

ALLIANCE
BRITISH & FOREIGN LIFE & FIRE
ASSURANCE COMPANY OF
LONDON.
ESTABLISHED BY ACT OF PARLIAMENT
CAPITAL,
FIVE MILLIONS STERLING,
Board of Direction
PRESIDENTS.
JOHN IRVING, Esq. M. P.
Francis Baring, Esq. N. M. Rothschild, Esq.
Samuel Gurney, Esq. Moses Montefiore, Esq.

DIRECTORS.
J. Alexander, Esq. M. P. Chs. Greenwood, Esq.
G. H. Barnett, Esq. J. Heygate, Jun. Esq.
Charles Bevan, Esq. Wm. Howard, Esq.
John Bowden, Esq. John Lanes, Esq. M. P.
Arch. Campbell, Esq. William Kay, Esq.
Wm. Crawford, Esq. Oswald Smith, Esq.
Timothy O. Curtis, Esq. H. M. Thornton, Esq.
Francis Cresswell, Esq. Thomas Wilson, Esq.

The Subscribers being appointed Agents to the said Company, have the honor to announce that they are now ready to take Risks and grant Policies of Assurance against loss or damage occasioned by Fire in any part of the Kingdom of Lower and Upper Canada.

The names and wealth of the Presidents and Directors of this Association are so widely known throughout the commercial world, that it would be presumptuous on the part of the Agents to suppose that any observation of theirs could increase the confidence of the public in an Association composed of such distinguished individuals.

A Capital of Five Millions, Sterling, an amount far exceeding that possessed by any similar institution, must afford perfect security to the assured.

M KENZIE, BETHUNE & Co.
Montreal, 24th June, 1825.

YOUR SUBSCRIBER
Being appointed Agent for the said Company in Kingston, is now ready to receive applications and grant Policies of Assurance against Loss or Damage by Fire.

Subscribers will at all times experience the utmost liberality and promptitude in the settlement of their claims against the Company.

JAMES MACFARLANE,
Corner of Water & Barrack Streets,
Kingston, 9th September, 1825.

ALLIANCE
BRITISH & FOREIGN LIFE & FIRE
ASSURANCE COMPANY OF
LONDON.

PARTICIPATION in the Profits of the Institution by the Assured. The Agents of this Company have received instructions from the Board of Directors to place the assured in Canada upon the same footing (i.e. participation in the Profits of the Establishments,) with those in England.

They do therefore announce to the Public, that "The Profits of the Fire Department appropriated to the Assured will be distributed at the close of each successive period of five years, in the form of a per centage upon the premiums."

Parties who obtain the settlement of Losses from Fire are not thereby deprived of the right to participate in the profits of the Company.

The Agents beg leave to call the attention of the public to the advantages hereby held out to those who insure with this Company, viz: A PARTICIPATION IN THE PROFITS OF THE ESTABLISHMENT; those who insure for a period of five successive years, thereby become virtually Stockholders to the amount of their premiums, and without being subject to any of the liabilities of the Company, as they will receive back a portion of their premiums in the shape of a per centage; or in other words, at the end of every successive five years they will be paid a Bonus proportionate to the extent of their transactions with the Company.

This advantage (so far superior to what is offered by any other Company in this Country) connected with the circumstance of the large Capital of FIVE MILLIONS, Sterling, and the respectability of the Directors, and the universally acknowledged superior method by which their affairs are conducted; the Agents cannot doubt will be duly appreciated by the people of the Canadas, and will point out the ALLIANCE COMPANY to those who wish to insure their property against Fire, as that which will best suit both their interest and security.

MACKENZIE, BETHUNE, & Co.

LADIES WALKING AND DRESS BOOTS & SHOES,
Of a most superb quality. He is in hourly expectation of receiving his usual Spring supply of Goods, consisting of Ladies' Gentlemen's Youths and Children's BOOTS and SHOES, of all sizes and descriptions all warranted to be of the very best quality, being all made expressly to his order.

Also,
All kinds of materials used in his line, such as
WHITE LAMB & SHEEP SKINS,
Striped Binding do, Seal do, White & Yellow Roans and Slivers, Binding Galloons, Boot Cord, Hemp and Flax of all kinds, best Bend Leather Squares, Boot Webb, Shoe Horns, Plates, Kit Files, Polished Lasting Tacks, Trimming Buckles, &c. &c. Also, a small consignment of Ladies' and Gentlemen's
GLOVES,
From the first manufactory in England. The whole of which he engages to sell at a much lower rate than the same quality of goods can be procured from any other store in Canada. Orders from any part of the Province will be punctually attended to.
Kingston, June 9, 1826. [5912]

