

The Prince Regent, in the name and on the behalf of his Majesty, commands us to express his confidence that you will endeavor to continue to a full and most effectual aid and assistance in the support of the noble and brave nations of the Peninsula, which he has maintained with such unabated zeal and resolution.

His Royal Highness commands us to express his congratulations on the success of the British arms in the Island of Java.

The Prince Regent trusts that you will concur with his Royal Highness in approving the wisdom and ability with which this enterprise, as well as the capture of the Islands of Bourbon and the Mauritius, has been conducted under the immediate direction of the Governor General of India; and that you will applaud the decision, gallantry and spirit conspicuously displayed in the late operations of the brave army under the command of that distinguished Officer, Lieut. Gen. Sir Samuel Auchmuty, so powerfully and ably supported by his Majesty's naval forces.

By the completion of this system of operations, great additional security will have been given to the British commerce and possessions in the East Indies, and the Colonial power of France will have been entirely extinguished.

His Royal Highness thinks it expedient to recommend to your attention the propriety of providing such measures for the future government of the British possessions in India, as shall appear from experience, and mature deliberation, to be calculated to form their internal prosperity, and to derive from these flourishing dominions the utmost degree of advantage to the Commerce and Revenue of the United Kingdom.

We are commanded by the Prince Regent to acquaint you, that while his Royal Highness regrets that various important subjects of difference with the government of the United States of America, which have multiplied the difficulties which the affair of the Chesapeake frigate occasioned have been finally removed; and we are directed to assure you, that in the further progress of the discussion with the United States, the Prince Regent will continue to employ such means of conciliation as may be consistent with the dignity and honor of his Majesty's Crown, and with the due maintenance of the maritime and commercial rights and interests of the British Empire.

Gentlemen of the House of Commons,
His Royal Highness has directed the Estimates for the service of the current year to be laid before you. He trusts that you will furnish him with such supplies as may be necessary to enable him to continue the contest in which his Majesty is engaged with that spirit and exertion which will afford the best prospect of its successful termination.

His Royal Highness commands us to recommend that you should resume the consideration of the state of the finances of Ireland, which you had commenced in the last session of Parliament. He has the satisfaction to inform you, that the improved receipt of the revenue of Ireland in the last year, as compared with the preceding year, confirms the belief, that the depression which that revenue had experienced is to be attributed to accident and temporary causes.

My Lords and Gentlemen,
The Prince Regent is satisfied that you entertain a just sense of the arduous duties which his Royal Highness has been called upon to fulfil, in consequence of his Majesty's indisposition.

Under this severe calamity, his Royal Highness derives the greatest consolation from his reliance on your experienced wisdom, loyalty and public spirit, to which in every difficulty, he will resort, with a firm confidence, that thro' your assistance and support, he shall be enabled under the blessing of Divine Providence, successfully to discharge the important functions of the high trust reposed in him, and in the name and on behalf of his beloved Father and revered Sovereign, maintain unimpaired the prosperity and honor of the nation.

Letter from France.—By the arrival of the Flash this morning, in 40 days from Bordeaux letters have been received in town, as late as the last of Dec. We have been obligingly favored with the extracts below. From these it appears that his Imperial Majesty has con-

descended to release a few more American vessels; and that it was rumored in Bordeaux that Mr. Barlow was in a train of successful negotiation at Paris.—When Bonaparte shall issue a formal proclamation revoking the Berlin and Milan decrees, and shall release all American vessels and cargoes which had not manifestly violated the laws of nations, then we shall believe him disposed to deal justly with our government.—Until we see him adopt such measures, we must be permitted to suspect at least, that his whole object in relinquishing his hold from any portion of our property is, to assure a greater quantity within his power, and to draw our government into a war with his enemy,

Bordeaux, December 21.

If we may believe general reports some definite commercial arrangement is negotiating in Paris with Joel Barlow, Esq.—and it is said the result will be very satisfactory. The frigate Constitution, expected to sail in all this month or early in January, will probably be bearer of interesting news for America. This moment, we learn, that the Rosly, from Baltimore, is in the river.

From the London Statesman, Dec. 10.

Important.—Government have received intelligence from France, from which it appears to be one of Bonaparte's principal objects, at this moment to get a squadron of French ships into an American port, as an inducement for the United States to declare war against England. He has five ships of the line equipped and manned at L'Orient, supposed to be destined immediately for this important service: he has also fifteen of the line in the same condition, at Toulon, while our blockading squadron off that port consists only of eleven; a reinforcement of it however, we understand, may be expected daily.

Paris papers say, that the accounts of their different commanders, as to the loss of two frigates off Madagascar, are so contradictory, they know not what to believe. The captain of La Clorinde is to be tried "for preferring his life to his honour."

Mr. Dutache who had been for some time on parole in England, on return to France, was immediately taken up and shot, for some alleged act committed against the French Government.

The beginning of Dec. there was lying at Morlaix, the French privateer schooner Le Furet, said to be principally manned with Americans, Irish and English.

A Mr. Walsh member of the British House of commons, has been guilty of a breach of trust, in appropriating to his own use 15,000l. put into his hands. He bought American stock and intended coming to the U. States.
