

At a general meeting of the Celtic Society of Upper Canada, held at the British American Hotel, in the Town of Kingston, the 4th day of February, 1836, the following Resolutions were unanimously adopted.

Resolved,—That this Society having witnessed the inconvenience and loss which their fellow countrymen have experienced on their arrival in this, to them strange and foreign country, from the want of immediate information necessary to their location and future success; deems it advisable, as one of the most useful means to which it can apply a portion of its yet limited surplus funds, to offer a premium for the best written Essay on Upper Canada: the primary object of which shall be, to furnish Emigrants here, or the intending Emigrant at home, all possible information, with respect to Soil, Climate, Prospect and means of obtaining employment; cheapest and best routes of transportation; British and local Emigrant laws; necessary advice for the preservation of their health, and the husbandry of their resources; and such other disinterested and general information, as long residents acquainted with all the localities of the Province can give, and Emigrants can confidently, and therefore would most cheerfully receive. For although much has been written on this subject by individuals to their friends, yet the communications have most commonly been fractured with their own individual success or disappointments, and contain only such local information as could be obtained in their own immediate individual districts; therefore they do not deserve, nor can they obtain that confidence required to influence an enterprising Emigrant; nor have those communications issued by the different Emigrant Societies and Land Companies produced much better effects; for however pure the motive of communication, they are not free from the suspicion of being interested. From this Society, unconnected as its members are with land or other speculations, that could be expected in this case to bias their judgment, united as they principally are for the benefit of their countrymen, and as auxiliary to the parent society at home, whose benevolent views are so well known and appreciated, it is believed any information bearing its sanction would be productive of great good as it would be received with confidence by persons at home, desirous of emigrating to British North America. Therefore,

Resolved,—That a gold Medal shall be awarded by this Society to the author of the most approved Essay on the above subject, which shall in the most clear and comprehensive manner embrace the views contained herein, with such other information as may be useful to the emigrant.

Each Essay to be addressed to the Secretary of this Society, enclosing a sealed paper, containing the name and address of the Author, which paper will not be opened unless the author of the accompanying essay shall be the successful candidate.

The rejected as well as the successful essays to be the property of the Society. As the premium will be awarded on the 13th of September, no essay can be received after the first day of August.

Resolved,—That all newspapers in the Canadas, friendly to Emigration, be requested to give this publicity.

By Order, JOHN A. MACDONALD, Rec. Secretary.

TO LET,

FROM the first day of November next, that commodious House and Store, lately occupied by Messrs. J. D. Bryce & Co., situated on the west side of Store Street, in the Town of Kingston, near the Commercial Hotel. These premises are exceedingly well adapted for commercial purposes, being situated in that part of the Town best calculated for all kinds of business. If necessary, possession will be given on the 1st of June next. For further particulars application may be made either to James Nickalls, Jun. Esq. Kingston, or to Robert Maxwell, Esq. Montreal Bank, Quebec.

Kingston, 9th May, 1835. 63z

Steam Boat Notice.

AT a meeting of the Committee of the Steam Boat Brockville, H. Calder, Master, it was resolved, That she will commence her regular trips on the opening of the Navigation, and will leave Prescott for the head of the Bay of Quinte, on Tuesday and Friday afternoons, after the arrival of the Montreal Stages, and return, leaving the Trent and Belleville on Monday and Thursday mornings, touching at the intermediate places both up and down.

Belleville, 1st March, 1836. 72z

THE ALBION.

PROSPECTUS OF THE FOURTH VOLUME. A Journal of the News, Politics, and Literature of Europe.

THE fourth volume of the New Series of THE ALBION commenced on the first Saturday of the present year, 1836.

This Journal, which embodies the News, Politics, and Literature of Europe, more particularly of Great Britain, has been established nearly fourteen years, and has obtained a reputation and circulation far surpassing the most sanguine expectations of its founders. This flattering encouragement has enabled the Proprietor, on three separate occasions, to improve, enlarge, and embellish the work, and to throw into its pages such an increased quantity of political, literary, and scientific matter, as to render it, in the estimation of its friends, one of the most efficient weekly journals in the English language.

