DISTRICT GOVERNOR ADDRESSES ROTARY

W. W. Campbell of Rochester, N.Y., Speaks of High Ethical Standards.

The high ethical standards of which the International Rotary is based were brought home to the Kingston Rotary Club on Wednesday evening in an address delivered by District Governor W. W. Campbell, of Rochester. In an earnest and sincere way the speaker told his hearers of the great ideals which Rotary and similar service clubs were trying to spread throughout the world and he stressed the privilege it was to belong to Rotary. It was an organization big enough to transcend wealth, age, social position and religious differences, he said; a philosophy of life which replaced self-aggrandizement with self-sacrifice.

As a courtesy to the District Governor, who at the present time is making his tour of Eastern Ontario, the club held its meeting on Wednesday evening so that every member would have an opportunity of meeting him and gathering new ideas from his long experience with and special knowledge of Rotary clubs. Every member except one was present and in addition Rt. Rev. Father Frank French, a member of the Renfrew Rotary Club, and Mr. Leman Guild, an honorary member of the Kingston club, were guests. During the evening Rotarian A. J. Evans recited one of Dr. Drummond's poems, Mr. James Saunders sang, and Mr. Radcliffe played several violin selections.

Service is Backbone.

In introducing the speaker of the evening, President Claude Gordon described him as a man who had his finger on the pulse of Rotary all over the district. Governor Campbell, in his opening remarks, said that the position of district governor was an arduous one but the contact he gained through it with groups of men such as the Kingston Rotary Club was a compensation which could not be measured in gold or silver. The reason for his visit, he said, was to pass on the accepted interpretation of the Rotary programme for the year. The backbone of every Rotary programme was service to humanity and the six cardinal principles of Rotary were well-known to all present but these principles must be developed to suit individual needs and it was in doing this that clubs grew and prospered. "If by ourselves we could come into a full realization of the six points of Rotary, little more would be required of us either in our club or our community," the speaker declared.

District Governor Campbell then dealt with some of the points of the Rotary programme among them business methods, boys' work and classification. The aim of Rotary in connection with business methods was that Rotarians should bring to the attention of their craft or profession objectionable practices as well as those worthy of emulation. Unethical practices created ill-will which was the very opposite to the ideal of Rotary and they imposed a financial burden on both the dealer and customer, he said.

Find Contact With Boys.

"Find a real place of contact with boy life and make that contact effective," was the speaker's advice on boys' work. There was a tremendous potential power in the service clubs and it was far better that such clubs should direct boys in their activities than that it should be left to chance or to bad companions.

Classification, Governor Campbell described as the foundation on which the superstructure of Rotary was built. He urged that clubs be honest with their classifications and that they do not admit men to membership who are not eligible. Rotary had attained a high place in the world and every Rotarian had in his keeping the reputation of all other Rotarians so for those reasons no club could take too many precautions as to the men admitted.

International Peace.

The sixth principle of Rotary, that of international peace and fellowship, was being particularly stressed this year, the speaker said, and he believed that ultimately the spirit of world-wide good-fellowship, which

SEAL BRAND

ALL THE NATIONAL CEMENTS IN THE UNITED STATES HAVE A TOTAL AREA OF 152,169 ACRES.

There are about 152,000,000 cotton spindles in the world.

Rotary was fostering in thirty-five countries of the world, would prove more effective than the efforts of kings, or armies, or navies, or presidents, or world courts, in bringing about international peace. A vote of thanks was moved and seconded by Past-President Roy Ward and Past-President Arthur Lyser.

In a few words Rt. Rev. Father French told how pleased he was to be at the meeting and he declared that the underlying principle of Rotary—service before self—could never be hammered home sufficiently in the hearts and minds of men. Unselfishness, Rotary's guiding principle, was a thing which was appreciated by every race and creed in the world. The classification system enabled men to learn the difficulties they could appreciate them more.

During the afternoon the District Governor met with the board of directors of the club, and following the evening meeting the whole club adjourned to the Board of Trade rooms where the distinguished visitor dealt with matters of local interest.

BANQUET IN HONOR OF PICTON RESIDENT

Presentation to George R. Moore, Who is Moving to Port Hope.

Pictou, Oct. 6.—M. L. Cowan gave a banquet at the Royal Hotel in honor of Mr. George R. Moore on the evening previous to his leaving town with his family for their new home in Port Hope. Dr. C. A. Pugh acted as chairman, and community singing from the Board of Trade Club songs sheets was heartily indulged in. Clara Newman and Erna Ward delighted their hearers with comic songs with banjo accompaniment. Mayor Newman read an address and presented Mr. Moore with a gold watch and chain in behalf of the Prince Edward County Poultry Association, in which Mr. Moore had always taken a most active interest. Though taken entirely by surprise Mr. Moore proved equal to the occasion and spoke feelingly of the pleasure and profit which he had derived from his happy association with the poultry men of the town and county.

Dr. Charles Thompson is moving his family and office to the Vandusen apartments, having sold his home on West Main street to Mr. Burt Alger, who has also bought the adjoining property from the Fallon Bros., and is preparing to fit it up into a first class service station.

George Johnson and Nelson Bailey caught sixteen small-mouth bass at South Bay Point in just a few hours one day this week.

Mrs. William Moffat of Rochester, N.Y., is stopping at the Globe Hotel and visiting relatives and friends.

Mr. and Mrs. F. Robert and Mrs. Harry Sullivan Chatham, are on a motor trip as far east as Quebec. They stopped off en route and spent over the week-end with Mr. and Mrs. Charles Shannon, Wapouost.

