OUR MAPLE. The elves were painting the leaves one night.

By the light of the silvery moon; Each elf was using the golden paint. He'd got from the sun at noon.

Now they were as busy as they could be. And they had so much to do; That when the dawn came from the east.

It found them not quite through. You know there's a rule in fairy land.

That with the break of day; Each elf must gather up his tools And hurry fast away.

But they hated to leave the last lone tree. That stood on the hill alone; Then up spake a fairy to them there; "Now you all just fly away home.

And I shall paint that last lone tree. Then join you in an hour; Before the day is really here; To waken up each flower."

When all alone she looked around. And wondered what to do. Then suddenly she had a thought. And whispered "Dare I to?"

She hurried to that tall lone tree. And climbing to its top. She gave a nervous little laugh. Then emptied her paint pot.

And as the paint within that pot Dripped slowly through the leaves. It turned the tree to colors bright. Like sunset, summer eve.

And so next day all earth exclaimed O'er beauty of the tree: So that is why our maple. Is so wondrous, don't you see? —Clara B. Moots, London, Ont.
