MATTERS OF INTEREST TO SUMMER SCHOOL

Were Taken Up at Final Meeting of Association for Present Term.

Whether or not a university newspaper is of any practical use to the student body, was discussed at the last meeting of the Queen's Summer School Association for the present term which was held in Convocation Hall on Monday night.

Several other matters of the first importance to the extra-mural students also came up, among them being the dates for the summer school term next year, the provision of more tennis accommodation and suggestions as to courses to be given next term. Mr. J. L. Challinor, the retiring president, occupied the chair.

It was decided that the association would recommend to the university authorities that the opening and closing dates for Queen's Summer School next year be July 7th and August 17th.

The discussion as to the merits of a university paper was not merely an academic problem, but it was a concrete proposition, for the Summer School has this year carried on the Queen's Journal, the official university newspaper, and at least some of the students are convinced that it is no valuable addition to the association activities. Opinions were voiced for and against the newspaper, and the matter finally was disposed of, when a motion that the subscription to the Journal be reduced to fifty cents per term, and that this subscription fee be compulsory and collectible with the regular tuition fees, was moved, seconded, voted on and lost. It is now certain that the subscription fee to the Journal will not be compulsory but, as to whether or not the paper operates at all next summer, rests with the newly installed executive.

The Summer School Association fee for next year will be fifty cents, collectible with tuition and athletic fees. A request was made that the university authorities make an effort to supply information to students at least one year in advance as to what courses would be offered at the Summer School. Requests for classes for next term included advance work in Spanish, history, economics, biology, physics, mathematics, Latin and Greek.

Mr. A. H. Carr, director of extension courses at Queen's, was present at the meeting, and addressed the students briefly. In his remarks he stated that the student who took the course extramurally, deserved every bit of credit when he successfully passed his examinations. The intramural student got much help from lectures, but the student outside the university had to dig for his information, he said. In concluding Mr. Carr said that he was sure that the university would be pleased to accommodate any teachers of any district who wished to hold their annual convention at Queen's.

A petition to have four more cement tennis courts built at the university was unanimously carried by the meeting. The petition declared that the present number of cement courts was inadequate, and that the grass courts were not in proper shape to be played on.

The financial statement of the association showed that \$1,685.55 had been received and that \$1,457.79 had been expended, leaving a balance of \$227.76. The auditors' report was adopted. The meeting closed with the installation of the new executive, and a vote of thanks to the retiring executive, the orchestra and the staff of the Journal.

NAPANEE

Napanee, Aug. 17.—In the Mercantile league game of softball played on the Napanee Collegiate grounds on Monday evening, the I.O.O.F. Lodge, No. 88, defeated the Business Men's team by 9 to 8.

The game was late in getting started, and was called on account of darkness at the end of the fifth inning. Some rather snappy plays were made by both teams. Messrs. Holder and Fraser handled the game in a very impartial manner.

This win puts the triple links up near the top of the ladder. W. Gault, of the Canadian National Express staff, and Reg. Wiseman motored to Ottawa on Monday to spend a few days.

Mr. and Mrs. M. R. Reid and two children, of Sharbot Lake, motored to Napanee and spent Monday with friends.

James O'Neill, of Vancouver, B.C., arrived in town yesterday, and will spend several weeks in Napanee. It is eleven years since Mr. O'Neill left Napanee for the Coast.

Mr. and Mrs. G. H. Bartlett and daughter, Pat, are guests of Mrs. Bartlett's parents, Mr. and Mrs. W. T. Waller, for a few days.

Mr. and Mrs. James Scott, of New York City, arrived in town on Sunday to spend a couple of weeks.

the guests of her parents, Mr. and Mrs. George A. Cliff.

Edward Douglas, of Buffalo, N. Y., is spending a few days with friends in Napanee.

J. B. Anderson, of New York City, and his sister, Mrs. A. R. McCluskey, of Lakewood, N.Y., arrived in town on Monday by motor, and are spending a couple of weeks with their brother, S. J. Anderson, Melroe. It is fourteen years since they visited their home town.

GANANOQUE

Gananoque, Aug. 17.—Mayor Wilson, J. T. Greig, J. C. Linklater and B. O. Britton motored to Ottawa yesterday for the opening of the Centenary. With the mayor's characteristic foresight he took advantage of this excellent opportunity to do some initial missionary work in connection with Thousand Island Day, which will be in Gananoque, August 3rd, 1927.

Miss Tessa Burns is expected to arrive tomorrow from Toronto to spend a few days at Idylwyld with Mrs. Edward Duval.

Mrs. D. Wing, Sr., and Miss Margaret Wing, Toronto, who have spent the past few weeks at Lone Pine Cottage, Belle's Island, returned home yesterday, and were accompanied by Misses Mary and Elizabeth Wing, who will spend the next few weeks in the Queen City.

Mr. and Mrs. Simon Vallentgood, Sealey's Bay, received the congratulations of many friends on Sunday last, the occasion of their silver wedding anniversary.

R. J. Bovey, who recently lost his boat by fire near the T. I. Park received a wire on Saturday last from the latter summer resort stating that through a subscription of sym-

Sixty Years of Service to Canada and Canadians

From a pinch of living insignificance springs that exultant shout of glory which men call a maple tree. From the brain of Robert McLaughlin, a farm lad whittling axe helves for his neighbors, sprang Canada's greatest automotive industry, General Motors of Canada.

A Canadian institution, founded by a Canadian, staffed by Canadians, employing Canadian workmen and using Canadian materials, General Motors of Canada has been for sixty years a paramount factor in the Dominion's prosperity and progress.

It sells to Canadians through Canadian dealers and, in addition, distributes Canadian-built cars wherever the flag of Britain flies.

It uses lumber from Canadian forests and steel made in Canadian mills from Canadian ore, smelted by Canadian GENERAL MOTORS OF CANADA,

foundrymen. It purchases from Canadian sources vast quantities of brass and copper, of wire and glass, of nickel and fabrics, oils, paints and Duco finishes—

and all that heterogeneous mass of materials which enter into the making of a modern automobile—and which have entered into the building of a total of more than 325,000 General Motors of Canada cars and trucks.

Building cars to suit every purse and purpose, to meet every need and condition of Canadian life and travel, General Motors of Canada is one of the great institutions that is acquiring for Canada a higher and yet higher place at the world's council table.

Now at the height of its sixty years of service to the Dominion, it is helping to make Canada an even greater Canada for Canadians.
