HAMPANTS OF THE COUNTY OF FRONTENAC.

Having just returned amongst you at the fiding there are no loss than seven Caudidates wife as fit persons to represent this County ; many Candidates having offered them-Mer. I suppose Legislation must be a good himses, therefore I intend trying that science the ber to solicit a share of your patronage.

In offering myself as a Caudidate at the approaching election of Members to represent the County in the next House of Assembly, I feeling towards any other Candidates who claim to public confidence on higher grounds, tect its trade against foreign competition. by fearlessly stating that great changes must The bad state of our I take place in the Political condition of the my particular attention. Having nearly finished the principle part of the arrangements ordered in breaking up the Naval Establishment in Canada, I shall shordy be enabled to devote a due proportion my time to your best interest.

in travelling through the country I have observed that two kinds of politics are offered to the public, one kind composed of party spiril hostile feeling towards the Government, and Agitation, and the other composed of reason and common sense; the market for hostile feeling and Agitation, which had almost stoped our Improvements, appears on the decline, while reason and common sense are steadily on the advance, and will it is supposed be in general use, in the latter Articles I think n fair business may be done at present, in the Townships of Portland, Loughborough, Kingstoo, Pittsburg and Wolf Island, in this Countr, leaving the fourteen new Townships in the rear of the Midland District to be hereafter applied as occasion may require.

For the better encouragement of Agriculture and Trade in the Province, I am still of opiniso that a small protecting duty should be esublished on Farm Produce (for home consumption) imported from the United States of America-and as a question in political economy, I would ask how much protection the Agriculture of a country ought to have from its Legislature, and at what period of its existence a new country ought to be enabled to maintain

In setting out to address you, I feel particularly embarrassed, as I am yet, as it were, but commencing the troublesome career of life.

However the time has arrived that I behold my adopted Country in confusion, and as this is the period in which a new House of Assembly is to be summoned in hopes of rescuing it from its present perilous condition, and I have come forward at your solicitation for the purpose of offering myself to represent you in Parliament. I would only observe that should I be successful and in any way instrumental in forwarding the interests of the Country or the happiness or welfare of my fellow men it will be a pleasing reflection.

As it regards the liberality of my political principles it is too well known to require comment. Concerning other Candidates coming forward, I cannot say as to all or who they may be, as there are not yet any, who have publicly declared their intentions. I cannot therefore be considered as an Oppositionist.

The Industrious Farmers have no doubt learned by this time that either men in Office or professed Gentlemen are not the persons who will when in Parliament consult their wishes. No matter what their professions may be when soliciting their suffrages.

I have now but to assure you that on the day of the election I will be at my post, and should I have the honor of being elected, I shall consider it as an imperative duty to at- thing while at the same time I intended anotend to your interests.
