

CANADIAN NURSES MEET AT OTTAWA

Memorial to Sisters Who Died in War Will Be Unveiled Tuesday.

The Kingston nursing sisterhood is well represented at the thirteenth general meeting of the Canadian Nurses' Association, which opened in Ottawa to-day, and continues until Friday afternoon. Not only in point of attendance, nor because of the progressive strides which this association has made, will it be of the greatest import, but because the highest undertaking by this profession in Canada will be culminated in the unveiling on Tuesday afternoon of the memorial to the Canadian nursing sisters, who gave their lives in the Great War. It is expected that among the nurses present will be nearly three hundred who served overseas during that war period. On Tuesday evening these overseas nurses will meet at a special dinner gathering arranged for them. The memorial, which is of solid marble, was carved in Italy, and is a beautiful piece of work. To this only Canadian nurses contributed. It was expected that the Governor-General, Lord Byng, would be in Ottawa for this event, but in view of his absence, Matron Marguerite MacDonaid, who was in charge of the Canadian nurses overseas, will officiate. The matron-in-chief in Canada during the great war was Matron Edith Reynolds, a graduate of Queen's University, who is now the superintendent of nurses at the Hamilton General Hospital. Miss Reynolds, after giving splendid service overseas, was recalled home to take charge in Canada.

Matron Willoughby, of Kingston, is also in Ottawa, she having been in charge of the Queen's University unit overseas.

WILL HE FLOOD THE SKY WITH "AIR FLIVERS"?
This shows Henry Ford displaying an experimental model of the new "air flivver" that Otto Kaplan, a young Detroit inventor, has developed in Ford's private machine shop. Ford believes that there is a big market for planes of this type, and it is hinted that his factory wing tip, is twelve feet long, weighs 320 pounds and can develop a 100-mile speed with a three-cylinder engine.
