

SALE OF CROWN LANDS.

NOTICE is hereby given, that the under-mentioned Crown Lands in the Newcas-... will be offered for sale by Public Auction at the Town of Peterborough on Monday the 21st day of December next, at ten o'clock A.M. at the upset price of five shillings currency per acre, viz:—

The Township lately surveyed situated to the eastward of Balsam Lake and in rear of the Township of Fenelon, will be set up in lots of 100 and 200 acres each.

An Island in Balsam Lake, opposite the first concession of the above Township containing about 1170 acres.

An Island opposite Lot No. 17, in the first concession of the same, containing about 20 acres.

Also the Front Lots reserved from the last sale, in the Front Concession of the tract of Land adjoining the Township of Eldon and Fenelon, north of the Balsam Lake.

The terms of payment will be one quarter of the purchase money down, and the remainder in three equal annual instalments, with interest upon each instalment as it becomes due.

Further particulars may be known by applying to Alexander McDowell, Esq. Peterborough, or at this office.

Commissioner of Crown Lands' Office, } Toronto, 21st Nov. 1835.

Fashionable Tailoring. HENRY MATHISON.

(Late Foreman to Mr. John Dawson.) WOULD respectfully inform the public that he has commenced the above business, in King Street, nearly opposite the Store of Messrs. J. D. Bryce & Co.

He has personally made arrangements for the most approved London and New York Fashions, and hopes by assiduous attention and reasonable terms, to merit a share of public patronage.

Kingston, Sept. 23, 1835. 27if

TO LET, that commodious House and Store, lately occupied by Messrs. J. D. Bryce & Co., situated on the west side of Store street, in the Town of Kingston, near the Commercial Hotel.

These premises are exceedingly well adapted for commercial purposes, being situated in that part of the Town best calculated for all kinds of business. If necessary, possession will be given on the 1st of June next.

For further particulars application may be made either to James Nickalls, Jun. Esq. Kingston, or to Robert Maxwell, Esq. Montreal Bank, Quebec.

Kingston, 8th May, 1835. 63

TO LET, a comfortable Dwelling House, with an excellent Garden, situated in Grave Street. Apply to Wm. WILSON.

Kingston, 16th May, 1835. 65

PROSPECTUS. In the latter end of November, or the beginning of December, will be Published No. 1 of a new Weekly Periodical, to be Entitled THE TRAVELLER, OR, PRINCE EDWARD GAZETTE.

AS it is now nearly eleven months since any newspaper has been published in the District, it is presumed that the TRAVELLER will receive support from persons of every party, who, laying aside their prejudices, will unite in establishing a vehicle for the expression of their wants and wishes, their feelings and opinions, instead of annually sending away several hundred pounds for the purchase of other newspapers, whose wishes are often opposed to our own.

The publisher is pledged to no party whatever; but although devotedly attached to his King, his Country, and the Constitution of Canada, he will always be ready and willing to expose any known abuse in the Government, any departure from the path of duty in a servant of the Crown.

And, being well aware that the present and future prosperity of Upper Canada mainly depend on its connexion with the British Empire, it will always be his endeavour to cherish that connexion, and to preserve the advantages of those who, by dissolving it, would lead us to destruction.

LETTERS REMAINING in the Post Office at Kingston, on 5th December, 1835.—Rated with British Postage.

(COPY.) In Council. 17th October, 1835.

THE Council having taken into consideration the Lieut. Governor's reference of the 5th inst., on the question of U. E. Loyalists' Rights and Militia Claimants, respectfully recommended, that the suggestions of His Excellency be adopted, and that the Deeds do issue in the names of the original Grantors, to all persons who have received Location Tickets, as U. E. Loyalists or Militia Claimants, without further delay. And it is also recommended, that in future certain Townships may be set apart for the location of this description of persons, who may be authorized to receive Free Grants on account of their U. E. Loyalist or Militia Claims, and that the Deeds shall issue in the names of the Grantees respectively, at the time of their location.

