THE PRINCE OF WALES TOUR."

Bebe Daniels and Sid Fox Serenaders at the Capitol. It is with a great measure of pride that we offer an especially good programme to the patrons of the Capitol the first three days of the week "The Prince of Wales Tour" is indeed an attraction in itself, the most interesting feature of this film is of course the Popular Prince himself, the world's greatest traveller; the one man living who has seen almost every nook and corner of our vast Empire. The picture opens with the Prince boarding H.M.S. Repulse. There is a hurry of departure, the bidding goodbye before setting out on his historic 25,000 mile journey by land and sea. You get a touch of navel life and fun aboard a British Battle-ship, you visit with the prince the strange lands and islands, you take part in the great riots of welcome given the future king of England, hundreds of close-ups and intimate scenes of the Prince's every day life throughout the entire journey. Bebe Daniels is also on our programme, and Bebe is coming right along. Her latest picture "The Palm Beach Girl' suits her acmirably. The story was written especially for her by Byron Morgan who wrote all the auto racing stories for Wally Reid. Briefly the story con- Fulford, Port Hope. cerns a naive country girl who comes
