ADDRESS ON FEDERAL CONTROL OF FOOD

By Mr. Robert Barnes of Ottawa Before The Kiwanis Club.

Mr. Robert Barnes, of the Dominion Department of Public Health, Ottawa, was the speaker at the meeting of the Kingston Kiwanis Club held on Monday at noon at the Frontenac Hotel. His subject was, "Federal Food Control." The speaker bore a message of intense interest and educational value relative to the Meat and Canned Goods Act, which was put into force for the first time in 1907. Mr. Barnes declared that the question of food control had more prominence today than it had some years ago. Public health was a matter of great concern to the people of the country and, as good health depended largely upon good food, the people were going to make it their business to see that they got the best. The speaker remarked that Disraeli had said that a nation's good depended upon its food supplies.

Mr. Barnes explained that the Meats and Canned Goods Act was first introduced in 1906 but was first put into force in 1907. This result came from the publication of a book upon the way things were in the city of Chicago, which were described as deplorable with regard to food conditions even under inspection. The conditions as described in that book, in a country with an inspection, were as bad as it was said they were. It was considered that a country without food inspection, such as Canada, might be far worse off and it was Lord Gray, then Governor-General of Canada who insisted that an inspection should take place. It is impossible to export food without first having an inspection, and it is impossible to import food into Canada without an inspection showing the same standard as the export food of Canada would be.

The Inspection. Mr. Barnes told of the work of food inspection under his supervision, and explained that inspectors of the Government were stationed at the larger plants whether the food was going from province to province or for export. There were from two to three inspectors in the smaller plants and from eighteen to twenty inspectors at the larger plants. Mr. Barnes declared that one might staff of inspectors at one plant, but he emphasized the fact that these jobs were not made and they were not soft jobs either. These men were highly trained and well qualified. The speaker stated that inspection began when the animals arrived at the plants, almost as soon as the car doors were opened. There was what was termed an ante-mortem inspection and the cattle were thoroughly looked over; those approved passing right on into the plant while those requiring further examination were taken to one side and received a special test. Those that passed the examination satisfactorily were taken into the yards and were slaughtered. Mr. Barnes described the slaughtering process and emphasized the rigid inspection that took place through it all. The inspection of the hulks was carried out by two men and later by another for final inspection, in case the two had overlooked a bruise or some other such thing on the hulk. These inspectors looked over from three hundred to four hundred hulks an hour and were kept busy all the time.

The hulks proceeded through the different processes to the hanging room, the cutting room on through to the cellars to the pickling vats. Chemical analysis were taken to insure against the plant people "putting anything over" at any time. Mr. Barnes spoke of the cooked meats, and stated that in the past nineteen years only two cases of ptomaine poisoning had been traced in jellied meats. Commercial gelatin had been forbidden in these departments.

Pays for Half. Mr. Barnes referred to the cost of this inspection, and declared that it more than paid for itself. The packer bought only the best because if he did not, he knew what would happen when inspection time came. Last year there were 15,989 cattle, 990 sheep, 5,100 hogs and 2,479 poultry condemned by the inspectors. This meant 874 carloads of cattle alone or 22 trains of 40 cars or 2,970 tons. If there were no inspection, this would all pass on and the people would receive it. In concluding his address, Mr. Barnes urged that people back up the milk inspector. He declared that it was a hard thing for a milk in-

Listless, Tired Women Quickly Restored

Must Overcome Constipation

No other remedy acts so quickly on tired women as Dr. Hamilton's Pills. They cleanse, regulate and tone the system, appetite sharpens up, headaches disappear, strength and buoyant spirits return. To feel good, to be your own self again, use Dr. Hamilton's Pills frequently. 25c. at all dealers.

Inspector to buck aldermen who were going to the people every year for election, but he strongly contended that the milk inspector should be backed up. He pointed out that 66 per cent. of the 1,500 deaths of children in New York were due to bovine tuberculosis.

In closing, Mr. Barnes condemned the storekeepers in Kingston who were evidently doing too much business for the sake of the stores and they were doing much of their business out on the sidewalks. He declared that he passed several stores on Monday morning on Kingston streets and saw food outside with not a thing covering it. He condemned this quite strongly.

