

private stockholders should be paid by debentures for their advances. On Tuesday evening last, it appears, the House came to a division as follows:—For the report, 31;—against it 97;—majority in favor of the Report of the committee, 4.

Niagara Contested Election.—The Petition of Mr. Campbell against the return of Mr. Richardson, member for Niagara, was discharged on Tuesday evening, Mr. Campbell not having entered into the necessary security.

Lead Mines.—In another column we have copied from the Kingston Chronicle, an exceedingly well written article, relative to the Rossie lead mines, and the geological appearance of the country on both sides of the St. Lawrence. The researches of the writer are valuable for the scientific manner in which they were conducted, and the light which they throw upon the mineral wealth of this portion of the State. But a moiety of that wealth has been developed; every month, and almost every day adds something to the knowledge of the vast resources of this country, and resources, which, if improved, would at once elevate, to the highest degree of comparative prosperity this long neglected region of country. Fortunes have already been made by persons engaged in the mining business;—fortunes are yet in embryo, which will open and expand as industry, guided by scientific principles, shall be encouraged and protected.

A word to those interested in mining operations. Avail yourselves of the experience of past ages, if you would successfully prosecute your researches. Mining has been prosecuted with various success from time immemorial, and is now reduced to a system, based upon scientific principles; be guided by such lights, and you will not wander in the dark, but advance with full confidence to certain results. You will then avoid unnecessary expense, and serve yourselves and posterity.—[Watertown Eagle.

Watertown and Cape Vincent Rail Road.—The survey and estimates for this road are completed, and the result submitted to the public in the report of the engineer Mr. Dewey. The report estimates the cost of constructing the road, at \$145,965 88 or \$55,781 96 per mile. The distance is about 25 miles. This road when constructed is to unite with the Rome and Watertown Road at the latter place, and thus give a continuous route of about 100 miles through a delightful and richly cultivated country.—[Utica Observer.