SCHOOL
FOR
Young Ladies,
KINGSTON.
MRS. & MRS. TWIGG beg leave to return thanks for the liberal encouragement which they have received, and to acquaint their friends and the public that they continue to receive BOARDERS & DAY PUPILS, at their house in Quarry Street, where the following branches are as usual taught—
English and French Languages,
Grammatically,
History, Geography,
Composition, Music,
Drawing, Dancing,
Needlework,
Writing and Arithmetic.
From Mrs. Twigg's long experience, and the credentials which she has brought with her, (she having for many years conducted a similar establishment in her native country) they hope for a continuance of that support which they shall make it their study to merit.
Reference may be made to
The Rev. Archdeacon STUART, and
The Rev. JOHN BARCLAY.
Each young Lady to bring her bed, &c. &c. two pair of sheets and six towels.
August 13th, 1826.

Notice
IS hereby given, that the Co-partnership heretofore subsisting in the town of Kingston, between the subscribers, as Painters and Glaziers, is this day dissolved by mutual consent—All persons indebted to the said firm, are to pay their several amounts to Mr. Theodore Brocket, who is duly authorized to grant acquittances for the same—and all demands against the said partnership, are also to be sent to him for liquidation.
JAS. KERR,
THEODORE BROCKET.
Kingston, July 15th 1826.

Notice
The business of the above firm will be carried on in future by the subscriber, who feels grateful for past favours, and requests a continuance of the same.
THEODORE BROCKET.
Kingston, July 15th, 1826.

BLANK DEEDS & MEMORIALS,
For sale at this Office.

TO CAPITALISTS.
VALUABLE PROPERTY FOR SALE.

ON the First day of August, 1827, between the hours of Twelve o'clock, A. M. and Two o'clock, P. M., will be sold, by public Auction, to the highest bidder, at Kingston, in the Province of Upper Canada,

The Marmora IRON WORKS.

These works are situated in the township of Marmora, in the County of Hastings, in the Midland District of the said Province, and are esteemed one of the most valuable properties in the Foundry line in British North America; and one, it is considered, which cannot fail under proper management, to realize to a purchaser, profits seldom arising to Capitalists from other investments of Capital.

These works (in the establishment of which, upwards of thirty thousand pounds sterling have been expended) consist of two furnaces, the one capable of yielding two tons, and the other one ton of Iron in the twenty-four hours; with the necessary buildings connected therewith; a Forge for the manufacture of Bar Iron, with four Fires and two Hammers, a Saw Mill, Flour Mill, Bark Mill and Tannery, all impelled by water, of which there is an abundant supply—Carpenters' and Blacksmiths' Shops, well provided with the necessary tools—Baking House, and fourteen comfortable Dwelling Houses, three of which are well suited for Taverns or large families, with

2,500 ACRES OF LAND,

in the said township, surrounding the works—and 3,584 Acres in the adjoining township of Belmont, in the New-Castle District, for which a deed in fee will be given, and upon which are inexhaustible mines of ORE, generally of a good quality, with 1,500 Acres of Land, granted conditionally in perpetuum by the Government, as fuel reserves, the condition being, that the works are never permitted to cease, three successive years.

The distance at present, at which the works are supplied with Charcoal, is between two and three miles—the Lake ORE is brought by water, five miles—and other ORE useful to be employed in the making of good

IRON,

is brought by land, a distance of six miles.—One of the purest quality known in the British Provinces, may be had at an unfixed expense of mining, within a few hundred yards of the Works, mixed with which is yellow ochre, red earth and black lead in great quantities.

These Works are established on Crow River, a mile below the Crow Lake—this River, interrupted by many large rapids, connects with the River Trent—the distance by land to the mouth of the Trent, the head of navigation, is 81 miles.

The limits of an advertisement will not admit of an enumeration of the many advantages of this property, neither is it the purpose of the proprietor, by an exaggerated statement, to induce persons desirous to purchase, to trust to his representation, and save the trouble of personal inspection.

That it is at least equal to the representation does not admit of any person viewing plans of the works, left at the different advertising offices in London, Liverpool, New-York, Philadelphia, Montreal and Kingston, will be satisfied, added to which, this circumstance is of consideration, that the works are sufficient to supply the Province of Upper Canada with

Bar Iron & Iron Ware,
and at a price much lower than they can be brought from the Lower Province.

The object in selling, is to fulfil the conditions upon which this property was placed in the hands of the present proprietor, namely, to pay over the proceeds to the creditors of Mr. Charles Hayes, the original proprietor, such sale being demanded by the Majority, in amount, of debts of the said Creditors.—For further information, application to be made to Messrs. GOULD, DOWIE & Co. in London, Mr. MANAHAN, at the works, or to the Subscriber in Montreal,
PETER M'GILL.
Montreal, July 15, 1826.

