Clothes Last Longer

Rubbing clothes on a washboard wears them out faster than months of ordinary use. Sending clothes out to be washed is very often hard on them too.

With a Beatty in your home, this important work can be done under your own supervision. There is no rubbing—nothing to wear or injure the daintiest garments.

Over 100 times a minute, the hot sudsy water is forced through the meshes of the fabric, thoroughly cleansing every part. Clothes washed the Beatty way last from three to five times as long as those washed on a rubberboard or sent to many of the laundries.

Come in—and see the Beatty work.