In its details, the ALBION will be found to embrace—Notices and copious extracts from all the new publications of value, issuing from the British Press; the Debates in both Houses of Parliament, and the most remarkable Speeches at length—and the general intelligence of the British Empire, the Continent of Europe, and other parts of the globe. In its lighter portions will be found the most amusing and agreeable Tales of the British Periodicals, which are so remarkable for their lively and sparkling talent, selected with a diligence and care that has drawn forth the most unqualified approbation. Any thing that tends in the remotest degree to shock female delicacy, or to offend national affection, is carefully excluded, by which course the paper has become an inmate of the most respectable and intellectual families, and may be found in the Drawing Rooms and on the tables of most literary persons in the North American Continent.

History, Biography, Music, and the Drama, receive distinct and proper attention, while Scientific and Geographical Discoveries, Voyages, and Travels, &c. &c., are faithfully recorded. The War and Anecdote of the great European World—the London and Parisian Fashions, and a weekly summary of the Miscellaneous Intelligence of the day, complete the *miscellany*.

Each yearly volume contains about five and twenty pieces of new and fashionable English, French, Spanish, and Italian Music, together with frequent Maps, Plans, Sketches, and Diagrams, illustrative of subjects treated of in the general scope of the work. At the end of each volume, a handsome Title Page, & a copious and well arranged Index are presented to each subscriber.

THE ALBION is published every Saturday morning in the Quarto form, on a large imperial sheet of exceedingly fine paper, printed with beautiful type, at Six Dollars Per Annum, payable in advance.

Office, 77 Cedar Street, near Broadway, New York.

PROSPECTUS OF THE Emigrant & Old Countryman.

THIS Journal is devoted to the DOMESTIC and Local Intelligence of England, Ireland, Scotland and Wales.

The origin and history of the EMIGRANT and of the OLD COUNTRYMAN are known to all our readers. The two papers were by mutual agreement of the respective Proprietors united on the 7th Oct. last, and merged in one journal under the above title. The success so far has been highly flattering, and satisfies all the favourable expectations that were formed. At the period of the junction a great improvement was made, both in matter and manner of getting up, which the Proprietor has every reason to believe has met with the greatest approbation. The editorial management was assigned to A. D. Paterson, Esq., a native of the Old Country, and a gentleman of classical attainments and literary acquirements. His efforts have been crowned with success.

The Emigrant and Old Countryman is intended for the use of the numerous British residents upon this continent—its details consisting of all the local news of the three Kingdoms; the numerous occurrences in the Mining, Agricultural, and Manufacturing districts, as well as the mighty Metropolis of England. The Internal Improvements, the Corporation proceedings of the different towns and cities, remarkable Trials, &c., are faithfully recorded; also the Spring Intelligence, state of the Markets, List of Bankrupts and Insolvents, &c. &c., all arranged under distinct heads, and adapted to such British residents in this country as cannot obtain access to the English papers.

The politics of the Emigrant and Old Countryman are liberal and impartial, and not warped by any feeling of party spirit whatever. It is published every Wednesday at No. 77 Cedar-street, New York, at Three Dollars per annum payable in advance.

The extensive circulation of the Emigrant and Old Countryman among people from the Old Country, renders it an excellent vehicle for land and other advertisements, conveying information to persons lately arrived in this country.

The new volume commenced on the 6th inst, being the first Wednesday of the month. The Proprietor and Editor return their hearty thanks to the public for the extraordinary patronage they have received, and pledge themselves that no efforts shall be wanting to render themselves worthy of it. As a proof of the rapidly extending circulation of the united papers, we may state that in the first three months after the junction, say from the 7th of Oct. to the 7th of January, four hundred and twenty-four new subscribers were received.

JUST received, and for sale at the corner of King and Brock Street, Ready Reckoners and Lennie's Grammar.

Kingston, Jan. 16, 1836.

REPORTS having been spread, that the CANADA INLAND FORWARDING AND INSURANCE COMPANY are about giving up the business, they beg leave to assure their Customers, and the Public generally, that these reports are groundless, and that they are determined to prosecute it with greater vigour than ever.

The Canada Inland Forwarding and Insurance Company have had no object in view, from their first establishment, but to secure to the public moderate rates of Freight between Montreal and the Upper Province. They started with a view to check, if not dissolve, a most powerful monopoly, and they have not one, nor ever had any project in view, such as compensating present losses by future extravagant charges. No, their only aim has been to save themselves from actual loss, and at the same time by the means of increasing and facilitating the intercourse between the two Provinces. Obtaining this, their highest wishes will be realized. And, on these grounds alone do they call for, and rely upon the firm support of the Merchants and Traders of these Colonies, whose interests are closely identified with those of this Company.