WILLIAM CUNNINGHAM,
ARTIST,
FROM GLASGOW,

RESPECTFULLY informs the public, that he has commenced his business at the house of Mr. Haffel Coy, where he will execute in the neatest style,

FANCY TURNING,
ON WOOD, IVORY, AND METALS,

According to any pattern.

Likewise, makes and repairs PHILOSOPHICAL Apparatus SURGEON'S Instruments, Razors, Scissors, and all kinds of Cutlery skilfully ground and polished.—
MUSICAL INSTRUMENTS,
from the Jew's Harp to the Church Organ scientifically repaired.—Wooden Clocks, Flax and Wool spinning Wheels made and repaired, &c. &c.

The idea of a general Mechanic or Artist, is rather uncommon, but let those who doubt his abilities "Come and see."
Kingston, July 25th, 1826.

CASH
PAID for clean LINEN and COTTON RAGS at this Office. [May 26]

It being intended to build a BRIDGE across the River Catarqui, from Kingston to Point Frederick, provided the Legislature shall grant an Act of Incorporation.

Notice is hereby given,
that a premium of TWENTY POUNDS Currency will be given for the model and estimate of a wooden Bridge most approved of by the Directors, and Ten Pounds for the second most approved of, it being understood that the Bridge is to be 80 feet wide, (with a foot path in the middle, and carriage road on either side) of sufficient strength for the passage of artillery—that part of it nearest Kingston to be a DRAW BRIDGE, or otherwise moveable. The length of the Bridge required is sixteen hundred feet—the greatest depth of water is about fourteen feet, gradually decreasing on either side to four feet—the bottom of the river a flat rock, partially covered with mud.

The Bridge is not required to be covered, or by any means ornamental, but substantial—to be eight feet above the level of the water, and to have a TOLL HOUSE, either on or attached to it, and the cost not to exceed Five Thousand Pounds.

The Models and Estimates to be lodged with the Treasurer, Mr. George F. Corbett, at Kingston, on or before the first day of November next, with the address of the parties who may furnish them and the said Models and Estimates to be sealed up.

JOHN R. GLOVER,
PRESIDENT.
JOHN S. CARTWRIGHT,
SECRETARY.
Kingston, 24th Aug. 1826.

FOR SALE,
LOT No. 22, in the broken concession B. in the township of Murray, county of North-
west, in the District of New-Castle, containing Two Hundred Acres of Land. There are on the premises a commodious
Dwelling House,
Barn, Stable, and Out Houses. The Land is of an excellent quality, well watered, and in a state of cultivation.

ALSO—Lots No. 14 and 16, in the 6th concession, and Nos. 13, 20, 22, and 24, in the seventh concession of the township of Rawdon, County of Hastings, in the Midland District. For further particulars apply to
GEORGE MACAULAY,
Agent for the Proprietors.

September 9, 1825.

The Steam Boat

NIAGARA.

Kingston, 29th July, 1826.

MISCELLANEOUS.

FROM THE MISSIONARY HERALD.
INTERESTING ACCOUNT OF THE OSAGE INDIANS.
By the Reverend William F. Vaill.

COUNTRY:

A few years since, part of the nation resided on the waters of the Missouri; but now, the whole tribe resides on the waters of the Arkansas river. They are divided into several villages. About four of these are on the Grand river, called by the Osages, Neosho; and two on the Verdigris. These rivers descend into the Arkansas from the north, and form a junction with it, within one mile of each other.—The width of Grand River is about 30 rods, and that of the Verdigris 10 rods. The former is navigable in high water with keel boats, about 200 miles, and the latter only four miles to the falls. These falls are a natural curiosity, on account of the regularity of the stones, each being square, and laid in a straight line from one side to the other, rising like door steps. The Osage country is healthy and inviting to strangers; having good air, and being well watered, and richly diversified with hills and plains. Some parts are rough and hilly, and covered with timber. But the greater part is covered with grass, called prairie. The prairies are not low and wet land, but often hilly, and always dry; and have been occasioned by the annual fires that spread over the country. The Indians, that they may travel more easily, more readily see their game, and have young grass in the Spring for their deer, and buffalo, and elk, set fire to their prairies, and the fires spread into the neighbouring woodland. Every year, therefore, the prairie is enlarging its borders at the expense of the timbered territory. In some parts of the country, hills, or mounds, rise from the plain, and are, indeed, a curiosity. Some are circular, others have an oblong shape. Several are near together, and all rise to the height of 200 feet above the general level of the plain. But the face of the open country is, for the most part, undulatory.

NAME AND CHARACTER.
They call themselves Wa-qu-sau-sae. From hence, Osage.
