LETTERS To The Editor Of The Whig

Defends the O. T. A.
Sir:—Will the Ferguson Government consider themselves defeated if they are returned to power by the same majority vote that carried the plebiscite of October 1924, viz., 33,000? Yet Mr. Ferguson makes the statement that he could not enforce the O.T.A. Act. Neither will his government or any government control the liquor power, the most lawless organization on the face of the earth, today. The so-called government control is a delusion, and mere camouflage. Let the liquor power be legalised once more and the old scenes of fifteen years ago, will be repeated. If there is secret drinking under the O.T.A. Act there will be plenty of it under government control. Let Mr. Raney and Mr. Sinclair join hands and stand solid for the grand war-time measure, that we have had for nine years, and a great benediction, to thousands. Let us keep the soul-destroying liquor business under ground and save our sons and our daughters from its destructive curse. I am certain we will silence the liquor squeal for the next fifty years.

LOW LYING LANDS.

Are Under Water Including Corn and Buckwheat Fields.

Bloomfield, Oct. 26.—The rain and snow which has fallen during the past week has been in liberal quantities coming every other day; the storm of Sunday was the worst of the season. All low lying lands are under water including corn and buckwheat fields. Hundreds of acres of corn are uncut and unless dry weather comes soon much will never be cut. The delay is serious at this time of year as no work can be proceeded with.

Caniff Haight, Toronto, who was seriously ill with blood poisoning during the past summer has recovered and is visiting at his brother's, Wilfred Haight. The canning factories are closed after completing the largest pack of vegetables on record.

Four apple evaporators are starting and a large quantity of apples remains to be gathered. Silo filling has started but the weather is interfering with that work. There are a lot of auction sales of farm stock this fall. Fred Cooper has built a large cement tank at his saw mill to put logs in during winter to draw the frost from them so they can be sawed.

SOCIAL EVENING HELD

By the Playfair Club in the Wagarville Church.