For the Committee of Management, ADAM FERRIE, Chairman.

Montreal, Dec. 31, 1835. 57

(COPY) In Council.

17th October, 1835.

THE Council having taken into consideration the Lieut. Governor's reference of the 5th instant, on the question of U. E. Loyalists' Rights and Militia Claimants, respectively recommend, that the suggestions of His Excellency be adopted, and that the Deeds do issue in the names of the original Grantees, to all persons who have received Location Tickets, as U. E. Loyalists or Militia Claimants, without further delay. And it is also recommended, that in future certain Townships may be set apart for the location of this description of persons, who may be authorised to receive Free Grants on account of their U. E. Loyalist or Militia Claims, and that the Deeds shall issue in the names of the Grantees respectively, at the time of their location.

These Regulations, made for the purpose of adjusting the question, which, for the interest of the Province, it is considered should no longer remain unsettled, are not to prevent U. E. Loyalists or Militia Claimants entitled to grants of land, from settling in other Townships, provided that they wish to occupy their own Locations, and to take up their residence on the lots assigned to them.

It is further recommended, that the Surveyor General be instructed to publish this order. (Signed) JOHN BEIRIE, Clerk Executive Council.

55 JOHN BEIRIE, Clerk Executive Council.

Kingston Cabinet Ware House,

Store Street, OPPOSITE THE COMMERCIAL HOTEL. E. CONE.

JUST RECEIVED, and for sale at the

Chronicle & Gazette Office, a TOWNSHIP MANUAL, neatly bound, comprising all the laws now in force relating to the townships; among which are the Highway and Assessment Acts; new township meeting act; The Laws respecting Boundaries; Line Fences and Water Courses; Inn-keepers; the law and office of Constable, the law of Landlord and Tenant; distress for rent; Court of Requests Act; Summary Punishment Act; Jury law; the laws relative to Mills and Mill Dams; Flour; Pot and Pearl Ashes; Statute labour; Travellers; Weights & Measures, &c.; and on many other interesting subjects.

By the Author of the "Provincial Justice." Price one Dollar.

Kingston, December 5, 1835. 64

PROSPECTUS FOR PUBLISHING

A COPPER-PLATE MAP OF THE MIDLAND DISTRICT.

THE Subscriber proposes, should sufficient encouragement be given, to publish a Map of the Midland District, including one range of Townships in the Newcastle District, on a scale of 160 Chains, or 2 miles to an Inch; exhibiting all the Mills, Churches, Roads, Rivers, Rivulets, Lakes, Churches, Meeting Houses, Post Offices, Saw Mills, Grist Mills, Towns, Villages, Wharves, Steam Boat Landings, &c. &c. by Lot, Concession and Township.

The undersigned, being about to build a Copper-plate Printing Press, is determined to Print, Publish, Varnish, and Mount, the proposed Map in his own Township, and therefore looks to a generous and enterprising public for patronage and support.

The Map will be nearly 3 by 4 feet; it will embrace four Ranges of Townships from the Bay of Quinte back; also Wolf, Howe, and Ancher Islands, with the small Islands adjacent to them, and will be executed in a style equal to the author's Map of Prince Edward. It will be published on a Copper engraving, Coloured, Varnished, Mounted on Rollers, and delivered to subscribers at four dollars per copy, payable on delivery.

P. V. ELMORE, 34

ALLAN MACPHERSON, P. M.

BLANKS—A great variety for sale at the Chronicle and Gazette Office.

PROSPECTUS

OF A WORK ENTITLED KEY TO THE PRINCIPLES OF NATURE.

COMPRISING the following systems as original, viz. I.—EBS AND FLOW OF THE TIDES, Caused by contraction and expansion, thro' cold and heat, from the alternate absence and presence of the Sun.

II.—GRAVITY, By a head pressure of the electric element, acting upon all matter as electric vacuums, which I term Prestraction.*

III.—MAGNETISM, By electricity as its legitimate cause, through electric vacuums, including the phenomena of the Compass by the same agent.

IV.—MOTION OF THE PLANETS, By one simple original impulse, assuming a curvilinear direction round their respective centres, by local and universal repulsion in opposition, from the electric atmospheres of their centres and universal space; thus neutralizing their orbits, relative to resistance.

V.—SEASONS, By the alternate inclination of the poles of the Earth, to and from the Sun, thus vibrating by the expansion and contraction of their atmospheres.

