

DR. EDWARDS WARNED THE TORY LEADERS

In Toronto Address, Orange Grand Master Tells What He Did.

Toronto, Oct. 13.—M. W. Bro. Hon. J. W. Edwards, Grand Master and Sovereign of the Grand Orange Lodge of British America, speaking at Imperial L.O.L. No. 2767, in the Temple Building, Toronto, Tuesday evening on the occasion of his official visit to the Lodge, said:

"I am glad that the members of the Orange Order are not going to vote Grit or Tory because they happen to belong to either one of these parties. I warned Hon. Arthur Meighen that as long as I am head of the Orange Order in Canada it is not going to be used as a catspaw to be squeezed in adversity and flaunted in prosperity. I told Howard Ferguson the same thing, and if he compromises on regulation 17 I'll stump as long as God gives me breath, and I'll change every seat I can. We may be driven by the old political parties to form a British Protestant Canadian group. I do not know whether the time is ripe for that action yet or not. But if you sent to Ottawa a group of say 10 or 15 members to represent such a group do you mean to tell me that you wouldn't make the leaders of the two parties sit up and take notice?" he asked.

"Don't forget that the basic principle of our Order is civil and religious liberty," said Dr. Edwards. "And what does civil mean? It does not mean political? We should discuss politics from the standpoint of the principles that we adhere to. And those principles for which we stand mean more to the future of this country than any political party. I place those principles ahead of party." (Applause).

DRUGS EXCITE THE KIDNEYS, DRINK WATER

Take Salts at First Sign of Bladder Irritation or Backache.

The American man and woman must guard constantly against kidney trouble because we often eat too much rich food. Our blood is filled with acids which the kidneys strive to filter out; they weaken from overwork, become sluggish, the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment, or you are obliged to seek relief two or three times during the night; if you suffer with sick headache, or dizzy, nervous spells, acid stomach, or if you have rheumatism when the weather is bad, begin drinking lots of good soft water and get from your pharmacist about four ounces of Jad Salts. Take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine.

This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help flush and stimulate clogged kidneys, to neutralize the acids in the system so they no longer are a source of irritation, thus often relieving bladder disorders.

Jad Salts is inexpensive; can not injure, makes a delightful effervescent lithia-water drink and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time.

PAIN of Bladder Weakness

Relieved by SANTAL MIDY. Why not decide NOW to give EUTOO Tablets, the remedy so generally used for headache, a fair and square trial?

If there is any doubt in your mind as to the worth of these tablets or of their harmlessness, try them and KNOW the truth.

Don't sacrifice your comfort on account of prejudice or skepticism. Try the tablets and know. 25c at dealers or by mail from Dr. E. Robinson & Co. 247 St. Catherine, Quebec.

ple of Canada think that it was the Customs scandal that caused enough Progressive members to vote with the Conservative party to defeat the King Government in the House of Commons last Spring," said the speaker. "It wasn't. If you examine the vote you will see that they were defeated three different times. Those who voted with the Conservatives to put the King Government out were from the Province of Alberta and showed in the only way they could show it their disgust at the action of the King Government in wanting to keep a string on their natural resources."

"I was the only candidate in Ontario in the recent election who made the Alberta resources bill an issue in my campaign," he continued. "I pleaded with my leader to make this an issue, but his eyes were turned so much to the east that he couldn't look west. It was grasping at the shadow in the form of the support from Quebec, which never was more than a shadow and losing the substance. And let me tell you that the Alberta resources question is not settled yet. It cannot be sidestepped. It has got to be faced. The man does not live in public life to-day who can side-step and pussyfoot with these great principles. If no one else brings it up in the House at the next session then the Grand Master of British America will bring it up." (Applause).
