"THE GIRL IN THE SECOND CABIN"

By E. J. RATH

Author of "The Nervous Wreck," etc.

Spencer Trumbull didn't want to take a sea voyage for his nerves. He was too interested in a girl in the Adirondacks. So he hired his ald college chum, Billy Trask, to go in his place. Billy decided to be good and sick. In fact, he was wheeled on board the steamer by a male nurse-an ex-prizefighter.

The humerous complications that erise and the romance that involves this athletic invalid form the climax of this fascinating story. You'll be corry if you miss the first installment of "THE GIRL IN THE SECOND CABIN" which will appear

IN THE BRITISH WHIQ ON WEDNESDAY, OCT. 6.

er, Charles Mooney. Mr. and Mrs. L. Shellington will be married to Mr. ing them to workers on a small

The government of Australia has complete, is made up of seventy

Makers of many fine cars have corrected for their owners this costly error

To which motor car experts attribute 50 to 75% of all premature motor wear.

OLD is causing costly damage to your motor - eight months of the year. It's the biggest cause, according to motor car experts, of excessive crankcase dilution, corrosion, fouled spark plugs, high gas consumption, rapid cylinder wear.

The dangerous "choke" babit

"Eliminate excessive use of the 'choke,' and you eliminate 50 to 75% of the cause of repair bills." say leading motor car service

Flooding your motor with raw gasoline is a costly "warmingup" process. It washes cylinders and cylinder walls clean of the oil film of protection. Metal to metal contact follows. Scoring. pitting and rapid cylinder wear result. Gasoline consumption is increased at a tremendous rate.

> Winterfront ends the cold weather damage

This important discovery will keep your motor at summer operating efficiency the year 'round -preventing the costly damage wrought by cold.

Wrong THOUSANDS believe that a motor needs protection only in freezing weather. This erroneous belief is costing car owners millions. It is the cause -authorizies agree-of 90 to 75% of all premature motor wear. Correct this belief - at freezing the damage is done.

OLD starts its work of d struction at 60° Februshel That's when you need Winter-front. Makers of many fine care owners against the dama wrought by cold. As 60° Fe nhest, have a Wiss stalled. Don't give cold a chance

"6," Willys-Knight Big "6" and Wills St. Claire.

Winterfront regulates your motor temperature automatically, taking in just enough cold air to keep your motor at the correct temperature for most efficient

It cuts the "warming-up" period to seconds-breaking you of the costly and dangerous "choke"

Adopted by many fine cars

To give their owners year 'round protection against the costly damage cold will bring-makers of these fine cars have adopted Winterfront as standard equipment: Packard "8," Pierce Arrow, Peerless "8" and DeLuxe

In ten minutes—you can have this vital protection—for a fraction of what it will cost to repair the damage cold will bring. Drive in for ten minutes when the temperature reaches 60°. That's when cold starts its work of destruction. Go out equipped to save yourself next spring's repair bill.