VI.—SATURN'S RINGS, As lunar reflectors for the polar regions of that planet.

VII.—CLIMATE, Distance of the remotest planets from the sun, as regards climate, is equalized by the increase of surface of those planets, which retains a greater proportion of light and heat, and thus maintains the same temperature with nearer planets.

By Thomas Jefferson Eddy, Copy Right secured according to Law.

The above work will be published at Watertord, Saratoga county, N. Y., as soon as sufficient number of Subscribers are obtained to warrant its publication, and contain from 225 to 250 pages duodecimo, medium size, on fair type and good paper, accompanied by two engravings, illustrating the power of prestraction (erroneously styled attraction), and universal motion. The former will be represented by a column of the electric element, resting upon a mass of matter (which I style an electric vacuum,) thereby causing it to gravitate towards the centre of the earth, which is one common vacuum in the electric element; also including in the same engraving, a representation of the power and agent of the magnet.

The latter (universal motion,) will be represented by a drawing of the solar system with the planets surrounded by the electric element with a division of its pressure into local and universal repulsion, by which each planet is caused, from philosophical principles, to travel in a curvilinear line round its centre by one simple and primary impetus.

As the above systems are entirely original, the author feels himself justified in presenting them to an enlightened community, respectfully soliciting their patronage to a work that comprises assigned causes for many of the natural phenomena, that have been looked upon by the whole school of philosophers as beyond the reach of human ken to fathom, and that have slumbered in the cradle of Nature's arcanes, from the commencement of time.

The author flatters himself that many causes of the striking phenomena which have been deemed past finding out, will be satisfactorily explained and developed. The price of the above work, bound in sheep, will be 6s. 3d; in calf, gilt, 7s. 6d; Halifax currency, exclusive of the duties.

WATERFORD, Saratoga Co., N. Y. Feb. 24, 1835.

*NOTE.—The following definition the author has attached to his original term prestraction:—The natural power that causes bodies to approach each other, without any sensible cause, through the elastic medium, electric pressure. From the nature of the real principle (pressure,) and the apparent one (traction,) causing the mutual approach of bodies or substances, without any visible cause, he has established the term prestraction. The verb presttract seemingly carries a contradiction, (prest-traction) as the real and apparent cause producing gravity involves a contradiction. Therefore, the author thinks that presttraction is the most appropriate term to represent the principle of gravity. The above work, as far as it involves electricity, will be endorsed (through citation,) by the spirit of the philosophy of Franklin, relative to his electrical experiments, to establish the principles; but the applications, however, are entirely original.

Dissolution of Partnership. THE Copartnership heretofore existing under the firm of HUNT & MORTON, as Brewers and Distillers, Kingston, U. C., is this day dissolved, by mutual consent. All outstanding debts, by book account, or otherwise, are to be paid to JAMES MORTON, who will also discharge all just claims against the firm.

BENJAMIN F. HUNT, JAMES MORTON.

March 26, 1836. 7z N. B. Immediate proceedings for collection will be taken against those persons whose Accounts remain unpaid. H. & M.

STEAM BOAT BROCKVILLE. A GREATABLY to notice, a meeting of the Stockholders was held this day at Mr. O. G. Muizer's Inn, when the following persons were duly elected as managing committee for the ensuing season.

COMMITTEE. Messrs. Smith Bartlett, Junr. } Belleville. and Stephen B-nson, } Belleville. John Miller, } Hallowell. T. McNider, } Kingston. Robert Harvey, } Brockville.

After which Mr. Billa Flint, Junr. was appointed Treasurer.

Belleville, March 1st, 1836. 74cm The following papers will insert the above for one month, and send their accounts to the Treasurer. The Traveller, Hallowell; the British Whig and Chronicle, Kingston; and Recorder, Brockville.

NOTICE. THE Subscriber respectfully informs his friends and the public, that he has received the following Goods on Commission, which he offers for sale at his old stand, in this town; Cognac Brandy, Holland's Gin, Jamaica Spirits, Shrub, Peppermint, Whisky, Port, Madeira, Brown Sherry, Sicilian and T. P. Penicill Wine, Muscovado Sugar, Coffee, Sine wine, Tobacco and Snuff, Bloom and Muscatel Raisins, Figs, Soap, Candles, Starch and Blue.

The above articles are as good a quality as any offered for sale in this market, and will be sold on reasonable terms; he, therefore, solicits a share of public patronage.
