I.-EBB AND FLOW OF THE TIDES,

acting upon all matter as electric vacuums, which I term Presstraction. III.-MAGNETISM, By electricity as its legitimate cause, through electric vacuums, including the phenomena of

the Compass by the same agent. IV .- MOTION OF THE PLANETS, By one simple original impulse, assuming a curvilinear direction round their respective centres, by local and universal repulsion in opposition, from the electric atmospheres of their centres and universal space; thus neutrali-

zing their orbits, relative to resistance. V.-SEASONS, By the alternate inclination of the poles of the Earth, to and from the Sun, thus vibrating by the expansion and contraction of their at-

· VI.—SATURN'S RINGS, As lunar reflectors for the polar regions of that planet.

Distance of the remotest planets from the sup, as regards climate, is equalized by the increase of surface of those planets, which retains a greater proportion of light and heat, and thus maintains the same temperature with

nearer planets. By Thomas Jefferson Eddy,

Copy Right secured according to Law. The above work will be published at Waterford, Saratoga county, N. Y., as soon as sufficient number of Subscribers are obtained to warrant its publication, and contain from 225 to 250 pages duodecimo, medium size, on fair type and good paper, accompanied by two engravings, illustrating the power of presstraction (erroneously styled attraction,) and universal motion. The former will be represented by a column of the electric element, resting upon a mass of matter (which I style Business from the Hon. J. Kirby's Store to an electric vacuum,) thereby causing it to the large and convenient Store and Wharf of gravitate towards the centre of the earth, Mrs. Forsyth, lately occupied by Mr. A. Mc- which is one common vacuum in the electric Donell, where he will be always ready to in- clement; also including in the same engra spect such articles as may be consigned to him | ving, a representation of the power and agent

of the magnet. The latter (universal motion,) will be re resented by a drawing of the solar syster, with the planets surrounded by the electric element with a division of its pressure local and universal repulsion, by which cae planet is caused, from philosophical principle to travel in a curvilinear line round its centle by one simple and primary impetus.

As the above systems are entirely origina the author feels himself justified in presentic ; them to an enlightened community, respecwilly soften on their petros . . a work that in the prison and part in a second of the bar. ny tao amin'ny faritr'i praiosophora ao 1991. the reach of human ken to fathern, and the have slumbered in the cradle of Nature's ar-

cant, from the commencement of time. The author flatters himself that many causes of the striking phenomena which have be-in deemed past finding out, will be satisfactori; explained and developed. W- The price of the above work, bound in sheep, will be 6s. 3d in calf, gilt, 7s. 6d., Halifax currency, exclusive of the duties.

WATERFORD, Saratoga Co., ? N. Y. Feb. 28, 1835.
