PROSPECTUS

WEEKLY NEWSPAPER, TO BE ISSUED AT MONTREAL. The first number to appear on Saturday, the 17th October next;

AND TO BE ENTITLED

THE TRUE BRITON

" For God, the King, and the People."

MONTREAL CONSTITUTIONAL ADVOCATE.

When we take into consideration the number of Newspapers published within this City, and throughout this, and the Sister Provinces, little ground, we confess, appears to be left for our present undertaking. Yet the incessant emigration to our shores, and the increased and increasing population of Montreal and the country at large, seem in some degree, to warrant the present essay; and to call forth the exertions of our humble abilities to the ar-

duous duties of the press. Although we do not flatter ourselves that we shall be able to complete with many of our Brethren, in exhibiting to the Merchant, the details he requires to conduct his speculations to a successful issue, or to guide him in those he may project, yet we feel confident that to the General Reader, the Syriculturalist, the Mechanic, and those who may neither possess the inclination, nor afford the time, to peruse daily Newspapers, our columns will be found productive of several advantages, and will

prove sources, of usefulness and amusement. In Politics, as the title we have selected sufficiently indicates, we are Constitutional-

Some travelling and observation have wrought in us the conviction that under the British Constitution, those inestimable ingredients in our happiness, " Civil and Religious Liberty," are now here better secured and enjoyed than in Great Britain and her Colonies; and under this conviction, we shall sedulously endeavour to maintain their permanaucy within this and the sister Provinces. But in making this confession of our political faith we wish to be perfectly understood: and pledge our reputation and honor that public abuses of any, and every kind, shall have our unqualfi-

In Religion we are Episcopalian. Attached by principle and habit to doctrines of the Established Church of England, and to the decent propriety of its Rites, we shall zealously, yet temperately support and defend its tenets and temporalities whenever they may he assailed on the one hand, or neglected on the other.-While however we assert these points, we desire to remain in peace with all men. We have lived long coough to bear witness to the truth of our Saviour's declaration that "God maketh the Sun to rise on the evil and on the good, and sendeth his rain on the just and the unjust." In using this quotation, we do not advocate lukewarmness in the faith in which we were brought up; but because we sincerely believe it is not given to man to pronounce that his own form of prothe Lieutenant Governor, dated Downing fession bears the exclusive stamp of infallibili-Street, 15th June, 1835, and communicating ty. We shall therefore cheerfully grant to others what we claim for ourselves, Liberty of Conscience, and shall on all occasions that require its exercise, uphold the maxim of "Unity in things needful, and Charity in all," as indispensably necessary to the welfare of the

community in which we live. As our constant end and aim will be, to present a Miscellany that shall, as far as possible, meet the wishes of all classes of readers, we intend to insert copious extracts from the as well as whatever may be interesting to our Naval and Military readers; and as we shall also form a careful and extensive summary of events that have occurred in the British American Provinces, and in the United States, we presume to hope our Publication will not be deemed an unacceptable offering to the friends of our subscribers residing in the United King-

dom. To our Fellow Countrymen residing in the Upper Province, the events now in progress in Lower Canada, cannot fail to impart a deep and anxious interest. It may, without fear of contradiction, be asserted, that the proceedings of the Commissioners now in Quebec, for the adjustment of the affairs of this Province, concern the Inhabitants of that Province equally with ourselves. We shall, therefore endeavour to make " The True Briton," a faithful Record of the proceedings of Ilis Majesty's Commissioners, and shall spare no means within our reach to accomplish that

object. As our publication will be delayed, during the Summer months, at least, until after the arrival of the Southren Mail, its Pages will consequently contain the latest intelligence from Europe, which may have arrived by the New-York Packets.

As we intend to appropriate Three Columns out of the Twenty-Four of which our Paper will be composed, to Advertisements, we trust the eircumstance of our being one day in the week in advance of most of our contemporaries will insure to us the patronage of our Mercantile friends.

