Children Cry For

UNUIUIIN

When Baby Complains.

There are many ways a baby has of expressing any pain or irregularity or digression from its normal condition of health and happiness. A short sharp cry, a prolonged irritated cry. Restlessness, a constant turning of the head or of the whole body, fretful. In these and other ways a baby tells you there is something wrong. Most mothers know that a disordered stomach, or bowels that do not act naturally are the cause of most of baby's sufferings. A call for the doctor is the first thought, but in the event of any delay there should be ready at hand a safe remedy such as Fletcher's Castoria.

Castoria has been used for baby's ailments for over 30

years and has merited the good will of the family physician in a measure not equaled by any other baby's medicine because of its harmlessness and the good results achieved.

And remember this: Castoria is essentially a baby's remedy and not a cure-all for every member of the family. What might help you is too often dangerous when given to a babe.
