GETTING SKINNER EVERY DAY

Something Must Be Done and Done Right Now—Quick.

Hollows in Cheeks and Neck Growing Deeper Every Week

Tens of thousands of thin, run-down men—yes, and women, too—are getting discouraged—are giving up all hope of ever being able to take on flesh and look healthy and strong.

All such people can stop worrying and start to smile and enjoy life right now for McCoy's Cod Liver Extract Tablets which any druggist will tell you all about are putting flesh on hoists of skinny folks every day.

One woman, tired, weak and discouraged, gained 15 pounds in five weeks and now feels fine.

We all know that the livers of Cod fish are full of vitalizing flesh producing vitamins and these same vitamins of the highest class are found in McCoy's Cod Liver Extract Tablets—sugar coated and as easy to take as candy.

And this shows what faith the makers have in McCoy's for they say: If any thin person don't gain at least 5 pounds in 30 days your druggist is authorized to give you your money back—and only 60 cents for 30 tablets. Ask Jas. B. McLeod, Macneil's Drug Store, Brantford's Drug Store, or any live pharmacist anywhere in North or South America.

But be sure to get McCoy's, the original and genuine.

Gananoque, July 30.—Jack Hargraf and Hubert Shortall will play the final game that will decide the winner of the president's shield, next week, and as these two young golfers have many laurels to their credit and are pretty evenly matched, game will be watched with much interest.

The Skinner Company Limited completed negotiations yesterday which have put them in possession of the old Cowan and Britton winger works property. This factory will be made part of their rapidly developing business, and enable them to make extensions which are necessary. The King street building will be converted into modern up-to-date offices for their use.

J. R. Meggs, manager of Bank of Toronto, Vancouver, B.C., paid a flying visit here yesterday to his parents, Mr. and Mrs. A. E. Meggs, Toronto, on his way to report at head office. Mr. Meggs will probably be appointed to a position in the east.

Although the day was threatening throughout with occasional showers there was a very large attendance. The chicken supper was an excellent one, and the ladies are to be congratulated on the excellent meal and service. The present pastor, Father Scott, leaves on the 11th August for his new appointment at Toledo, and though there is nothing official as yet as to his successor Father Quinn, a former curate of this parish is mentioned in this connection.

ADVENTURES OF THE TWINS

by Olive Roberts Barto

A TRIP WITH THE STORK.

Nancy and Nick, Johnny Jump Up, the fairy, held tightly to the stork's long sharp beak while he carried them from the tulip field over a lovely country with grass so green it looked like paint in a picture.

And the sky above was so blue and the clouds so big and white and fluffy, they too, looked like paint.

"Holland looks like a picture, doesn't it," remarked Nancy, looking down as they sailed through the air above the tree tops.

"Yes," answered the stork. "When I leave my other home in Africa to fly north for the summer, you can't blame me for picking out such a lovely country as Holland. And the people are so kind, too! They always watch for our coming and never throw stones at us, the children don't."

"Oh, look!" cried Nick. "What are those big things with wheels on top?"

"Those are windmills," said the stork.

"And what are all those creeks for?" asked Nancy, pointing downward. "They're so straight they look as though they had been drawn with a ruler, and they cross each other like the marks on a checker-board."

"Those are canals," explained the stork. "Holland is low and very watery. The people dig canals to let the water run away, then their fields are dry enough to farm."

"I see a lot of cows," said Nick next. "There seem to be cows everywhere."

Rheumatism

If So Crippled You Can't Use Arms or Legs Rheuma Will Bring Quick Relief or Nothing to Pay.

If you suffer from torturing rheumatic pains, swollen, twisted joints, and suffer intensely because your system is full of the dangerous poison that makes thousands helpless and kills hundreds years before their time, then you need Rheuma, and need it now.

Rheuma acts with speed; it often brings in just a few days the relief you have prayed for. It helps antagonize and drive from the system the deadly poisons that cause Rheumatic agony, twisted, swollen, unsteady joints and sore muscles. Rheuma is harmless—quick acting and one discovery that has forced Rheumatism to yield and disappear.

Don't continue to suffer Rheumatic torture—get a bottle of Rheuma from James B. McLeod of Kingston and Wallace's Drug Store of Napanee, or any druggist to-day. It must rid you of all Rheumatic pain or money back.

"Of course," answered the stork. "Cows give milk and milk makes cheese. The people of Holland make enough cheese to feed the whole world almost—and still have enough left over for the mice. Those houses yonder are dairies where they make the cheese."

"Say," said Johnny Jump Up admiringly, "you know a lot, don't you, Mister Stork? Why, you are better than a geography book."

"Seeing the world is always better than studying a book," said the stork wisely, "and I am a much-traveled person."

"Are we much-traveled persons?" asked Nancy curiously.

"Well, said the stork thoughtfully, "I should say you were. And by the time my friend the titmouse takes you to some of the countries you ought to know enough to get into college. Or high school, anyway."

"What's that wall for?" asked Nick, pointing down to a place where the land stopped and the sea began. A high wall ran along the shore as far as they could see.

"We're at the seashore, and that's a dyke," said the stork. "The sea came up and spoiled the land sometimes and the people couldn't make things grow. So they built this dyke many years ago to keep the sea out. You'll never see another one anywhere just like it. But we must go. The titmouse will be waiting for you on the roof to take you home."

And sure enough, there he was. "Your tickets said 'there and back'."

he remarked, "so we must be returning to the magic garden."

"Goodby," they said to the stork, hopping, all three of them, on the plump little bird's back.

Away they flew over the ocean toward the sunset, leaving Holland and the stork far behind.
