SALT RHEUM.—This inveterate disease, which has long baffled the art of the most experienced physicians, has, at length, found a sovereign remedy in Dr. La Grange's genuine ointment. Few cutaneous diseases are met with more reluctance by the physician, & none in which he is so universally unsuccessful. This ointment has stood the test of experience, and justly obtained an unparalleled celebrity. It immediately removes the scabs, gives a healthy action to the vessels of the skin, and its original colour and smoothness. Numerous recommendations might be obtained of its superior efficacy, but the proprietor chose that a fair trial should be its only commendator. It has in three or four weeks cured cases of fifteen and twenty years' standing, that had resisted the power of every remedy that was tried. It not only at once gives immediate relief in Salt Rheum, but cures Tinea Capitis, commonly called Scald Head, and all scabby eruptions peculiar to unhealthy children.

There is nothing of a mercurial nature contained in it, and it may be used on infants or others under any circumstances whatever. PRICE One Dollar per BOTTLE. For sale by Wm. Binley, Kingston, John Musson, Quebec, and George Bent Montreal, Sole Agent for the Canadas. Kingston, 11th July, 1828.

NATURAL HISTORY SOCIETY.

NOTICE is hereby given that the Natural History Society of Montreal anxious to encourage a spirit of research, and to create a taste for scientific pursuits, have resolved upon offering FOUR SILVER MEDALS for Essays on scientific subjects, thereby endeavouring to rouse the dormant talent of the Province, by exciting a praiseworthy emulation.

For Three of these Medals, the competition will be open to the public generally, and One only will be exclusively confined to the competition of the several classes of Members.

The Medals offered are as follows:— 1. A Silver Medal for the best Essay descriptive of the QUADRUPEDS of British North America, their generic and specific characters, their modes of life and uses to which they can be applied. This essay to be open to general competition.

2. A Silver Medal for the best Essay descriptive of the PLANTS indigenous to the Canadas their generic and specific characters, their habits, and their uses, medical and economical. This essay to be open to the competition of the Honorary, Corresponding and Ordinary Members of the Society, resident in the British North American Provinces, only.

3. A Silver Medal for the best Essay on any branch of general literature, the particular subject thereof to be chosen by the respective authors. This essay to be open to general competition.

4. A Silver Medal for the best Essay on any branch of philosophy or science, other than Natural History, the particular subject thereof to be chosen by the respective authors. This essay to be open to general competition.

The Society being anxious to encourage general talent imposes no restriction as to the qualification of competitors for the Medals, further than that they shall be resident or usually so, of some one of the British North American Provinces, nor to the language in which the essays are to be written.

The Essays intended for the competition are to be transmitted to, and to be received by A. F. HOLMES, Esquire, M. D. Corresponding Secretary of the Society, or before the 20th day of February 1830, accompanied by a sealed note containing the name of the author, & amotto similar to one to be inscribed at the commencement of the essay. The Essays which do not obtain the prize will, if required, be returned with their accompanying notes unopened to any designated address. The Society also reserves to itself the right of retaining the successful Essays, as well as the power of refusing any of the Medals should none of the essays be deemed, in the opinion of the Judges to be appointed, worthy of it.

The Committee of Judges to whom the Essays will be referred will be appointed at the monthly Meeting of the Society in Feb'y 1830, and will be composed of Members of the society and of other individuals residents of Montreal distinguished for their literary and scientific acquirements, and the society would recommend competitors resident in Montreal, and whose handwriting might possibly be familiar to the Judges to be appointed to procure the assistance of some friend to copy the Essay intended for competition in order that not even the slightest grounds for supposed partiality may exist.

The Medals will be presented to the successful candidates or to their authorized representatives at the Annual Meeting of the Society on the 18th May, 1830.

ADELPHI HOTEL, 10, BROADWAY, NEW-YORK.

MR. JOHN FORD, respectfully announces to his friends and the public, he has taken this Establishment in connection with the UNITED STATES HOTEL, at Saratoga Springs. The Adelphi is already distinguished as a house of select resort, and has been considerably enlarged this Spring; its delightful situation commands a beautiful view of the Bay of New York—the adjacent shores of Long Island, New Jersey, and the walks of the Battery, in its immediate vicinity. Passengers in the London, Liverpool, and Havre Packets will find this Establishment peculiarly convenient, agreeable, and contiguous to the Steam Boats proceeding in all directions from the City.

The distinction between this and other Hotels in New York, is attributable to the circumstance of having a number of Parlours on the European plan, where Gentlemen and Families have the option of enjoying the retirement of a private table, or partaking the accommodation of a very limited Table D'Hotel; conveniences, combined with strict order and attention in the interior economy of the Establishment, which it is hoped, are calculated to obtain general approbation.

The United States Hotel at Saratoga Springs re-opens on the 20th of this month, where Mr. Ford will contribute his best exertions for the comfort of his guests during the season. New-York, 1st May, 1829.

THE SUBSCRIBER respectfully informs the public that he has just received this season's importation from INDIA & EUROPEAN GOODS:
