Pryn; Noble Preston; William tisfaction that had not the establishment to of one Furnace at the Marmora Iron Pitt; Chester Potter. labour under many disadvantages then un- Works. avoidable --- and now overcome, the result of its operations would prove highly profitnble---ueedless as it is to enumerate here at 30s. per 100 lushels. those disadvantages, the leading ones may be stated as an overwhelming debt, the a- Furnace, at 7s. 6d. verage interest on which for the last six somes has exceeded Two we hundred named days at 1.5s. per Aunum-the entire absence of any support from the merchants of the Pro- 6s. 3d. each. vince, and the amazing expenses uselessly -but unavoidably incurred in carrying penter, 200 days 5s. each. them on--- uselessly now considered as the necessity of the recurrence of such expenses | 1 Ore burner, 1 cinderman, * Obviated.

Bythe calculations annexed, in which | Carpenter, 200 days each certainly too liberal allowances are made at 5s. for the necessary contingencies for the Works, it appears that the Furnace in ope- ings, at 45s. ration for six months would yield an intorest of ten per cent on the Capital in- Clerks, say +Bited, and the most scrupulous investigation cannot diminish this, added to which is the prospect of an increase of the yield of the Furnace --- of the chance of ample employment for continued operations, from the increase of the demand for Wares, in at Kingston, at £20 per he Province, as well as the additional ton. price on the Wares beyond that valued upon -- also the profits which would arise from Kingston, at £10 per ton. the constant employment of the Forges making Bar Iron; the working of the Grist and Saw Mills and Tannery; and the proper employment of all means of Revenue which the establishment affords; independent of the Sales which may be made of some of the valuable lands in the immediate neighbourhood of the Works, already cleared and fit for cultivation.

Many now are the advantages, and few scrap per diem. the disadvantages of these Works, and those few by the proper application of moderate means are easily removed; and under careful and diligent management, MONTREAL, KINGSTON, AND and able direction, it is considered that more important advantages would be derived from the investment of Capital in this Stock than in any other yet undertak-AN THE HAR BELLIER BERNINERS

The principal improvement recommended would be the establishment of a Cupo-In and Forges either at the mouth of the Trent or at Belleville, and allowing the Furnaces at Marmora to cast Pig Iron onlly; which would be rendered in a Cupola at Belleville or the Trent much more profitably and of a superior appearance, at a sum much less than by employing the Furmaces in making Castings; the result of the consideration given to this subject is---That the Furnace will yield on the average ten Cwt. more of metal per diem when making Pig Iron, than when employed in making Castings. The Castings from a Cupola by a species of refinement of the metal are of a superior smoothnesss and appearance, the disadvantages of getting Workmen at Marmora, and when their parts, rendering at some times, the the hands of an Attorney for collection; produce of the Furnace next to a total loss for days together, a difficulty which would mot exist at the Trent or Belleville, where Workmen could be obtained to reside at much less wages, and any intemperance could only be attended by a temporary suspension of operations, which could create no other loss.

good roads are to be established at combined public and private expense, Castings 6 good Leaches, new and large Ket- Meyres; Michael McGrath; Mr. Neson; Miss could be afforded at the rate of Twentytwo pounds ten shillings per Ton, and Bar Iron of the hest quality at Twenty-five pounds per Ton, delivered at Kingston, or at any place on the Bay of Quinte, prices at present in operation, it offers a desirwhich, considering the acknowledged superiority of the Metal and Bar Iron would certainly preclude all competition from the

The plan having the concurrence of Mr. McGill, (who joins me in taking Stock to the amount of Five thousand pounds currency) and other Gentlemen who interest themselves in the Company would be to establish a joint Stock Company, to consist of Twelve hundred and fifty Shares, at Twenty pounds per Share, that is to say, Kingston, December, 1830.

H. Cassady, Jor. and G. W. Yarker Esq. Fifteen thousand pounds for the purchase of the Works, and Ten thousand pounds as a Capital for carrying them on-to obtain late arrivals in November, from London. 4th December, 1830. conded by H. C. Thomson, Esq. That the incorporation, and commence operations as soon as possible.

In elucidation of these observations the audexed statements are respectfully refer-
