encouragement in answer to the vital question as to whether apart from didactic effort the University is alive. The problem is one that is always before the staff, and the multitudinous opportunities of intercourse between professor and student all tend to keep quick the intellectual interest that does not necessarily relate itself to examinations or degrees. The recent book the author just coming into view, the ever-changing political situation -the more these things become matters of burning interest among the student body the better. In the practical things of life the Canadian student, because he has so generally to make his own way through college, is older than his years, but in the things of the reflective and literary life he is often at a disadvantage as compared with the undergraduate in an older country where books fill the houses and where politics are a family tradition."

academic waif."

### HAPPY CHILDHOOD A MATTER OF HEALTH

Let Baby's Own Tablets Keep Your Children Well.

Little children very quickly get out of sorts. By prompt treatment they can usually just as quickly be set right again. Most of their troubles arise in the first place from stomach or bowels; that is why a good cleaning-out is the first thing prescribed by the doctor. Formerly castor oil was the means used to bring this about: now-a-days Baby's Own Tablets do the same work, but without trouble to the parent or discomfort to the little one. Children take Baby's Own Tablets happily because there is no nasty taste and because no griping after-pains follow

As a specific for childhood indigestion, vomiting, constipation, colic, colds, teething pains, etc., there is no thing to equal Baby's Own Tablets. They never do harm and always do good. The Tablets are sold by medicine dealers or by mail at 25 cents box from The Dr. Williams' Medicine Co., Brockville, Ont.

What Jazz Music Is. According to a magazine Jazz music, so-called, "is the offspring of syncopation plus a multitude of nonmusical notes and a wealth of effects by the traps and drums. Syncopation is the stressing or accenting of the afterbeat in music. It anti dates music, because the African savages accented the after beat on drums long before music was written. Modern Jazz originated among the negroes of the Southern States

but passes for music today." At the Bay of Quinte District LO. O.F., S. Tinson was elected district deputy grand master. Mr. Tinson is a past noble grand of Brighton Lodge, No. 362, and prominent fruit

The Down-Trodden Miners.

Sir: A very serious situation in the otherland is this unfortunate coal strike, and the whole labor world strikes in sympathy for the poor down-trodden coal miner, who demands the right to live and have a town, and already has won the conliving wage. The owners of these coal mines live in luxury and pile up their millions at the expense and degradation of the poor coal slaves, who have to labor in these hells upon earth. I speak from experience, In the district orders issued by Mr. Editor, I have been down a coal day this week at Carman's Point.
