"Cascarets" Keep Bowels Regular and Stop Colds

No headache, sour stomach, bad
cold or constipation by
morning

Get a 10-cent box.
Colds—whether in the head or any
part of the body—are quickly over-
come by urging the liver to action and
keeping the bowels free of poison.
Take Cascarets to-night and you will
wake up with a clear head and no
doubt you will wonder what became
of your cold. Cascarets work while
you sleep; they cleanse and regulate
the stomach, remove the sour, undig-
ested food and foul gases; take the
excess bile from the liver and carry
off the constipated waste matter and
poison from the bowels.

Remember the quickest way to get
rid of colds is one or two Cascarets
at night to cleanse the system. Get a
10-cent box at any drug store. Don't
forget the children. They relish this
Candy Cathartic and it is often all
that is needed to drive a cold from
their little systems.

SEEK A REDUCTION IN ELECTRICAL RATES

Utilities Commission to Ask
Hydro to Allow Ten Per
Cent. Cut.

Believing that the consumers
should derive a benefit from a sur-
plus in the electoral department, the
members of the Public Utilities Com-
mission will ask the Hydro-Electric
Commission for permission to reduce
the commercial and domestic rates
by ten per cent.

This was decided on at a meeting
of the commissioners held on Tues-
day afternoon. Chairman R. N. F.
McFarlane and the general manager,
C. C. Folger, will wait on the Hydro-
Electric Commission in Toronto and
ask for the reduction. The cost of
power and street lighting will re-
main the same.

Following the annual report sub-
mitted some time ago, when a sub-
stantial surplus was reported in the
electrical department, the commis-
sioners felt that if possible a re-
duction should be made in the rates.

Following out the instructions of
the commission, Manager Folger at
Tuesday's meeting, submitted a re-
port in which he gave a comparative
statement covering the commercial
and domestic rates, setting out the
charges now in force and comparing
the relative consumption in each
case over a period of five months.

He suggested that a reduction of ten
per cent. be made in commercial and
domestic rates. Members of the
Commission felt that this was a fair
proposition to be put to the Hydro
Commission. Commissioner James
Halliday stated that in view of the
shortage of power that this basis was
a most reasonable one.

On motion of Commissioner Har-
ris, it was decided to have Char-
les McFarlane and Manager Folger
go to Toronto and wait on the
Hydro-Electric Commission and ask
for the reduction.

The chairman, R. N. F. McFarlane
presided at the meeting and also
present were Mayor Thomas An-
grove, James Halliday, J. M. Camp-
bell and James Harris.

May Purchase Property.
A deputation composed of Ald.
Driscoll (chairman) and Ald. Crow-
ley and Bennett, of the civic health
committee, waited on the commis-
sion to open up negotiations for the
sale of the incinerator property. Ald.
Driscoll pointed out that the time
had arrived when the city would
have to secure a new plant for the
disposal of the city's garbage, and
pointed out that at the last meeting
of his committee the sale of the
present property to the Commis-
sion had been under consideration.
The present plant is inadequate to
meet the demands and it is felt that
a new location must be secured for
the incinerator. The Health Com-
mittee is anxious to get an offer
from the Commission, so as the mat-
ter can be brought before the council
without any unnecessary delay.

Members of the commission ex-
pressed themselves as being in favor
of taking over the property and the
matter was referred to Manager Fol-
ger for a report.

Strong objection has been taken
to the placing of an additional elec-
tric light on Frontenac street.

Deputations both for and against
the new light has been heard, but
now it appears that the war is over,
as those opposed have signified their
intention of being in favor of the
light. At least this is the report the
members of the Commissioners re-
ceived. However, the matter is now
before the council, so it looks as if
the light will be placed.

Mr. G. A. Bateman appeared be-
fore the commission and asked for a
water service on North Bartlett
street. Manager Folger was asked
to submit a report on the request.

The commission received a letter
from Mr. R. J. Bushell, manager of
the Kingston Industrial Fair, asking
for a rebate on the commission's ac-
count for \$415 for electrical service
at the fair. In view of the bad
weather, Mr. Bushell asked that a
cut be made on the bill. On motion
of Mayor Angrove, it was decided to
cut the account down to \$390. Last
year the commission also gave the
fair a substantial cut in their ac-
count, in order to help out the di-
rectors in their hard luck.

The commission also decided to
pay an account amounting to \$5.50.

QUEEN'S STUDENTS WHO MAY VOTE HERE

Must Have Left Their Former
Homes Not Intending to
Return.

Enquiries are being made by vot-
ers desiring to be added to the vot-
ers' list for the coming election as to
the qualifications that are neces-
sary. Judge Lavell, who is acting
as revising officer for the city, states
that these qualifications are, shortly,
that the applicant must be a British
subject, of the full age of twenty-one
years, and that he has resided in
Canada for twelve months before the
date of polling, and in the constitu-
ency for two months before that
date. Anyone coming of age before
polling day may be added although
the date of revision comes before
he attains his majority.

Any persons who have moved into
this constituency after the 1st of
October may apply for and obtain a
certificate from the judge entitling
them to a vote upon an oath being
taken by them that when they came
to Kingston they were already en-
titled to vote in another Ontario
constituency, which they have de-
finitely left to take up residence
here.

Students at Queen's who have
come here from other parts of On-
tario are entitled to be added to the
list upon evidence that they have
left their former home in such a
way as to make it clear that they do
not intend to resume their residence
there except for occasional visits.
For instance, any student who has
already spent one year at Queen's,
intending to continue until he ob-

tain his degree, may be regarded
as a resident of Kingston if he does
not in vacation return to his home
and resume his residence there but
employs his time in some temporary
occupation elsewhere. In such cases
since the greater part of the year is
spent in Kingston and his main oc-
cupation is that of a student and he
has no other domicile, it is obvious
that Kingston should be considered
his residence within the meaning of
the Election Act. This will be the
case even though such students had
not returned to the university until
after the 1st day of October, since
Kingston is considered to be their
residence throughout the whole year,
notwithstanding temporary absences.

Freshmen may have some diffi-
culty in establishing that they have
permanently and definitely left their
former places of residence. That is
a question for the revising officer
upon being put into possession of all
the facts, but if it is made clear that
they have so severed their connec-
tion with their former home as to
make it clear that it is not to be
expected that they shall return to it
except for brief visits, then upon
showing that they were actually in
Kingston on the 1st of October they
would be entitled to be considered
residents of this city.

The revision of the city lists is
to take place at the Court House,
on the 15th, 16th, 17th and 18th
inst., during the hours set out in
the advertisement which appeared in
this paper last Saturday and will
appear again.

No person is entitled to be added
except upon his oath of qualification
or upon the oath of some other per-
son who swears that he is fully ac-
quainted with all the facts to his
personal knowledge.

A Famous Educator

A famous educator said that 15
minutes a day devoted to the
intelligent reading of certain

every business man's educa-
