TO LET,

ROM the first day of November next, that commodious House and Store, lately occupied by Messrs. J. D. Bryce & Co., situated on the west side of Store street, in the Town of Kingston, near the Commercial Hotel. These premises are exceedingly well adapted for commercial purposes, being situated in that part of the Town best calculated for all kinds of business. If necessary, possession will be given on the 1st of June next. For further particulars application may be made either to James Nickalls, Jun. Esq. Kingston, or to Robert Maxwell, Esq. Montreal Bank,

Kingston, 8th May, 1835.

Garden Island Retreat. J. ELLSWORTH having rented these premises, begs leave to inform the Ladies and Gentlemen of Kingston, that he has appropriated part of the house for

PUBLIC ACCOMMODATION.

The natural advantages of the situation for Parties out fishing, or merely enjoying the air, are proverbial; in addition to which there are now a Wharf and Harbour at which the largest vessel navigating Lake Ontario might moor in safety.

Although the fare kept at this solitary situation cannot, as yet, be equal in variety to what is found in the city, the advertiser trusts that few who call there shall be disappointed, and that his improvements shall keep pace with the increase of patronage. Kingston, June 3, 1835.

To this end it is his intention to notice some of the most popular works deprecatory of ing part of the St. Lawrence River by day- Toronto, every Thursday Morning and Sun-Banking, which by their ingenuity and plausi- | light. bility have injuriously prejudiced the unreflecting against a Paper Currency. Among these we reckon, pre-eminent for mischief, Cobbett's " Paper against Gold" and Gouge on Banking.

Perhaps no section of the civilized world presents to the plastic powers of an abundant and sound Paper Currency a more expanded and unobstruction field for the display of their mighty energies, than these fertile appendages of the British Crown,-where Ceres and Pomona are destined to perpetuate their genial reign,-where the bowels equally with the surface of the earth teem with embryo riches and where the abundant waters present innumerous channels to the enterprise of commerce to convey their treasures inexhaustible to every

foreign clime. Encouraging however as are indisputably the natural advantages of these regions to the industry of man, they can serve for nothing but as a reproach to his sagacity if he seek not for the aid essential to render his labors ef-

fectively productive and practically beneficial. That such aid is alone to be found in an abundant currency, will be made clear by practical illustrations from the highest authorities; and it will be an especial object of this work so to explain the present position of commerce in relation to the precious metals, as fully to demonstrate that the advancement of the Canadas to the state of opulence for which they seem to have been destined by Providence, can only be effected through the instrumentality of an abundant Paper Cur-

The book will be 8vo. demy, and will contain at least 500 pages of close print, in excellant, clear type, on fine paper, and will be delivered in linea binding. As it will be attended with certain and great expense, a certain sale, and pay in advance, are indispensable. The expense of 500 copies has been carefully calculated, and seven shillings and six penco has been found to be the lowest price at which it can be sold, reckoning nothing for the Author's labour of compilation and original composition; for which if he ultimately obtain any pecuniary recompense, it can only arise from an excess of sale beyond his subscription list.

As every exertion will be used to render the work both entertaining and instructive, and most especially plain to every capacity, the Author, with a zealous mind intent upon the public good, indulges the hope that the commonity at large will, by their ready patronage, expedite the completion of a work upon which the solicitations of partial friends have

induced him to enter. Contemporary Editors in both provinces of best materials and workmanship, for sale at publishing this Prospectus four times, shall
