DEAN OF ONTARIO ON BRITISH STRIKE

"The Gospel of Work" Subject of His Sermon in St. George's.

The Very Rev. W. W. Craig, Dean of Ontario, preaching in St. George's Cathedral on Sunday morning said the great struggle going on in England was in the minds of all Canadians who loved England, and therefore he would take as his subject, "The Gospel of Work." "We are to far away to judge fairly of the economic and industrial conditions to make unguarded statements," he said. "I have heard some silly things said on both sides. The thing we who are Christians should do is to pray with all our might that a right spirit may be in the minds of those engaged in the struggle."
Dr. Craig read a reference to the Bishop of London from an English paper. The bishop had been approached by a financial magnate on his way from Manchester, who had said, "Unless you Christians can get a different spirit in the hearts of the people, we can do nothing." This was the idea of a man who was in close touch with one side of the situation. "We know that the life we all have a right to enjoy can be made unbearable by wrong labor conditions. Here Dr. Craig touched on the sweat shop and his horrors and spoke of Hood's "Song of the Shirt," more or less applicable today. The word seen most often in the press, and used most often in public, was, he believed, "labor." But the word "labor" was a degraded term for work. Let us first remember that God is the supreme worker. We think of him as omnipotent. But omnipotence means power to fulfill our purpose. Christ could have come down from the cross, but no, He fulfilled His purpose. The man or woman without work is unhappy. We most of us, work so hard and so incessantly that we dream of being free to do as we will. "As those beads with no string run through." But work develops us. If it is work, under proper conditions and we who work have, most of us, some one we love to work for, that consecrates our work.
"I say to you, although as yet I do not know you, if there are any of you here who have not to work to make a livelihood, find some useful work to do. Real life without work is impossible." The first disciples were, many of them slaves who their masters could and did, throw at will to the monsters in the ponds of the gardens. And they, in the glory and the presence of God, lived a life of joy and peace.
At the offertory the anthem "King All Glorious" was sung, the solos being taken by Mr. C. B. S. Harvey, Mr. Eytan Warburton and Master Herbert Kidd.

HOME AND SCHOOL CLUB.

Of Macdonald School Elects Officers For Year.
The Macdonald Home and School Club held their regular meeting on Tuesday, May 4th, in Macdonald Assembly Hall, in the chair of the president, Mrs. Lowing. It being the concluding meeting of the business year ending 1925-26, reports of committees were given, after which Mrs. Langdon gave a very interesting report on the Ontario Educational Association convention lately held in Toronto. Following this the election of officers for the business year 1925-27 was held.
The officers as elected were: Honorary President, Mrs. G. Scott; president, Mrs. A. E. Laird; 1st vice-president, Mrs. Thomas Donnelly; 2nd vice-president, Mrs. F. Gibbs; recording secretary, Mrs. Lewis Orr; corresponding secretary, Mrs. G. Scott; treasurer, Mrs. F. Lowing; executive committee, Mrs. W. Bewa, Mrs. W. Pickering, Mrs. W. Pickering, Mrs. H. Stratford.
Conveners of Social Committee, Mrs. M. Lawlor (mother); Sr. IV, Mrs. J. Veale; Sr. III, Mrs. J. Swaine; Jr. III, Mrs. W. Hepburne; Second, Mrs. F. Salisbury; Sr. 1st, Mrs. W. Gibson; Jr. 1st, Mrs. S. Hall (Miss Stafford); Jr. 1st, Mrs. Marley (Miss Compton); Kindergarten, Mrs. H. Stratford.
Central Council—Mr. G. Scott; Mrs. A. E. Laird, Mrs. T. Donnelly, Mrs. L. Orr.
A hearty vote of thanks was extended to the retiring officers, whose work throughout the year was done in a very praiseworthy manner.
The meeting was closed with the National Anthem, after which refreshments were served.

Queen's University

(Toronto Globe)
Queen's University at Kingston may fairly be described as one of the vital organs of the body of the educational system of Ontario.
It is, and has been since Principal Grant and his able lieutenants first made it so, a power in the land. Queen's has been fortunate in retaining able men on her staff although they were paid far less than they could have received for similar services elsewhere. The graduates of Queen's, too, have been loyal to her in an unusual degree, and to this loyalty alone may be attributed the ability of Queen's to keep her colors flying at all times.
The campaign now under way to raise by popular subscription an endowment of two and a half million dollars is one that should succeed. It should have not only the support of the graduates—of this it is assured—but of all those who are aware of the thrift and grit with which Queen's, insufficiently financed, has preserved her high ideals and purposes.
It is to be hoped that the people of Toronto and of Ontario will rally to the aid of Queen's and that every man will give as he can and push this endowment campaign to success.
An optimist is a man who boasts of his hard luck.

LETTERS To The Editor Of The Whig

County Jail Sand Contract.

Sir: Will you allow me through your valuable columns to set before the ratepayers of the County of Frontenac a few things in connection with the contract for sand to be supplied to the county jail for making tile. I would like to point out that at the last meeting of the County Council, the contract for delivering sand was awarded to me, after the committee had held several meetings, and after the chairman had asked that the committee's report be shelved after it had reached the Council body. That was all right. My tender was accepted by the Council as a whole, and I thought that everything was quite all right.
It was somewhat surprised when on Saturday I was notified by a prominent county official to "bring in a couple of loads of sand next week and then wait till the sand is inspected by County Councillor Freeman who is coming in to examine it." I cannot understand why it should be necessary for a member of the Council to make a special trip to examine the sand after a sample of it was submitted to the committee and the Council before my tender was accepted, or why the county should be put to that expense, when there is an official right on the spot who is quite competent to see that the sand is all right.
It might be well for the ratepayers of the County if they knew more about how some of the sand contractors are hand led, and how their money is not as carefully expended as it might be, but I do not intend to go into detail on that, preferring to wait to see what will be the result of the special examination of the sand which I will put in at the jail, and just what will be the verdict which Mr. Freeman will pass on it after he has made a special trip from Hartington at the expense of the people of the county. If he condemns the sand, it would open the way to have the last possible market for county-owned sand turned over to the company, of which the engineer is at least one of the principal owners. Every other bit of sand bought, for which county money is expended, is supplied by the Kingston Sand & Gravel Co.
Yours truly,
R. E. HARPELL.

Besides the buildings the household effects and some machinery were destroyed by fire. We understand the loss is partly covered by insurance.
