

**PROSPECTUS FOR PUBLISHING  
A COPPER-PLATE MAP  
OF THE MIDLAND DISTRICT.**

**THE** Subscriber proposes, should sufficient encouragement be given, to publish a Map of the Midland District, including one range of Townships in the Newcastle District, of a scale of 160 Chains, or 2 miles to an inch; exhibiting all the Lakes, Cross Roads, Rivers, Rivulets, Lakes, Churches, Meeting Houses, Post Offices, Saw Mills, Grist Mills, Towns, Villages, Wharves, Steam Boat Landings, &c. &c. by Lot, Concession and Township.

The undersigned, being about to build a Copper-plate Printing Press, is determined to Print, Publish, Varnish, and Mount, the proposed Map in his own Township, and therefore looks to a generous and enterprising public for patronage and support.

The Map will be nearly 3 by 4 feet; it will embrace four Ranges of Townships from the Bay of Quinte back; also Wolf, Howe, and Amherst Islands, with the small Islands adjacent to them; and will be executed in a style equal to the author's Map of Prince Edward. It will be published on a Copper engraving, Coloured, Varnished, Mounted on Rollers, and delivered to subscribers at four dollars per copy, payable on delivery.

**(COPY.)**

**In Council.**

**THE** Council having taken into consideration the Report of the Governor's reference of the 5th instant, on the petition of U. E. Loyalists' Rights and Militia Claimants, respectively recommended, that the suggestions of His Excellency be adopted, and that the Deeds do issue in the names of the original Grantees, to all persons who have received Location Tickets, as U. E. Loyalist or Militia Claimants, without further delay. And it is also recommended, that in future certain Townships may be set apart for the location of this description of persons, who may be authorized to receive Free Grants on account of their U. E. Loyalist or Militia Claims, and that the Deeds shall issue in the names of the Grantees respectively, at the time of their location.

These Regulations, made for the purpose of adjusting the question, which for the interest of the Province, it is considered should not longer remain unsettled, are not to prevent U. E. Loyalists or Militia Claimants entitled to grants of land, from settling in other Townships, provided that they wish to occupy their own Locations, and to take up their residence on the lots assigned to them.  
It is further recommended, that the Surveyor General be instructed to publish this order. (Signed)

**JOHN BEKIN,**  
Clerk Executive Council.

Montreal Bank, Quebec.  
Kingston, 9th May, 1835. 63

**REPORTS** having been spread, that the CANADA INLAND FORWARDING AND INSURANCE COMPANY are about giving up the business, they beg leave to assure their Customers, and the Public generally, that these reports are groundless, and that they are determined to prosecute it with greater vigour than ever.

The Canada Inland Forwarding and Insurance Company have had no object in view, from their first establishment, but to secure to the public moderate rates of Freight between Montreal and the Upper Province. They started with a view to check, if not dissolve, a most powerful monopoly, and they have not now nor ever had any project in view, such as compensating present losses by future extravagant charges. No, their only aim has been to save themselves from actual loss, and at the same time be the means of increasing and facilitating the intercourse between the two Provinces. Obtaining this, their highest wishes will be realized. And on these grounds alone do they call for, and rely upon the firm support of the Merchants and Traders of these Colonies, whose interests are closely identified with those of this Company.  
For the Committee of Management,  
**ADAM FERRIE,**  
Chairman.  
Montreal, Dec. 31, 1835. 57

**TO BE LET,**

**FOR** one year, or a longer term, from the fourth day of April next, all that well known and long established WHARF, and two extensive STORES, situated at the lower end of Store-street, in Kingston, called *Mazurie's Wharf.*  
The above premises are unrivalled for situation and convenience in the Upper Province, and are well worthy the attention of any person desirous of embarking in the Forwarding trade.  
For further particulars, apply to  
**JOHN MAGUIRE.**  
Kingston, 50th Dec., 1835. 54

**Dreamers Arouse, a Valuable Hint from Sylvester.**

**WHILE** past year concluded with Sylvester's having sold the capital Prize of Twenty Five Thousand Dollars, in Grand Con-oluted Lottery, Class 45—a Whole Ticket—to a resident citizen—and has been productive of Wealth and Contentment to Hundreds. The same opportunity presents itself. Look with attention to the truly Magnificent Schemes offered for February. It is impossible to prevent disappointment to numerous Correspondents, who from delay in writing early, are deprived of these valuable chances. Sylvester therefore invites his friends and patrons to be early in their application, which alone can ensure them supply. Apply therefore without hesitation to

This notice is in an especial manner directed to the consideration of our GLENBURIE friends.  
Kingston, December 9th, 1835.

