The Real Cause Of Constipation Is A Bad Liver

Mrs. Jean Bocheir, Nelson, B.C., writes: "For many years I have been troubled with my liver, and suffered terribly with constipation."

I HEARD ABOUT Milburn's LAXA-LIVER PILLS.

and have been greatly improved since I started to take them. I cannot recommend them too highly to any one who is troubled with their liver."

Milburn's Laxa-Liver Pills are not new and untried remedies. They have been on the market for the past 22 years; put up only by The T. Milburn Co., Limited, Toronto, Ont.

ADVENTURES OF THE TWINS by Olive Roberts Barto

The Queen Bee Pays Her Part. The next place that Mister Tingaling and the Twins went to collect rent was at the bee-hive. So they went tap, tap, tap on the front door of the big round hive. "May I see the Queen?" asked Mister Tingaling as one of the bees came to let him in. "Certainly," said the bee, stepping aside to let the three tiny people pass. "Here, Queen, here are some people to see you," said the bee. "How do you do," said the Queen Bee. "Are you workers or drones? I have no use for drones. They're lazy useless people and we put them out."

Items From Addison. Addison, May 27.—Mr. F. Mackie has gone to the United States to work. Mrs. Greenham spent Sunday with her daughter, Mrs. W. Henderson, at Elmdale. Dr. Rowsome, Cobden, spent the week-end with his mother, Mrs. W. H. Rowsome, Athens Road. George Miller is erecting a verandah in front of his residence. Mr. and Mrs. S. Scott, of Athens, spent Sunday at Hewitt's. Mrs. T. Patterson spent Sunday with her mother, Mrs. Kasin, who is receiving treatment in hospital at Brockville.

CROSS-WORD PUZZLE

Grid for a crossword puzzle with numbers 1 through 57 indicating starting points for words.

- Horizontal. 1. To exhibit indignant displeasure. 6. To annoy. 1. To give way to dejection. 13. To shower. 15. Seventh note in the scale. 16. Old wagon track. 18. Second note in the scale. 20. Above. 22. Openings in volcanoes. 5. Therefore. 26. Slight nap. 28. To suppose. 29. Fluid in a tree. 30. Compartment in a stable. 32. Roofing material. 34. A jumping. 35. Revolves. 37. The lowest point. 40. Fruit of the pine tree. 41. Humorous exclamation of disgust. 42. Manufactured. 44. Opposite of gain. 45. Age. 46. Carriage on runners. 47. Deltic. 48. Bearded. 50. Paid publicity. 51. To make over. 52. To alter. 57. One who prepares the work of another for publication. 58. Petty naval officers. Vertical. 2. Printer's measure. 3. Habitual drunkard. 4. An epus. 5. Point of compass. 7. Correlative of either. 8. Sailors. 9. To hasten. 10. Half an em. 12. Act of maiming. 13. Squirrel food. 16. To knock. 17. Two fives. 19. Stronger than cord. 21. To stroke lightly. 22. Schedules. 24. Lac or amber. 25. Was seated. 27. Shallow vessels. 29. Roman type of slipper. 31. Ways. 33. Covers with earthy matter. 35. Any minute skeletal element. 36. Contributed to a common fund. 38. To conceive. 39. To blush. 41. A smaller number. 42. Foo. 48. Stir. 49. Owed. 52. Third note in scale. 53. Preposition of place. 44. Toward. 56. Part of verb to be.

A CHEERFUL GREEN. Is Now Seen Where it Was Brown and Sere. Matawatches, May 21.—The recent rains, and the warm sunshine of the past few days have wrought a transformation in the aspect of the country, changing the brown and sere landscape to a cheerful green. Mr. McNeve, Kingston, canvassed this district Monday and Tuesday of this week in the interest of the Sherbrooke branch of the Belleville Creamery. Charles Watkins, Ardoch, is engaged to operate the motor truck collecting the cream through here, as far as Griffith, and out via Denbigh. Miss Beatrice Thompson is progressing favourably in Renfrew Victoria Hospital after undergoing an operation for appendicitis. Congratulations to Mr. and Mrs. John D. MacPherson, on the arrival of a baby boy, on May 18th. Gabriel Whitehead, Chalk River, is renewing acquaintances here after an absence of two years. Miss Edna Carswell spent Friday evening at E. Troke's. The young folks enjoyed themselves at tea given at the home of J. E. Thompson's and C. Bellanger's. C. Strong made a business trip to Renfrew to-day. H. Moss, Renfrew, accompanied by E. Buffan, were over Friday guests at the Troke House.

Piles Go Quick Without Salves or Cutting Thousands who have piles have not learned that quick and permanent relief can only be accomplished with internal medicine. Neither cutting nor any amount of treatment with ointments and suppositories will remove the cause. Bad circulation causes piles. There is a complete stagnation of blood in the lower bowel and a weakening of the parts. Dr. J. S. Leonardt was first to find the remedy and called his prescription HEMER-ROID. Dr. Leonardt has a record of success in 98 per cent. of cases. It has given safe and lasting relief to thousands and will do the same for you. Don't waste any more time with outside application. Get a package of HEMER-ROID from James B. McLeod, of Kingston, Wallace's Drug Store, or Superior, Canada. It has given safe and lasting relief to thousands and will do the same for you.

