Revision of Voters' List. The revising of the voters' lists, which is taking place at present, is proving quite a task and on the first day of the revision fifty-seven people made application to have corrections made. Just as many will probably apply to-day to have their names added or to have them transferred from one ward to another.

Choir Visits Hotel Dieu. The seminary choir of St. Mary's College, Augusta, visited the Hotel Dieu, on Friday afternoon. There are twenty members in the choir and all of these are boys who are in attendance at the institution. They spent a pleasant time at the hospital and sang at the Benediction services Friday evening.

Cattle Triplets. During this season there was one lot of triplets and one pair of twins born at the Hemlock Park Stock Farm, all of which lived and thrived. It will be remembered that last season quadruplets were born at this same farm, but they did not live. Recently a young two-month-old bull was sold to a man in Syracuse, N.Y., and it will be shipped very soon.

R.C.H.A. Return Thursday. On Thursday morning the R.C.H.A. will return to the city from their camp at Petawawa. They have had a very busy summer and it will be quite a change for the members to get back into the city again. A detachment of the Artillery are billed to appear at the Canadian National exhibition at Toronto, which opens this Saturday.

Visiting Boats. Visiting boats at the Kingston Yacht Club to-day include the Lotus from Sodus Point and the Hudson from Chamont Bay. They are here for the dinghy races which were to be sailed last Saturday but are being sailed this week-end. This race, when the Chamont and Kingston sailors battle, is attracting attention of many surrounding clubs and many visitors are expected for the event.

No Hard Times Here. The demand for men in the west to help in the harvesting of the large wheat crop is growing stronger, but still the east does not respond to the extent desired. Extra excursions are being run during the first part of September to help along with as many men as can possibly go to the aid of the westerners. As a local railway man said, "the east can't get along without the west, and the west can't get along without the east." The greater part of the men, too, are already engaged with steady work. No hard times here, "daddy is working."

"Annandale" for Apartments. Mr. Matt Hanson to-day confirmed the rumor that he had purchased "Annandale," the Carruthers property, at the corner of Earl and Sydney ham streets, and Mr. Hanson an-

nounces that he will convert the building into an apartment house. The house, which is a very large one, was occupied by the Carruthers family for over one hundred years, but forty years ago a three-storey brick addition was put up which materially increased the room. The property is situated in an excellent location and is surrounded by quite extensive grounds. Mrs. John Bell Carruthers was the last of the family to occupy the residence.

The excursion to the Experimental Farm at Ottawa, conducted by the Kingston Industrial Exhibition, proved a wonderful success and those who were not able to make the trip last June were afforded an opportunity of seeing this model farm and all the most modern improvements both in machinery and cultivating methods. Also many spent a very enjoyable holiday at the Central Canada Exhibition and report that it is a show well worth seeing, with exhibits from all over Ontario and Quebec, and many novel and entertaining features. The total number taking in the excursion on Tuesday was 286 and most of the holiday-makers returned home early Wednesday morning. Mr. R. J.