**PROSPECTUS  
OF A WORK ENTITLED,  
THE PRINCIPLES OF NATURE.**

**COMPRISING** the following systems as original, viz:  
I.—THE FLOW OF THE TIDES.  
Caused by contraction and expansion, through cold and heat, from the alternate absence and presence of the Sun.  
II.—GRAVITY.  
By a head pressure of the electric element, acting upon all matter as electric vacuums, which I term *Prestraction*.  
III.—MAGNETISM.  
By electricity as its legitimate cause, through electric vacuums, including the phenomena of the Compass by the same agent.  
IV.—MOTION OF THE PLANETS.  
By one simple original impulse, assuming a curvilinear direction round their respective centres, by local and universal repulsion in opposition, from the electric atmospheres of their centres and universal space; thus neutralizing their orbits, relative to resistance.

By the alternate inclination of the poles of the Earth, to and from the Sun, thus vibrating by the expansion and contraction of their atmospheres.  
As lunar reflectors for the polar regions of that planet.  
V.—CLIMATE.  
Distance of the remotest planets from the sun, as regards climate, is equalized by the increase of surface of those planets, which retains a greater proportion of light and heat, and thus maintains the same temperature with nearer planets.

**By Thomas Jefferson Eddy,**  
Copy Right secured according to Law.  
The above work will be published at Waterloo, Saratoga county, N. Y., as soon as sufficient number of Subscribers are obtained to warrant its publication, and contain from 225 to 250 pages duodecimo, medium size, on fair type and good paper, accompanied by two engravings, illustrating the power of prestraction (erroneously styled attraction), and universal motion. The former will be represented by a column of the electric element, resting upon a mass of matter (which I style an electric vacuum,) thereby causing it to gravitate towards the centre of the earth, which is one common vacuum in the electric element; also including in the same engraving, a representation of the power and agent of the magnet.

The latter (universal motion,) will be represented by a drawing of the solar system with the planets surrounded by the electric element with a division of its pressure into local and universal repulsion, by which each planet is caused, from philosophical principles, to travel in a curvilinear line round its centre by one simple and primary impetus.  
As the above systems are entirely original, the author feels himself justified in presenting them to an enlightened community, respectfully soliciting their patronage to a work that comprises assigned causes for many of the natural phenomena, that have been looked upon by the whole school of philosophers as beyond the reach of human ken to fathom, and that have slumbered in the cradle of Nature's arcanum, from the commencement of time.

The author flatters himself that many causes of the striking phenomena which have been deemed past finding out, will be satisfactorily explained and developed. The price of the above work, bound in sheep, will be 6s. 3d.; in calf, 7d., 7s. 6d., Halifax currency, exclusive of the duties.

Waterford, Saratoga Co., }  
N. Y. Feb. 29, 1835. }

**\*NOTE.**—The following definition the author has attached to his original term *prestraction*. A natural power that causes bodies to approach each other, without any sensible cause, through the elastic medium, electric pressure. From the nature of the real principle (pressure), and the apparent one (traction,) causing the mutual approach of bodies or substances, without any visible cause, he has established the term *prestraction*. The verb prestract seemingly carries a contradiction, (*press-draw*), as the real and apparent cause producing gravity involves a contradiction. Therefore, the author thinks that prestraction is the most appropriate term to represent the principle of gravity. The above work, as far as it involves electricity, will be endorsed (through citation,) by the spirit of the philosophy of Franklin, relative to his electrical experiments, to establish the principles; but the applications, however, are entirely original.