A hearty vote of thanks was moved to the speaker for his lucid explanation by Kiwanian James McKee, who declared that there should be something done about food inspection on a small scale as well as in the larger plants.

Club Business. The booster for the day was Kiwanian Wattle Macnee and the winner of the prize was Kiwanian Arnot Mordy.

Kiwanian R. H. Fair asked for Kiwanian cars to take the children of St. Mary's-of-the-Lake Orphanage for a drive next Friday afternoon for an hour. Several Kiwanians at once volunteered their cars for this trip.

Kiwanian Ernie Smithies was commended by the Club when he requested Kiwanian Fair to bring the children of the orphanages to the Capitol Theatre on a Saturday morning or afternoon as his guests and he would look after them. The kind offer was warmly received.

MRS. MARTIN GUILD DIES AT MALLORYTOWN

Her Husband Brought Home From Brockville Hospital For the Funeral.

Mallorytown, June 14.—Mrs. Martin Guild, who had been confined to her bed for some ten months, passed away on Friday morning. Her husband was at the time in the General Hospital at Brockville. He was brought home on Saturday morning. The funeral on Sunday afternoon was very largely attended, the service being conducted by the Rev. R. Calvert, who addressed the congregation from the doorstep. The people, except the mourners, were seated on the lawn.

Mrs. Guild, who was sixty years of age, leaves to mourn her demise besides her husband, one son, George, one daughter, Luella, and her mother, Mrs. Turkington, who is totally blind, all at home. She also leaves two brothers, Malcolm Turkington, of Manitoba, and Robert, of Easton's Corners, and a sister in the United States.

Mr. and Mrs. A. Votler, James Greer and Frank Calvert, all of the Royal Bank, were in Sealey's Bay on Sunday.

Manager Votler is to-day in Kempsville attending a meeting of bank managers. James Greer, of Lyn, is temporarily in the Royal Bank here. Mrs. Greer's health has necessitated his withdrawing from the service of the bank for the summer and the rest seems to be doing him good.

Egbert Guild, who has been sick at his father's home for some weeks, has been removed to the General Hospital at Brockville. Mrs. Kenneth Bigford returned to her home on Saturday from the General Hospital, Brockville, much improved.

FINE CATCH OF TROUT.

Plevna, June 14.—A party of fishermen from Smith's Falls, who have been camping on Brule Lake, went home Saturday with a large catch of speckled and gray trout.

A meeting of the township council was held in the township hall Saturday. Rev. I. Branch held service in Clarendon, Friday evening. Mr. and Mrs. Allan Card spent Tuesday at the "Mountain." Mr. M. R. Reid, I.P.S., visited the schools here last week. Joseph Ohlman, "The Mountain," has purchased a fine new touring car. Fred Hill and family were Sunday visitors at Mr. and Mrs. Thomas Krings.

LENNOX AND P. E. CONSERVATIVES MEET

A. DeWitt Foster, Member for Kings County, N.S., Chief Speaker.

Napanee, June 14.—Mr. J. de O. Hepburn, of Picton, was re-elected president of Lennox-Prince Edward Conservative Association at a meeting held here on Saturday afternoon. Mr. A. DeWitt Foster, M.P. for King's county, N.S., was the speaker of the day and he attracted several hundred people to the meeting despite the very unfavorable weather. Other speakers were C. W. Hamby, M.L.A. for Lennox, Mr. John Hubbs, M.P. for Prince Edward-Lennox, H. S. Colliver, M.L.A. for Prince Edward, and General Hepburn, ex-M.P. of Bicton.

The election of officers was the first business on the agenda and resulted as follows: J. de O. Hepburn, of Bicton, president; Albert F. Reid, Napanee, 1st vice-president; Mrs. A. L. Harshaw, Napanee, 2nd vice-president; George E. Boulter, Picton, secretary-treasurer; Wilfred S. Wilson, Napanee, assistant secretary-treasurer.

The King Government was trying to keep the Maritime Provinces from enjoying their fair share of prosperity, said DeWitt Foster, who also stated that the industries of fishing and agriculture, which were the main industries there, had shown a steady decrease ever since the King Government came into power in 1921. The loss in revenue amounted to millions of dollars, he declared. Mr. Foster closed with a plea for an adequate and sane tariff policy.