These Regulations, made for the purpose of adjusting the question, which, for the interest of the Province, it is considered should no longer remain unsettled, are not to prevent U. E. Loyalists or Militia Claimants entitled to grants of land, from settling in other Townships, provided that they wish to occupy their own Location Tickets, and to take up their residence on the lots assigned to them. It is further recommended, that the Surveyor General be instructed to publish this order. (Signed) JOHN BEIKIE, Clerk Executive Council.

For Sale by the Subscriber, 150 REAMS OF WRAPPING PAPER. JAMES MACFARLANE. 1st August, 1835. 10

PROSPECTUS. MONEY IS POWER. UNDER this title the Subscriber proposes to publish a book on BANKING, dedicated to the intelligent and reflecting portion of the community, which shall convey to the Canadian Public, in a condensed form, every necessary information on this deservedly engaging subject.

As the Author is, and has ever been, a steadfast friend of Banking institutions, it will be with him a principal object, in as far as in him lies, to impart to his readers just ideas of their importance to the prosperity of Commercial and Agricultural communities, that in considering controversial discussions, the enquiring mind may become prepared to separate the wheat from the chaff,—the gold from the dross.

To this end it is his intention to notice some of the most popular works, deprecatory of Banking, which by their ignominious and plausible, but injuriously prejudicial, and unfeeling attacks against a Paper Currency, have done more to retard the progress of the Canadian Public, in a condensed form, every necessary information on this deservedly engaging subject.

As the Author is, and has ever been, a steadfast friend of Banking institutions, it will be with him a principal object, in as far as in him lies, to impart to his readers just ideas of their importance to the prosperity of Commercial and Agricultural communities, that in considering controversial discussions, the enquiring mind may become prepared to separate the wheat from the chaff,—the gold from the dross.

Encouraging however as are indisputably the natural advantages of these regions to the industry of man, they can serve for nothing but as a reproach to his sagacity if he seek not for the aid essential to render his labors effectively productive and practically beneficial.

That such aid is alone to be found in an abundant currency, will be made clear by practical illustrations from the highest authorities; and it will be an especial object of this work so to explain the present position of commerce in relation to the precious metals, as fully to demonstrate that the advancement of the Canadas to the state of opulence for which they seem to have been destined by Providence, can only be effected through the instrumentality of an abundant Paper Currency.

The book will be 8vo. demy, and will contain at least 500 pages of close print, in excellent, clear type, on fine paper, and will be delivered in linen binding. As it will be attended with certain and great expense, a certain sale, and pay in advance, are indispensable. The expense of 500 copies has been carefully calculated, and seven shillings and six pence has been found to be the lowest price at which it can be sold, reckoning nothing for the Author's labour of compilation and original composition; for which if the ultimately obtain any pecuniary recompense, it can only arise from an excess of sale beyond his subscription list.

As every exertion will be used to render the work both entertaining and instructive, and most especially plain to every capacity, the Author, with a zealous mind intent upon the public good, indulges the hope that the community at large will, by their ready patronage, expedite the completion of a work upon which the solicitations of partial friends have induced him to enter.

Contemporary Editors in both provinces publishing this Prospectus four times, shall have a copy of the work.

VEGETABLE OINTMENT, For Sore Eyes, Scurvy, Salt Rheum, &c. &c.

THE Subscriber, having become Agent of Mr. Joux McPherson, Proprietor of the above valuable remedy, will be constantly furnished with a supply. On reference to copies of Certificates in his hands, it will be found that the efficacy of this Ointment has been tested on many occasions, and that the relief afforded by it to persons afflicted with such distressing complaints as it is intended to cure, gives it a claim to the confidence of the public.

Sold in Boxes of from 1s. 6d. to 8s. each. JOHN HARKES, Market Square.

It may also be purchased at Mr. McPherson's residence, No. 50 St. John street, Upper Town, Quebec; Messrs. Carter & McDonnell's, St. Paul street, Montreal; Mr. David Fairburn's, corner of Church and Perth streets, Brockville; J. W. Brent & Co., Toronto; Breat & Co., Port Hope; Robert Fairbairn, Esq., Burlington; and Agents will be appointed in the principal towns of Upper and Lower Canada, and the United States. SCOBELL'S INSPECTION STORE.