Mrs. Earl Spencer entertained at afternoon tea at her beautiful home on the Bloomfield Road on Friday afternoon.

Miss Freda Newman came down from Toronto where she is attending university, and spent over the week-end at her home here.

Following are the names of the winners in the field crop competition in ensilage corn under the auspices of Prince Edward Agricultural Society—Peter Cave, B. R. Leavens, H. A. Anderson and Sons, Ed. B. Purtille, Morris Huff, and Sons, F. V. Hyatt and Fred H. Huggs. Mr. M. J. Casselman of Morrisburg was the judge.

Mrs. Ella Lyons of Green Point has been spending several days with her mother, Mrs. Thos. Roblin, who is ill.

George Chambers, Elmbrook, who underwent an operation in Prince Edward County Hospital is recovering very satisfactorily.

Miss Ida Head was a recent guest with Mr. and Mrs. R. Bowerman, Milford.

Mrs. Mary Barrett is visiting her niece, Mrs. John Shaw, Schobart.

DESERONTO

Deseronto, Oct. 7.—Mr. and Mrs. Clarence Thompson, (the latter formerly Verna Naylor) of Frankford, are the proud parents of a daughter.

The Board of Trade held their monthly meeting in the General Assets office this afternoon.

The Ku Klux Klan held a meeting in the Orange Hall last night with quite a large attendance.

Mrs. Joseph Stainton and Miss Barbara Stainton returned home after a visit with friends in Toronto.

E. E. Case, Pictou, A. E. Wilson of Port Hope; J. Gardner, Marsden Kemp of Kingston; A. Garfinkel, D. Bennett, J. T. Nidd, A. J. Husband, Chas. H. Woodforde, E. T. Millar and Miss D. McDermid of Toronto, F. C. Harris of Montreal, Mr. and Mrs. Frank Cote of Detroit, Mr. and Mrs. H. A. Hugstun of Ottawa, W. J. Greenaway of Guelph, M. A. Kemp and H. S. McNeill of Kingston, were business callers in town.

To prove that he was as good as he used to be, an Ohio farmer, recently on his nineteenth birthday, had his photograph taken "skinning the cat" from the branch of a tree.

Among the ancient peoples of the east was a belief that a man's glory lay in his beard.

WINTER DAIRYING IS DECLARED PROFITABLE

Bigger Creameries and Cheese Factories When Milk Supply Evenly Distributed.

Winter dairying as a means of additional profits for farmers was stressed by a speaker at the gathering of agricultural representatives held at Kemptonville on Tuesday. This speaker declared that capital was available for the building of bigger and better equipped creameries and cheese factories in Eastern Ontario just as soon as the available supply of milk is more evenly distributed over the whole year.

In some sections the tendency at the present time is to have the cows start milking in the spring when they can be turned out in the pasture and to let them dry up in the fall so that they will not have to be fed a great quantity of nourishing food. Leaders in agriculture are of the opinion if a farmer regulated his herd so that all the cows did not start to milk at the same season of the year, his profits would be larger because the small and poorly equipped cheese factories and creameries, which are present in some sections of the country and which only operate during the summer would be replaced by larger, better-equipped and more central plants which would operate twelve months in the year.

BECOMING PURE BRED HOLSTEIN DISTRICT

Twenty-eight Head of Frontenac Cattle Shipped to Western Canada.

That Frontenac county is gaining some prominence as a pure-bred Holstein district was evidenced by the fact that last week twenty-eight head were purchased from the accredited herds in the county and shipped to western Canada.

Within the past three or four years, Frontenac has made wonderful progress with pure-bred Holstein cattle and there are now about a dozen accredited herds within its borders, ranging from twenty to sixty animals in each. The herd of Mr. A. H. Fair at Hemlock Park Stock farm, which numbers over 200, is in a class by itself of course, and ranks with the foremost Holstein herds in Ontario. These cattle are particularly adapted to the dairy industry because of the large quantity of milk which they give and as dairying is carried on extensively in the county, it is very likely that Holsteins will continue to grow in popularity.

MACDONALD SCHOOL CLUB.

Makes a Presentation to Former School Officer.

The Macdonald Home and School Club met on Oct. 5th in the school hall. Mrs. A. E. Laird, was in the chair. It was decided to hold a tea and sale.

The club took the opportunity of presenting Mr. Osborne, former school officer, with an address and token in appreciation of services and kindness to the members. After a few words spoken by Mrs. Donnelly to Mr. Osborne, she read an address which was signed by all the members of the club. Mr. Laird presented, then presented Mr. and Mrs. Osborne with a piece of silver. Although taken by surprise Mr. Osborne responded and thanked the club. After refreshments were served, the meeting adjourned with the National Anthem.

CLEAN KIDNEYS BY DRINKING LOTS OF WATER

Take Salts to Flush Kidneys if Bladder Bothers or Back Hurts

Eating too much rich food may produce kidney trouble in some form, says a well-known authority, because the acids created excite the kidneys. Then they become overworked, get sluggish, clog up and cause all sorts of distress, particularly backache and misery in the kidney region, rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidney's aren't acting right, or if bladder bothers you, begin drinking lots of good water and also get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to flush clogged kidneys and stimulate them to activity; also to neutralize the acids in the system so that they no longer irritate, thus often relieving bladder disorders.

Jad Salts can not injure anyone; makes a delightful, effervescent, lithia-water drink which millions of men and women take now and then to help keep the kidneys and urinary organs clean, thus often avoiding serious kidney disorders.