Kingston, Sept. 29, 1835. 27f

**PROSPECTUS  
OF THE  
BYTOWN INDEPENDENT  
AND  
Farmer's Advocate.**

To be published by the Subscriber at Bytown, on the Thursday of every week.  
Until it shall be deemed necessary to publish a Semi-Weekly Paper—a change that can prove beneficial to one party only, viz:—to the who receives two papers instead of one.

**THIS** Paper will cheerfully advocate every national character and interests of every true Briton—IRISHMEN and their descendants first on the list—notwithstanding that certain old wires whose heads are bursting with loyalty, and who forget themselves and their superiors because those superiors are Irish—so situated thank fortune! as to be above their malice or their envy.  
The proprietor will make it his study to promote the interests and prosperity of the County of Carlton and the Province in general, and will take an occasional peep into the affairs of our sister. He believes that it is impossible for one Province to prosper while the other decays, and that it is the duty of all loyal and peaceable subjects in both Provinces to pull together for their mutual welfare, much depends upon this co-operation. In Lower Canada as well as in Upper Canada there exist many injudicious laws, and many that should be amended or struck from the Statute Book altogether, but the proprietor is of opinion that this would be an arduous undertaking for 800 rebels with their rifles.

The proprietor will on all occasions uphold the King and Constitution, by enforcing obedience to the laws. He will never forget the fostering hand of that nation which protected, or that army which defended us, while in the cradle. May the Union Jack of Great Britain never cease to proudly wave over the Citadel of Quebec! The King desires to do no wrong, but who can deny that his Ministers and officers have coveted eyes, and that unless the covets of both Provinces are lopped off and turned adrift to gain a livelihood by their own industry, the best of subjects may become dissatisfied.

The proprietor will be at all times happy to receive any information concerning the misapplication of the public monies or the malefactions with which public officers may be charged, from the judge down to the crier. All are public servants, and their deeds should be laid before the country, who have a right to judge of them. We should perhaps except the Attorney General, and the Solicitor General, who have an exclusive, if not a patent right, to prosecute and forgive at pleasure. This discretion they particularly use in favour of those who vote for them at elections.

The proprietor will exclude from his columns all religious controversy, unless where a wanton attack is made upon any body of Christians. He desires that every man should be allowed to walk in his own peaceful ways without interference, as he is responsible for them to God alone.

**THE BYTOWN INDEPENDENT** will be published on good paper of a fair size and be charged at four dollars per annum exclusive of postage, payable semi-annually in advance, or as it may suit the proprietor. The press and types will arrive at Bytown in a few days. In conclusion, the proprietor begs leave to say, that he will not pledge himself to please either Whig or Tory. If he be satisfied with himself at the expiration of a year, he will treat himself and any well wisher to a bottle of something that shall be nameless at present.

**JAMES JOHNSTON,**  
Bytown, 16th December, 1835.

**PROSPECTUS.**

In the latter end of November, and the beginning of December, will be Published No. 1 of a new Weekly Periodical,  
To be Entitled  
**THE TRAVELLER,  
OR, PRINCE EDWARD GAZETTE.**

**AS** it is now nearly eleven months since any newspaper has been published in the District, it is presumed that the TRAVELLER will receive support from persons of every party, who, laying aside their prejudices, will unite in establishing a vehicle for the expression of their wants and wishes, their feelings and opinions, instead of annually sending away several hundred pounds for the purchase of other newspapers, whose wishes are often opposed to our own.  
Its publisher is pledged to no party whatever; but although devotedly attached to his King, his Country, and the Constitution of Canada, he will always be ready and willing to expose any known abuse in the Government, any departure from the path of duty in a servant of the Crown.

And, being well aware that the present and future prosperity of Upper Canada mainly depend on its connexion with the British Empire, it will always be his endeavour to cherish that connexion, and to frustrate the designs of those who, by dissolving it, would lead us to destruction.  
The publisher of the TRAVELLER is well acquainted with the duties and responsibilities of the office which he is about to assume; and he is determined to devote his time and talents, to the support of the King and Constitution, the promotion of morality, the
