Terrible Backache Hamilton, Ont. "After my baby was born I had terrible backache and headaches. I could not do my work and felt tired from the first minute I got up. But worst of all were the pains in my sides when I moved about. I had to sit or lie down for a while afterwards. I could keep my house in order, but many things had to go undone at the time, because of my ailments. I was told by my neighbor to take Lydia E. Pinkham's Vegetable Compound, as she said it would build me up. I was relieved before I had taken the first one and have not had any trouble like it since."
