Professor Sinclair Laird, Dean of the School for Teachers, Macdonald College, makes his third annual tour "Across Canada and Back" with a party of Easterners leaving Toronto by Canadian Pacific Railway on July 19. Professor Laird's remarkable success with the two previous tours evoked such large demands for another of these "nonpareil" trips to the land of majestic peaks and purple mists that the third tour becomes a necessity, a national requirement.

A personal acquaintance with Canada's provinces is considered essential for every Canadian's education nowadays. Travel is a sound investment which not only maintains its value throughout life but adds continually to daily pleasure and efficiency. Nothing can take the place of the personal experience that comes through travel, leading to the educationalists the world over agree. In the realm of Canadian literature, history and geography, reading and teaching may be enhanced and brightened by personal familiarity after the subjects have been seen and admired.

Long after the trip has been completed there will remain in the hearts of those who have made the journey the imprint of quiet valleys, wooded forests, and nature's dignified solitude. As Edith Johnson sang of the Rocky Mountains:

Farther than vision ranges,  
Stretches the land of beauty,  
Arches the perfect sky,  
Hemmed through the purple mists afar  
By peaks that gleam like star on star.

The trip to the West covers the Muskoka district, and the world-famous mining region of Sudbury, Lake Superior is then skirted as far as Fort William, and thence to Winnipeg with a side trip to Winnipeg Beach, the Manitoban summer resort, and on to Indian Head, Regina, Moose Jaw and Calgary where the Canadian Pacific Rockies are entered through the Gap, two almost vertical walls of dizzy height, streaked and capped with snow and ice. Here we come to Banff, headquarters of the Rocky Mountains Park, a wonderful region of 2,751 square miles embracing rivers, lakes and noble mountain ranges.

From Banff to Windermere, 104 miles, the party under Professor Laird will go by automobile. Then from Windermere to Kootenay, through the beautiful Kootenay Lake to Nelson. Leaving Nelson they pass through the Doukhobor country to Penticton, skirt Okanagan Lake, cross Fraser River at Hope and proceed to Vancouver. After two days at Vancouver the party sails to Victoria, affording an opportunity of seeing the famous Crystal Gardens.

Travelling back to the East the trip takes in the Fraser and Thompson River Canyons, and in especial the marvelous Lake Louise district. At the latter may be seen the white smoke of avalanches that go thundering down from the glacier nearly half a mile away. Lake Louise is about a mile and a quarter long and nearly half a mile wide. The Indians say its waters are distilled from peacocks' tails and paved with mother-of-pearl, and into them pour those wild blue waters whose colors are mixed on the palette of the glaciers.

On the journey back East the trip is varied by calls at Edmonton and Saskatoon, while the awe-inspiring Devil's Gap near Kenora is also taken in. A full day is spent at each of these places. From Fort William the party embarks on a Canadian Pacific steamboat on which they traverse Lakes Superior and Huron to Port McNicoll whence a short trip to Toronto ends the journey.

While the trip is under the leadership of Professor Sinclair Laird it is by no means confined to travellers who belong to the teaching profession, and in former years a large proportion has been composed of people drawn from industrial, business and municipal circles who desire to increase in this pleasant and unique manner their acquaintance with the facts of their own country.
