We understand that letters from London of the 22d Nov. have been received in Town which state that no decision had taken place at the Colonial Office up to that date, respecting the Attorney General. The day fixed for the early meeting of the Provincial Legislature was then known in London, and it was reported that instructions relating to the affairs of this colony were in a state of preparation, to he forwarded for the usual period of the Session. which will probably arrive by the December mail. The disposition of the Colonial Minister, it is mentioned, continued the most favorable to the Colony. The Attorney General it is added, however, expressmed himself-with his usual confidence of a successful result in his case. Upon the Whole it is said that the probabilities in his favor are lessened, although he has some very active and influential supporters.

Letters from London by the last Ameri can packet state that the port of Montreal has finally been declared a separate port of entry, and that the decision of the Boards at home has been in favour of admitting flour of American manufacture into the English Market as Colonial.
