

Piles Disappear

No Cutting or Salves Needed
External treatments seldom cure Piles.
Nor do surgical operations.
The cause is inside—bad circulation.
The blood is stagnant, the veins flabby.
The bowel walls are weak, the parts almost dead.
To quickly and safely rid yourself of piles you must free the circulation—send a fresh current through stagnant pools. Internal treatment is the one safe method. Ointments and cutting won't do it.
J. S. Leonard, M.D., a specialist, set at work some years ago to find a real internal remedy for piles. He succeeded. He named his prescription HEM-ROID, and tried it in 1,000 cases before he was satisfied. Now HEM-ROID is sold by druggists everywhere under guarantee. It is a harmless tablet, easy to take, and can always be found at Jas. B. McLeod, of Kingston, and Wallace's Drug Store, of Napanee, who will gladly refund the purchase price to any dissatisfied customer.

GIVEN FAIR CHANCE ROAD WILL MAKE GOOD

Hon. Mackenzie King's Reference to the Hudson Bay Railway.

North Battleford, Aug. 10—Speaking last night of the Hudson's Bay railway, Right Hon. W. L. Mackenzie King said: "Give the same fair chance as was given to the Canadian National Railways, there will be the same result, and railway will become a national asset." The Liberal leader again pledged his party to completion of road to the Bay. He also challenged Mr. Meighen to state publicly whether or not appointment of Hon. W. A. Black as minister of railways was permanent. Mr. King reminded his audience of a feeling which had existed a little over a year ago—a feeling that the east was indifferent to the west. "That feeling has changed. I put change down to one thing, and that is Liberal representation Saskatchewan sent to House of Commons last year," said Mr. King.

Mr. King told how the Government, on going into power, had found the Crow's Nest rates suspended. "One of the first acts was to restore it," he said. "Giving basic rates on grain and flour." This, he believed, had saved the farmers of

the west millions and millions of dollars. Mr. Meighen, said the Liberal leader, had already begun to indicate a policy of interference with the national railways. National railways had been used for political promises at election time. This attitude of Mr. Meighen's was one which should be resented by people of Canada as a whole.