That the Liberals were trying to claim that they were the only party capable of handling the temperance policy in Ontario, was the statement made by H. S. Colliver, M.L.A. He remarked in reply to this claim that in every province of Canada where Government-control was in force, either a Liberal or Progressive Government was in power.

C. W. Hamby, M.P.P., reviewed local politics and took the opportunity to intimate that he would again stand for the nomination. Mr. John Hubbs, M.P., flayed the King Government for what he characterized as the ruthless way they had broken pledges. Industrial Canada was in a state of uncertainty through the reduction of the duty on automobiles, he said, and much of the legislation brought down by this Government was detrimental to the interests of the whole country. General Hepburn also spoke briefly.

GANANOQUE

Gananoque, June 15.—Officers of the Canadian Canoe Association met here at the week-end to make final arrangements in connection with the Championship Meet that will take place here on Saturday, August 7th. E. G. Tressler, Commodore, Ottawa, H. Welschmiller, Vice Commodore, Toronto, J. C. Pettigrew, Montreal and Mr. Mitchell, Ottawa, met a committee of the local Canoe Club, everything points to the best meet they have ever had. Besides the usual programme of races there will be other features introduced on this occasion, such as swimming races, tilting contests, etc. Another pleasant feature of this year's programme will be the morning programme, thus making a whole day's sport, and permitting the entire programme to be disposed of at a reasonable hour.

Mrs. F. E. Thomason, New York City, is expected to arrive today to spend the next few months at her summer home, Lancaster Island.

James McMillan, Ottawa, is in town. Quite a number of young people motored to Brockville last evening for the dance.

Mrs. Madeline Forbes arrived in Gananoque yesterday from New York for the summer.

Mrs. White, New York, is the guest of her sister Mrs. Harrington Baker. Kenneth MacKenzie and Phil Small, Kingston, arrived here from New York yesterday, to spend a holiday.

Wallace Jones spent the week-end at the Brockville Country Club. Douglas Lloyd was fortunate enough to land a beautiful fish a few days ago near Pike Island. It was a pike which measured 3 feet 2 inches, and had a girth of 26 inches.

Mayor Wilson has just come into possession of a new "Pontiac" Car, the first of the new General Motors line to come into town.

Teeth Made White - Glorious, Gleaming Please accept 10-day tube to try

Your gums like coral to contrast them—just remove that dingy film, see what happens. Modern dental science now has found a way that restores "off-color" teeth to clearness, that gives toneless gums a healthy coral tint. Famous movie stars use this way before going on a scene. That's why movie smiles glisten so. Leading dentists urge it widely. For it protects the teeth and firms tender gums. It is called Pepsodent—a new-type tooth paste that works by removing the dingy film coat from teeth that old-time dentifrices did not clear off successfully. That's why brushing fails you. Run your tongue across your teeth and you'll feel that film. A slippery coating that absorbs discolorations and keeps your teeth off color, that breeds bacteria by the millions and invites tooth decay, gum troubles and pyorrhea. Remove it and you will be amazed at what you see. Discard old ways now. Get Pepsodent at any drug store. Or send coupon for 10-day tube to try.

FREE Mail Coupon for 10-Day Tube to THE PEPSODENT COMPANY Sec. CC-2069, 191 George St., Toronto, Ont., Canada. Name Address Only one tube to a family. 500 Cos.

FOR Sour Stomach PHILLIPS' Milk of Magnesia

Hereafter instead of soda take a little "Phillips Milk of Magnesia" in water any time for indigestion of sour, acid, gassy stomach, and relief will come instantly. Better Than Soda. For fifty years genuine "Phillips Milk of Magnesia" has been prescribed by physicians because it overcomes three times as much acid in the stomach as a saturated solution of bicarbonate of soda, leaving the stomach sweet and free from all gases. Besides, it neutralizes acid fermentations in the bowels and gently urges this scumming waste from the system without purging. It is far more pleasant to take than soda. Insist Upon "Phillips" Each bottle contains full directions. Any drug store.
