

EVERY WOMAN SHOULD READ

HOW "FRUIT-A-TIVES" GAVE HER NEW LIFE

MRS. J. F. RUTKOWSKA.

"For several years I suffered with severe constipation and was a nervous wreck. I had great pain in my limbs, and such terrible headaches I thought I would go crazy. I had no appetite, could scarcely eat anything without stomach distress. After reading about 'Fruit-a-tives' I decided to try them. Before I had taken three boxes, I was entirely well. I sincerely think 'Fruit-a-tives' saved my life."

Indigestion, biliousness, headaches, nervousness, pains in the back and limbs are largely caused by allowing poisons to accumulate in the body. "Fruit-a-tives" is nature's remedy, made from intensified fresh fruit juices combined with tonics. "Fruit-a-tives" stimulates the bowels, liver and kidneys to normal action and brings about a condition of delightful health. Buy a box of "Fruit-a-tives" today. Enjoy life again. 25c and 50c, everywhere.

The Modern Kitchen

By W. S. Limbery. There have been more changes and greater advances in the planning and equipment of the kitchen in this generation, than in any other room in the house, with the exception, perhaps, of the bathroom. The busy housewife—now that the servant girl problem is so acute, and she herself has to do most of the kitchen work—has reached the decision that her health, time and labor are too valuable to be wasted by the shortcoming of a badly planned and equipped kitchen. The first demand then of our modern kitchen is, that it must be a healthy room to work in. Two windows must be provided so as to insure cross ventilation and a fair degree of coolness in summer. One of these windows should have the sash double hung, so that the upper sash can be lowered to allow a vent near the ceiling. A hood should be built over the range, connected to the kitchen flue, not only to assist in carrying off cooking odours, but also the fumes from any escaping gas, should that be the means used for cooking. It is necessary to install an electric exhaust fan, especially if there is but one window; it can be attached to a bracket on the wall about seven feet from the floor. Healthy floors mean floors easy to keep clean, and easy to work on. Inlaid linoleum of a good quality will answer both of these requirements, and it has the additional advantage of being inexpensive. A dull, ugly kitchen cannot be healthy. We all know the effects of environment: a simple, pleasant color scheme should be devised. The walls and ceiling can be of light putty gray, woodwork slightly darker and relieved by a narrow band of dark blue around the door panels and casings. Hang window sash curtains of plain light tan serim with a blue enamel line border, and lay floor linoleum of blue and gray squares. To save time and labor in the kitchen work, is our second requisite. It is necessary that the various articles of equipment we can afford to install, should be placed in proper relation to each other. Saved steps is saved time. There are two "pivotal points" in every kitchen—the range and the sink—and near to each of these should be suitable cupboards, containing the various equipment used in either case. The pot and utensil cupboard should be near the range; the china cupboards and cutlery drawers near the sink; the work table, on which food is prepared, should be within a step or two of both the range and the sink. The kitchen cabinet (preferably of metal), subdivided to store the various commodities necessary for cooking and for the table use, and which also has separate compartments for brooms and vacuum cleaner, and for the heavy kitchen dishes, can be placed as a separate unit. The work table, size about 32 in. x 26 in., should have a couple of drawers for the odds and ends so necessary for kitchen work. A combination work stool and ladder should be provided and also, if room permits, a small rocking chair. The only plumbing required in the kitchen is a sink or a combination sink and wash tub. This should be of enamelled cast iron, with combination metal drain boards and high back, and with water supplies through a combination double sink faucet with swinging spout. Spend money on the design and quality of the sink and cut the extra expense of the living room if it has to be. See that the top of the sink is kept 36 in. from the floor, and that it is at least 20 in. x 36 in. in size, so as to hold two dish pans. Install two ceiling outlets for lighting; one should be over the sink and one in front of the range, or in the centre of the room, each on its own switch. There should be a wall plug put in for any necessary kitchen electric fittings, such as the toaster, ironer, etc. Copyright 1926, MacLean Building Reports, Limited. Question: Should the footings go below the basement floor or just even with it? Set the footing so that the whole thickness of the basement floor slab is above it. Question: We can now pay off the first mortgage on our property. What steps should be taken? Employ an attorney. His charge will be small and you will have assurance that proper steps will be taken to protect your interests in full.

Keep Liver and Bowels Regular With "Cascarets"

No more Headache, Bad Colds, sour stomach and constipation

Get a 10-cent box now. No odds how bad your liver, stomach or bowels; how much your head aches, how miserable and uncomfortable you are from constipation, indigestion, biliousness and sluggish bowels—you always get the desired results with Cascarets. Don't let your stomach, liver and bowels make you miserable. Take Cascarets to-night; put an end to the headache, biliousness, dizziness, nervousness, sick, sour, gassy stomach, backache and all other distress; cleanse your inside organs of all the bile, gases and constipated matter which is producing the misery. A 10-cent box means health, happiness and a clear head for months. No more days of gloom and distress if you will take a Cascaret now and then. All druggists sell Cascarets. Don't forget the children—their little insides need a gentle cleansing, too.

Read the Secret of Health in These Letters

EVERY woman is interested in another woman's letters, and we shall give the women a chance to present their experience with Dr. Chase's Nerve Food by quoting their letters. There is scarcely a town, village or hamlet in this great country but can produce splendid evidence as to the restorative, upbuilding influence of this well-known treatment for the blood and nerves.

Especially for Women

From my experience as a wife and mother I find that the majority of users of Dr. Chase's Nerve Food are women, especially women passing through the change of life; next by young mothers to regain strength after baby comes, and also by mothers for their young daughters entering their womanhood. While it is good for all classes of humanity, I am sure it is especially so for women, as they seem to be troubled most by nervous diseases.—Mrs. H. Alcorn, 23 Gerald Street, Charlottetown, P.E.I. Motherhood Middle Life Mrs. A. Ernest, R.R. No. 4, Walkerton, Ont., writes:—"For some time after the birth of my first child I was in a weak, nervous condition. I could not sleep well, had frequent headaches and buzzing in the ears. I also had neuralgic pains through my body, twitching of the nerves and was subject to weak spells. I had indigestion and seemed tired and languid. I began to use Dr. Chase's Nerve Food and found the results most satisfactory. I have used a great many different medicines, but never found one as good as Dr. Chase's Nerve Food. It is especially good for quieting the nerves and I feel very grateful for the good it has done me."
