FETHIS Journal is devoted to the Domestic and Local intelligence of England, fre-

land, Scotland and Wales. The origin and history of the EMIGRANT and of the OLD COUNTRY MAN are known to all our readers. The two papers were by mutual agreement of the respective Proprie tors united on the 7th Oct. last, and merged in one journal under the above title. The surcess so far has been highly flattering, and satisfies all the favourable expectations that were formed. At the period of the junction a great improvement was made, both in matter and Brown, was forfeited to the Comm. manaer of getting up, which the Proprietor has every reason to believe has met with the greatest approbation. ## THE ALBION. PROSPECTUS OF THE FOURTH VOLUME.

A Journal of the News, Politics, and Literature of Europe.

THE fourth volume of the New Series of THE ALBION commenced on the first Saturday of the present year, 1836.

This Journal, which embadies the News, Politics, and Literature of Europe, more particularly of Great Britain, has been established nearly Fourteen Years, and has obtained a reputation and circulation far surpassing the most sanguine expectations of its founders. This flattering encouragement has enabled the Proprietor, on three separate occasions, to improve, enlarge, and embellish the work, and to throw into its pages such an increased quantity of political, literary, and scientific matter, as to render it, in the estimation of its friends, mals, praying for the creation of an equitable one of the most efficient weekly journals in the English language.

In its details, the ALBION will be found to embrace-Notices and copious extracts from all the new publications of value, issuing from the British Press; the Debates in both Houses of Parliament, with the most remarkable Speeches at length-and the general intelligence of the British Empire, the Continent of Europe, and other parts of the globe. In its lighter portions will be found the most amusing and agreeable Tales of the British Periodicals. which are so remarkable for their lively and sparkling talent, selected with a diligence and care that has drawn forth the most unqualified approbation. Any thing that tends in the remotest degree to shock female delicacy, or to offend national affection, is carefully excluded, by which course the paper has become an inmate of the most respectable and intellectual families, and may be found in the Drawing the Testator, and to place the same in the sons on the North American Continent.

Poetry, History, Biography, Music, and the Drama, receive distinct and proper attention, while Scientific and Geographical Discoveries, Voyages, and Travels, &c. &c., are faithfully recorded. The Wit and Anecdote of the great European World,-the London and Parisian Fashions, and a weekly summary of the Miscellaneous intelligence of the day, complete the melange.

Each yearly volume contains about fiveand-twenty pieces of new and fashionable English, Freuch, Spanish, and Italian Music, together with frequent Maps, Plans, Sketches, and Diagrams, illustrative of subjects treated of in the general scope of the work. At the end of each volume, a handsome Title Page, & a copious and well-arranged Index are preconted to each subscriber.

The Albion is published every Saturday morning in the Quarto form, on a large imperial sheet of exceedingly fine paper, printed with beautiful type, at Six Dollars Per Annum, payable in advance.

Office, 77 Cedar Street, near Broadway, New York.

\* NOTE .- The following definition the author has attached to his original term presstraction: - The natural power that causes bodies to approach each other, without any sensible cause, through the elastic medium, electric pressure. From the nature of the real principle (pressure.) and the apparent one (traction,) causing the mutual approach of bodies or substances, without any visible cause, he has established the term per sstraction. The verb presstract seemingly carries a contradiction, (press-draw,) as the real and apparent cause producing gravity involves a contradiction. Therefore, the author thinks that presstraction is the most appropriate term to represent the principle of gravity. The above work, as far as it involves electricity, will be endorsed (through citation,) by the spirit of the phiner's Farm, and to all the other real estate of losophy of Franklin, relative to his electrical the late Joshua Pell, of Stamford, within this experiments, to establish the principles; but the applications however, are entirely origi-

Loyalists' Rights and Militia Claimants, respectfully recommend, that the suggestions of His Excellency be adopted, and that the Deeds do issue in the names of the original Grantees, to all persons who have received Location Tickets, as U. E. Loyalists or Militia Claimants, without further delay. And it is also recommended, that in future certain Townships may be set apart for the location of this description of persons, who may be authorised to receive Free Grants on account of their U. E. Loyalist or Militia Claims, and that the Deeds shall issue in the names of the Grantees respective-

ly, at the time of their location. These Regulations, made for the purpose of adjusting the question, which, for the interest of the Province, it is considered should not onger remain unsettled, are not to prevent U. E. Loyalists or Militia Claimants entitled to grants of land, from settling in other Townships, provided that they wish to occupy their own Locations, and to take up their residence

on the lots assigned to them. It is further recommended, that the Surreyor General be instructed to publish this order.
