WHEN OUR JUMPER WASN'T UP TO DATE

(By Crawf. Slack.) We're a curious composition, I guess the same world wide For no matter what what our cir-

cumstance we're never satisfied. Some worry over mortgages, the interest makes them fret. While others are not satisfied with-

out they are in debt. used to think if ever I got rich enough to write,

check in just four figures I'd consider myself right. got very near that number when

my bank book got a jar, For my women folks got nagging me to get a better car.

other words a "Ford" bought it second-handed and was all I could afford.

was no fancy showcase, nor was i worth a pile date and style.

The Smiths and Browns and Jones were trading in their cars. glistened like the stars.

considered our old jumper was good enough for me. But Balinda and my daughter they thought different you see.

When scheming Auto agents heard When I got to wife Balinda she ha that we would trade or buy, They swarmed around like hornets. seemed to drop out of the sky They'd all kinds of enclosed buses painted in the latest shade. And the one thing most peculiar, was

they all were "Special" made. Some had "Special" carburators some with "Special" vacuum

There were some with "Special startcrank.

There were some with "Special" trimming in plushes drab and But the "Special" of all specials was

when buying you paid down. The yard was filled with autos, agents representiing all.

There were picture cards of autos, in the windows on the wall. They were busy demonstrating each

"Special" make of car. And were driving my Balinda and her daughter near and far.

The house work was neglected an the meals were always late. and I was nearly frantic by their au-

tomobile prate, was doing all the house work cooking, dusting, cleaning

Why I scarcely got a minute to at tend to things out doors. So I flatly told Balinda she had bet ter make her pick.

And I'd rid the place of autos and their agents mighty quick, finally decided, picking one

he agent said. the famous Barney Oldfield was modeled and was made. everything about it "Special" and distinctive in its class.

It would shoot more miles per gallon than all others on poor gas, He said the greatest feature 'bout the car, and all its own. Vas that its was almost human, and

would nearly run alone, said he'd teach Balinda to adjust it here and there. That in less than half an hour she could drive it anywhere.

To be equal with our neighbors and be in the social swim. owned a classy motor but my bank account was slim,

For I wrote my check in payment for half a thousand bones And had to go and borrow the same amount from Jones

The agent taught my daughter and Balinda how to drive. But to me it is a wonder that today

they are alive. The fences and the buildings have been calloused by the bunts, Of that "Special" automobile doing acrobatic stunts.

We'd possessed that "Special" auto about ten days or so. When Balinda in the barnyard gave

a regular wild-west show. She claimed she had it conquered and at her beck and call. But I came to the conclusion that

she hadn't tamed it all. She said she'd give me lessons show me how to manage it, But when she went to demonstrate

it took a crazy fit. When she touched a "Special" button the blooming thing got gay And in place of going forwards it

shot the other way. We owned a puddle-jumper, or in Then it snorted like a broncho and

took a plunge ahead. And tore away the sheeting and ment at Olympia on the afternoon of jumped out through the sned It galloped 'round the barnyard and tried to loop-the-loop,

Not at all the latest model or up to It careened against the hog peu and smashed the chicken-coap Then it started for the highway gcing at a fearful rate.

For those enclosed and classy, which But exploded like a canon and brought up against the gate. Just a streak of car and woman that at the White City Shepherd's Bush, day there could be seen.

> earth and air machine. fainted at the wheel. But I saw at once the "Special" had

> the worst end of the deal When I saw she wasn't injure? carried her inside. And I went out in the woodshed and laughed until I cried.

> have seen dare-devil cowboys do ing tricks considered slick. But Balinda had them faded with her automobile trick.

ers which you never had to Our old Lizzie wasn't stylish, but as fool-proof was complete. She required no brains to manage you controlled her by your feet

We're a curious composition, the same I guess world wide. No matter what our circumstance we're never satisfied.

Treasure Island is Mecca for Children

Treasure Island, the outstanding amusement feature of the British Empire Exhibition at Wembley — with its bold but nice pirates, Long John Silver and Captain Hook, and its many other famous characters from storyland, Peter Pan, Wendy, Alice, the Duchess, the Mad Hatter, Cinderella, Mother Goose and Robinson Crusoe, has Cinderella, Mother Goose and Robinson Crusoe, has

proved to be the greatest entertainment attraction at the Sesqui-Centennial International Exposition at Philadel-Sesqui-Centennial International Exposition at Philadelphia.

It is a much bigger and more wonderful "Treasure Island" than the one which delighted thousands at Wembley last year. It has six acres of land, surrounded by a natural lagoon. The entire lay-out of the Island in Philadelphia was designed and built by Maxwell Ayrton, architect of the Wembley exhibition overseas. Drake's ship the "Golden Hind", Noah's Ark and its animals, two by two, and pirate and smugglers' caves will be a few of the features seen.

But quite the most fascinating experience of the visitor to Treasure Island is the trip across Canada on the miniature Canadian Pacific Railway's "Imperial" just below the magnificent Chateau Frontenac, and passes through Quebec and Ontario provinces and enters the prairies in less than no time. When Banff is reached the train stops to allow passengers to see the Banff Springs Hotel and the beautiful Bow Valley. Westward it speeds through the Canadian Pacific Rockies, some 600 feet long, the tallest towering 74 feet high and built of sheet iron and plaster, and dashes into Connaught tunnel; thence on to the Coast, where one sees Vancouver Harbour, the Straits of Georgia and picturesque Victoria.

More than half a million people rode on the little Canadian Pacific Railway at Wembley last year, and among its distinguished passengers were the King and Queen and the Duke and Duchess of York. PROBS:-Saturday, fair and cool.

EXTRA SPECIAL FOR \$11.95 SATURDAY \$11.95
