TIRED, NERVOUS MOTHERS are the direct cause of much unhappiness in our homes; their condition irritates and wears upon the husband and often ruins a child's disposition. This condition of the mother is often due to some weakness which makes her entirely unfit to perform her household duties, and bear the strain upon her nerves that governing children involves. Every woman who finds herself in this condition should rely upon Lydia E. Pinkham's Vegetable Compound, and lose no time in giving it a fair trial.