SCOBELL, General Inspector of Pot Ash, Beef and Pork, presents his cordial thanks to the Merchants and other Inhabitants of Kingston and the vicinity, for the liberal patronage they have extended to him during the past year; and he begs leave to inform them that he has removed his Inspection Business from the Hon. J. Kirby's Store to the large and convenient Store and Warehouse of Mrs. Forsyth, lately occupied by Mr. A. McDonnell, where he will be always ready to inspect such articles as may be consigned to him for that purpose; and he hopes, from his long experience, punctuality, and strict attention to business, still to merit the approbation and support of the public.

R. SCOBELL, Kingston, April 14th, 1835. 57

PROSPECTUS OF A WORK ENTITLED THE KEY TO THE PRINCIPLES OF NATURE.

COMPRISING the following systems as original, viz:— I.—Ebb and Flow of the TIDES, Caused by contraction and expansion, thro' cold and heat, from the alternate absence and presence of the Sun.

II.—GRAVITY, By a head pressure of the electric element, acting upon all matter as electric vacuums, which I term Prestraction.\*

By electricity as its legitimate cause, through electric vacuums, including the phenomena of the Compass by the same agent.

III.—MAGNETISM, By one simple original impulse, assuming a curvilinear direction round their respective centres, by local and universal repulsion in opposition, from the electric atmospheres of their centres and universal space; thus neutralizing their orbits, relative to resistance.

IV.—SEASONS, By the alternate inclination of the poles of the Earth, to and from the Sun, thus vibrating by the expansion and contraction of their atmospheres.

V.—SATURN'S RINGS, As lunar reflectors for the polar regions of that planet.

VI.—CLIMATE, Distance of the remotest planets from the sun, as regards climate, is equalized by the increase of surface of those planets, which retains a greater proportion of light and heat, and thus maintains the same temperature with nearer planets.

By Thomas Jefferson Eddy, Copy Right secured according to Law.

The above work will be published at Watertford, Saratoga county, N. Y., as soon as sufficient number of Subscribers are obtained to warrant its publication, and contain from 225 to 250 pages duodecimo, medium size, on fair type and good paper, accompanied by two engravings, illustrating the power of prestraction (erroneously styled attraction), and universal motion. The former will be represented by a column of the electric element, resting upon a mass of matter (which I style an electric vacuum,) thereby causing it to gravitate towards the centre of the earth, which is one common vacuum in the electric element; also including in the same engraving, a representation of the power and agent of the magnet.

The latter (universal motion) will be represented by a drawing of the solar system with the planets surrounded by the electric element with a division of its pressure into local and universal repulsion, by which each planet is caused, from philosophical principles, to travel in a curvilinear line round its centre by one simple and primary impetus.

As the above systems are entirely original, the author feels himself justified in presenting them to an enlightened community, respectfully soliciting their patronage to a work that comprises assigned causes for many of the natural phenomena, that have been looked upon by the whole school of philosophers as beyond the reach of human ken to fathom, and that have slumbered in the cradle of Nature's arcanum, from the commencement of time.

The author flatters himself that many causes of the striking phenomena which have been deemed past finding out, will be satisfactorily explained and developed. The price of the above work, bound in sheep, will be 6s. 3d; in calf, gilt, 7s. 6d., Halifax currency, exclusive of the duties.

WATERFORD, SARATOGA CO., N. Y. Feb. 28, 1835. }

\*NOTE.—The following definition the author has attached to his original term prestraction:—The natural power that causes bodies to approach each other, without any sensible cause, through the elastic medium, electric pressure. From the nature of the electric principle (pressure) and the apparent one (traction) causing the mutual approach of bodies or substances, without any visible cause, he has established the term prestraction. The verb presttract seemingly carries a contradiction (prestraction) as the real and apparent cause producing gravity involves a contradiction. Therefore, the author thinks that prestraction is the most appropriate term to represent the principle of gravity. The above work, as far as it involves electricity, will be endorsed (through citation,) by the spirit of the philosophy of Franklin, relative to his electrical experiments, to establish the principles; but the applications, however, are entirely original.