The brief space of a Prospectus precludes a more extended annunciation or illustration of our views. we shall, therefore, morely add. that our efforts will, at all times, be directed to effect the maintenance of the Civil and Religious rights of our fellow-countrymen; and to maintain inviolable, the great principles of the Constitution, under which we have the happiness to live.

The TRUE BRITON will be printed with new long Primer, on good Paper, and in twenty four columns. Subscription in the City. Two Dollars, out of the City, (if by Post.) Three Dollars per annum. To be paid in ad-pance. Communications and advertisements. Advances will be made upon all consignvance. PROPERTY FOR SALE By Auction.

HREE valuable LEASEHOLDS, with a THREE STORY BRICK BUILDING on each, On King Street, Toronto,

the Three most easterly Tenements of the new block of buildings built by Mr. Buchanan within 12 months, situated in the most improving part of the Main Street, a little west of Bay Street, each consisting of a Shop and House above it, with Kitchen and Cellar below, will be exposed for Sale, by Public Auction, on the Premises,

ON THURSDAY, THE 15th OCTOBER. at the very low upset price of £275 for each Building. Any person anxious to purchase the whole, may have them put up together by bidding £325, otherwise they will be sold apart there being a separate original Lease for the ground on which each building stands.
Those who know the above Property are well aware that the upset price is less than the cost of the Building alone, while the ground Rent (10s. per foot,) is scarcely half what Leases have been made at during late years in

the neighborhood. One of the Buildings is under Lease at the rate of £55, and the other two, now unoccupied, were lately rented at £50 per anguni. That the lowness of the upset price makes the property a great object as an investment, must be apparent from the above circumstances, as well as from the fact that the two adjoining Buildings, the same block of the same | the frame, equally operated upon, will become dimensions, and which cost the same as those debiliated or even diseased. Thus the strength now offered, were purchased by the ground landlord a few weeks ago at £350 each, and were at that price considered much under their

THE SABBATH. The editorial columns of the Philadelphia Gazette always bear marks of good sense, taste and principle. In a late number the editor remarks :- "It is to be regretted that so large a number of our population should unwisely neglect the observance of the Sabbath. We'say unwisely, because-religion apart-we are convinced that a day of rest is a necessary provision for the wants of our nature, and that he who rejects the indulgence thus offered, e:poses/ himself, not only to unnecessary labout and suffering, but to danger of actual

with that of first Lieut. Sanders, the ship was pecunitry bes. We have often heard it remarked by observant business men, that few get rich who habitually neglect the observance of the Sabbath. We need not ascribe this to supernatural agonoy. It is the plain effect of a plain cause. One day of rest in seven is necessary for man. The bow that is ever bent loses its elasticity. The mind that is ever engaged in schemes of profit and loss in calculations of business, will become at length confused and lose its tone of acuteness and accuracy. Its lightness and buoyancy will depart; it will lose its fertility in resources, and its confidence and activity; while Majesties and the first Lord of the Admiralty. which an occasional day of rest would have preserved, is forfeited; the business man is rendered unfit for his duties; & he who worships no god but his gold, is punished in his darling passion for the violation of a law ordained and sactioned by nature and by God. The lover of pleasure is equally unwise in his violation of the sabbath. 'The mountony of illeusss or

One bright Monday morning, is given in Herschel's catalogue, published in when all the women folks throughout the counthe philosophical transaction for 1833, being try, take it upon themselves to raise the steam from their wash-tub, and scold over dirty linnen, suds and hot water, two bouncing females belonging to the family commenced operations tre, and fading away in an ill defined margin, in washing, on a level spot near the bed of the creek, with the high bank above them .- The old iron kettle was full of bubbling boiling waclock was, as nearly as we could determine, ter, when one of them discovered a huge bear descending the opposite bank, making directly for them. He soon entered the stream, and was carried by the current ere he crossed, some short distance below.