LINKLATER SCHOOL, GANANOQUE, OPENED Address of J. Arthur Jackson in Turning Over the New Building. Gananoque, May 27.—Tuesday was a Red Letter day in Gananoque, when fond hopes stretching over a long period were realized in the opening of Linklater school. In the afternoon the doors were thrown open to the public and a steady stream of people took advantage of the opportunity to inspect the school. No one was disappointed, but rather pleasantly surprised to find the building exceeded their expectations. Its exterior, which has a very prepossessing appearance gives no promise which is not more than fulfilled within, and the distinguished visitors from other points in the province were loud in their praise of this new school. All who are responsible for its construction, therefore, have good reason to feel proud of their achievement, and perhaps no bigger compliment can be paid it than to say it is worthy the name of "Linklater School," a name which has associated with it the fondest memories and gratitude of all who have so abundantly benefited during Principal Linklater's thirty-eight-year regime; and which we all hope will be stretched over many more years.

The afternoon programme was a most interesting one, and thoroughly enjoyed by the large audience which packed the auditorium to capacity. St. John's separate school was closed for the afternoon and the Sisters and pupils joined in doing honor to this occasion. Following was the programme: Opening chorus, "O Canada," school; address by the chairman, J. Arthur Jackson; recitation and song, Miss Robinson's boys; motion song, Miss Jackson's girls; spring song, Miss Case's class; song, Miss Moore's class; song, Miss Bews' class. "The Maple Leaf," school; piano solo, Miss Gretta Appleby; address, Mayor Wilson; solo, Miss Helen Sheffield; recitation and song, Miss Robinson's girls; flag exercise, Miss Stevens' class. Honquets presented to Miss Bews and Miss Stevens by Mr. Linklater on behalf of their fellow-teachers. Unveiling of Mr. Linklater's portrait, unveiled by little Jean Harding and presented to the board by Frances Miller, the whole school singing "For He's a Jolly Good Fellow."

Address, Inspector McGuire; "Hall Canada," school; addresses, Mr. Morris, Toronto, and Mr. Greer. The evening was given over to the formal opening of the school. Among those on the platform were J. C. Linklater, the architect, Mr. Coon, Toronto; Mr. Greer, Chief Inspector of Ontario; Mr. Fergusson, Minister of Education; Mr. Morris, secretary of the Trustees' and Ratepayers' Association of Ontario, Toronto; Mr. Best, Chairman of Kingston Board of Education; Mr. Johnston, Chairman of Brockville Board of Education; Inspector McGuire, Mayor Wilson, Rev. Mr. Kidd, Rev. Mr. Barber, Rev. Father Hanley, Rev. Mr. Perry, James Sampson, George D. Gilbert. The dedicatory service was conducted by Rev. Mr. Kidd. J. Arthur Jackson, Chairman of the Board of Education, was in the chair, and read an address to Mr. Linklater, who, though deeply affected, was able to make reply in his usual happy style.

When A. Monahan, Brantford, took a party to Brantford the trip proved unfortunate, as their motor car was struck by a street car, and Mr. and Mrs. Fitzgerald and two daughters were injured. The body of the third victim of the Lake Erie tragedy when three runaways were drowned was found floating off Bar Point.

Why don't contractors put sticking plasters on the walls of houses?

Flo-glaze Paint! "The Finish that Endures"

How Value, Service and Proper Protection Are Obtained YOU MUST HAVE—A solid, unbroken paint film over the surface of your property that adheres solidly, and will remain unbroken for at least four years.

Linseed Oil, in combination with a properly balanced pigment formula, is the mainstay of such a film for exterior paints. It is used to give paint flowing properties, to insure uniform distribution of pigment on the surface, to form a firmly adherent and coherent film, and to produce the necessary lustre. Value, service and proper protection are, therefore, greatly dependent on the quality of linseed oil used. In buying raw linseed oil for Flo-glaze Paint we specify a standard of quality higher than the regular commercial product commonly used in paint making. And every tank car is tested and must conform to our standard.

These Diagrams, Magnified Several Diameters, Show How Flo-Glaze Gives 25% Greater Value, Service and Protection.

This diagram illustrates the faults of brush marks in lead and oil paint and other mixed paints. Points A are weak spots in the film. Points B indicate where an excess of paint gives only surface drying, leaving a soft centre producing surface cracking. Dirt and destructive fungi collect in the dales at points C, giving a dirty appearance and early destruction of the film. Light does not reflect a good gloss from such a rough surface. Too much paint is piled up at points D, which lessens its covering capacity.

The above diagram illustrates a typical Flo-glaze surface. There are no weak hollows to destroy the film. Its self-levelling qualities produce a level, unbroken surface. There are no brush marks. Dirt and fungi cannot collect to mar or destroy the film. Light is clearly reflected, giving a glossy enamel finish on both interior and exterior surfaces. Less Flo-glaze is used to cover a given area, giving better wear-resisting protection to the surface. It gives greater annual service value per thousand square feet, and covers 25% greater than any other form of paint.

Scientific and Practical Experience are also essential in producing value, service and proper protection. The raw materials used by paint manufacturers are available to any one who sets himself about to obtain them; even paint formulae of many varieties are available. But the preliminary inspection and treatment of these raw materials, modern facilities for thorough grinding, methods of compounding to avoid harmful chemical action, obtaining balanced proportions for long life and wear are factors that only an experienced organization can undertake in a scientific and practical manner. These problems have engaged the entire attention of our Color, Varnish and Dry Pigment laboratories for over twelve years, in controlling and improving the manufacture of Flo-glaze Paints, Enamels and Varnish Stains. The immediate success of our FLO-GLAZE THIRTY MINUTE LACQUER-ENAMELS is a result of our experienced research in these laboratories.
