

will let it be churned without any greater heat than it would experience when standing eight or ten feet from the kitchen fire, and the butter will be as fine as can be made. The only inconvenience which attends this mode of making winter butter, is that it takes more time to churn it, than in warm weather. It is also a fact, that the butter will not generally have so yellow a complexion, as is common in the summer and fall. But in point of flavor, where the cows are fed upon sweet hay and provender it cannot be surpassed. This mode of making butter is well known in some parts of our country, and is as usual as making in October.

PROVINCIAL PARLIAMENT OF UPPER CANADA.

LEGISLATIVE COUNCIL, Friday, Feb. 6.

This day, at half past three o'clock, the Honorable the Legislative Council went up to the Government House with the following Address:

To His Honor SAMUEL SMITH, Esquire, Administrator of the Government of the Province of Upper Canada, &c. &c.

May it please your Honor,

We, His Majesty's dutiful and Loyal Subjects, the Legislative Council of Upper Canada, in Provincial Parliament assembled, beg leave to present to your Honor, our thanks for your Speech at the opening of this Session of the Legislature.

It is with the deepest concern, we have received your Honor's communication respecting His Majesty's Health.

Whilst lamenting the fate of a beloved King, your Honor has called our attention to the most afflicting event, the death of Her Royal Highness the Princess Charlotte Augusta, under circumstances of peculiar interest, whereby the hope of the nation hath been disappointed, and every heart filled with grief and sadness! Fully sensible that the blessings derived from the illustrious Princess, which were so fondly hoped for, have not been limited to the British Isles, but extended to the remotest bounds of the Empire, and particularly to this favored Colony, whose sorrow is unfeigned and universal.

It is with peculiar satisfaction we learn from your Honor that His Royal Highness the Prince Regent has been graciously pleased to take into consideration, the loss of individuals by the invasion of the Enemy during the late war; and we will co-operate in any measure that will tend to carry into effect the gracious intention of His Royal Highness.

We will take into our serious consideration the report of the Commissioners appointed to meet the Commissioners of Lower Canada, relative to the Provisional agreement respecting the Revenue arising from Imports from Lower Canada, when the same shall be laid before us.

We entertain the hope, that great benefit will result to this Province from the accession of an industrious and Loyal Population from the United Kingdom under the continuance of His Majesty's Government.

We are not insensible to the want of suitable accommodation, for His Majesty's Representative, the Public Officers, and the Legislative and Judicial authorities, at this Seat of Government, and will attentively consider the propriety of adopting means to render that accommodation more suitable.

We will consider carefully the laws that are expired or about to expire, and afford our aid to revive and continue such as may appear to us to be necessary to the welfare of the Province, ever ready most thankfully to avail ourselves of your hearty concurrence in promoting so desirable an object.

To which His Honor was pleased to reply:—

Hon. Gentlemen, Accept my thanks for this Address, and the assurance that you will consider the several subjects submitted from the Chair.

At two o'clock the House went up with the following Address:—

To His Honor SAMUEL SMITH, Esquire, Administrator of the Government of the Province of Upper Canada, &c. &c.

May it please your Honor, WE His Majesty's most dutiful and Loyal Subjects, the Commons of Upper Canada, in Provincial Parliament assembled, beg leave to offer to your Honor, our sincere congratulations upon your accession to the Government of this Province, and to return our humble thanks for your gracious Speech from the Throne.

It fills us with the deepest sorrow, that besides informing us of the continuance of His Majesty's lamented indisposition, which we hear with undiminished concern, it has been the painful talk of your Honor, to communicate an event so afflicting, as the death of Her Royal Highness the Princess Charlotte Augusta, in circumstances peculiarly interesting. Having ever equally participated in this remote Colony, with the most favored

part of the British Empire, in the blessings derived from the illustrious House, which we fondly hoped would in the Descendants of that amiable Princess, have transmitted its virtues and its glory to the latest posterity; we seize this first opportunity of testifying in the name of that portion of His Majesty's Subjects whom we represent, their sincere sympathy in the deep distress which on this melancholy event, has overspread every part of His Dominions.

Your Honor's communication to us, of the intention of His R. Highness the Prince Regent to apply the proceeds of the Estates, vested in His Majesty, under the provisions of the Statute, to declare certain persons therein described Aliens, to compensate the loss of individuals by the invasion of the enemy, affords us a strong and gratifying proof of the gracious consideration of his Royal Highness for those of His Majesty's faithful subjects who suffered in the late contest, and we shall feel it a pleasant duty to concur in any Legislative provision, that may be necessary to give to such benevolent intentions their fullest effect.

The Report of the Commissioners appointed on the part of this Province, to meet the Commissioners of Lower Canada, for the purpose of forming a Provisional Agreement relative to the Revenue, shall receive our consideration. We shall carefully examine the Accounts of last year's Expenditure, and give the Estimate for the present year, due consideration.

We heartily concur with Your Honor in the expectation that great benefit will result to this Colony, from the accession of an industrious and Loyal Population from the United Kingdom, and learn with pleasure the countenance given by His Majesty's Government to the Migration of this description of Persons in whose behalf we feel ourselves lively interested, and that take into our consideration what your Honor has recommended upon the subject.

Knowing the great measure of that have been already expended, and are now felt to be a heavy burden on the want of a remuneration for His Majesty's Representatives in the Public Office, and the Judges and Judicial Authorities, in the Seat of Government, we shall certainly take into consideration the expediency of replacing the same, with a view to a just appreciation of former years, and already accumulated, and we will endeavor to amend the Law in this respect, as far as possible, and we will also endeavor to amend the Law in this respect, as far as possible, and we will also endeavor to amend the Law in this respect, as far as possible.

We will attend to such laws as have expired, or are about to expire, and we will endeavor to amend the Law in this respect, as far as possible, and we will also endeavor to amend the Law in this respect, as far as possible.

And having returned, the Speaker reported the same to the House, and that His Honor had made a reply thereto, which was read by order of the House, as follows:—

GENTLEMEN,

I thank you for the Address and the assurance of Personal Congratulation. The expression of your sorrow on the event so afflicting to us, is creditable to you as men and Subjects.

I feel assured of your concurrence as to the propriety of taking some step for the accommodation of the various branches of the Government, and I thank you for the very cordial assurance of that concurrence.

2d. That a Committee be appointed to form a Statistical account of this Township as required, and to answer the Queries defined.

That the said account be forthwith transmitted to the Post Office, Kingston, as required by Robert Gourlay, Esq. and that the proceedings aforesaid be inserted in the Kingston Gazette, with the warmest acknowledgments of the Chairman and inhabitants aforesaid to that gentleman for his attention.

Prince Leopold.

His Serene Highness does not improve in health. For some time his body as well as his mind has been severely affected. He has experienced for several days extreme agony in his head, from rheumatic attacks. On Thursday he was afflicted with the severest spasms. On Sunday however, when Lord Lauderdale visited his Serene Highness, he was better. The Noble Earl passed the day with him. His Serene Highness still preserves the same retired habits; he continues inaccessible to all, except a few chosen friends; passing his time in reflection on the vicissitudes of this life; and he calls his late happiness "a transient dream." He certainly departs for the Continent soon, taking Paris in his way to Saxony.

Morning Post.

The reason why so few marriages are happy is because young ladies spend their time in making nets, not in making cages.

The proceedings of the Town Meeting at Augusta will be published next week, as also "A Friend to Religious Improvement."

MARRIED,

At Albany, on Monday Evening, the 2d inst. by the Rev. Hooper Cummings, Mr. JOHN STRANGE, Merchant of this place, to Miss MARY MCGILL, of the former place.
