Plants Are Stolen From City Gardens

Even stealing money from milk bottles has lost its thrill for sneak thieves in the city. Now they are taking plants from gardens. One citizen on Nelson street suffered the loss of several beautiful plants Wednesday night. They were pulled up by the roots as though for transplanting, but the guilty party did not make a very good job of taking them out of the ground. It seems as though it will soon be necessary to watch the front walk and the verandah, or someone will take them too.
